Wing-tsit Chan, 1969      **The Religious Question in Modern China** Vincent Goossaert, David A. Palmer, 2011-03-15 Recent events from strife in Tibet and the rapid growth of Christianity in China to the spectacular expansion of Chinese Buddhist organizations around the globe vividly demonstrate that one cannot understand the modern Chinese world without attending closely to the question of religion The Religious Question in Modern China highlights parallels and contrasts between historical events political regimes and cultural movements to explore how religion has challenged and responded to secular Chinese modernity from 1898 to the present Vincent Goossaert and David A Palmer piece together the puzzle of religion in China not by looking separately at different religions in different contexts but by writing a unified story of how religion has shaped and in turn been shaped by modern Chinese society From Chinese medicine and the martial arts to communal temple cults and revivalist redemptive societies the authors demonstrate that from the nineteenth century onward as the Chinese state shifted the religious landscape consistently resurfaced in a bewildering variety of old and new forms The Religious Question in Modern China integrates historical anthropological and sociological perspectives in a comprehensive overview of China's religious history that is certain to become an indispensable reference for specialists and students alike      *World Christian Trends Ad30-ad2200 (hb)* , 2001      **Contemporary China - An Introduction** Michael Dillon, 2008-11-19 This book presents an up to date and clear guide to the often bewildering changes which have taken place in China in the late twentieth and early twenty first centuries      **An Intellectual History of Modern China** Merle Goldman, Leo Ou-fan Lee, 2002-05-16 This book is the only comprehensive book on modern China's intellectual history      **Buddhism In Late Ch'ing Political Thought** Sin-wai Chan, 2019-03-05 This book is a revised version of the doctoral thesis I presented to the School of Oriental and African Studies University of London in 1977 It is basically an attempt to study the religious cultural and political significance of Buddhism in late Ch'ing intellectual thought through an examination of the writings of a few influential figures like liang Ch'ich'ao Kang Yu-wei Chang Ping-lin and particularly T'an Ssu-t'ung My findings reveal that Buddhism came to play a part in these reformers' thought as a result of several factors the rekindled interest in Buddhism brought about through the efforts of laymen such as Yang Wen-hui the need to find a counter balance to Christianity the search for a new unifying ideology for China as Confucianism crumbled before the challenge from the West and the immense potentiality of Buddhism to cater for the intellectuals' diverse cultural and political purposes The masterpiece of T'an Ssu-t'ung entitled *An Exposition of Benevolence Jen hsiieh* is chosen here to exemplify the use of Buddhism in late Ch'ing political thought Buddhism not only served as the all embracing school of his eclectic synthesis it also formed the foundation of the

major concepts in the treatise and was closely related to his radical thinking

**Transformations of the Buddhist Community in Modern China** Jayeeta Ganguly, 2017-08-31 Buddhism one of the greatest world religions spans 2500 years of Asian history It is a diverse complexity of not only doctrines and institutions but also ritual moral devotional and meditative practices Since the Awakening of Gautama Buddha in the fifth century B C E Buddhism has focused on the realization of enlightenment through the cultivation of morality meditation and wisdom While the vast array of Buddhist religious and cultural forms defines the breadth of the experience of Buddhism its profound spiritual quest for enlightenment defines its depth As Buddhism has evolved over the last few decades it may be speculated that Buddhism has become an indispensable part of China that could not be ignored even by the Communist regime Since the founding of New China in 1949 major reforms have taken place that have changed the lives of the monks and nuns and Buddhist lay devotees Very few Indian scholars have endeavoured to study this field A humble attempt is being made here to analyse the relevant conditions of Buddhism in this regard from available materials in English and Chinese In the present juncture of Sino Indian relations the present study will hopefully be of contemporary significance

**Tibetan Buddhists in the Making of Modern China** Gray Tuttle, 2005-04-26 Over the past century and with varying degrees of success China has tried to integrate Tibet into the modern Chinese nation state In this groundbreaking work Gray Tuttle reveals the surprising role Buddhism and Buddhist leaders played in the development of the modern Chinese state and in fostering relations between Tibet and China from the Republican period 1912 1949 to the early years of Communist rule Beyond exploring interactions between Buddhists and politicians in Tibet and China Tuttle offers new insights on the impact of modern ideas of nationalism race and religion in East Asia After the fall of the Qing dynasty in 1911 the Chinese Nationalists without the traditional religious authority of the Manchu Emperor promoted nationalism and racial unity in an effort to win support among Tibetans Once this failed Chinese politicians appealed to a shared Buddhist heritage This shift in policy reflected the late nineteenth century academic notion of Buddhism as a unified world religion rather than a set of competing and diverse Asian religious practices While Chinese politicians hoped to gain Tibetan loyalty through religion the promotion of a shared Buddhist heritage allowed Chinese Buddhists and Tibetan political and religious leaders to pursue their goals During the 1930s and 1940s Tibetan Buddhist ideas and teachers enjoyed tremendous popularity within a broad spectrum of Chinese society and especially among marginalized Chinese Buddhists Even when relationships between the elite leadership between the two nations broke down religious and cultural connections remained strong After the Communists seized control they continued to exploit this link when exerting control over Tibet by force in the 1950s And despite being an avowedly atheist regime with the exception of the Cultural Revolution the Chinese communist government has continued to recognize and support many elements of Tibetan religious if not political culture Tuttle s study explores the role of Buddhism in the formation of modern China and its relationship to Tibet through the lives of Tibetan and Chinese Buddhists and politicians and by drawing on previously

unexamined archival and governmental materials as well as personal memoirs of Chinese politicians and Buddhist monks and ephemera from religious ceremonies

Modern China's Foreign Policy Werner Levi, 1953-01-01 Modern China's Foreign Policy was first published in 1953 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions What are China's objectives in world affairs and what course will she pursue to achieve her goals These are the questions of vital concern to the Western democracies questions that can be approached intelligently only from a knowledge of how China's foreign policy has developed In this illuminating and carefully documented book Professor Levi analyzes China's attitudes and actions toward the rest of the world and clarifies many motivations behind her behavior past and present He traces the development of her foreign relations from the beginning of the modern era of Chinese contacts with Westerners a little more than hundred years ago The emphasis however is on the twentieth century and particularly on the years since the peace settlements of World War I The complex balance of relationships between China and the United States on the one hand and China and the Soviet Union on the other since the end of World War II is discussed in detail Communist doctrine notwithstanding its apparent rigidity is shown to be a conveniently adjustable tool capable of adaptation to the needs and strategies of present day China An integral part of the account is the attempt to single out and interpret the internal forces cultural social and economic that have influenced and shaped China's external policies Thus it is shown that the determinants of China's foreign policy have often been pressures and complexities within the country and that an understanding of the Chinese people and their traditions is essential to nations in their dealings with China
