## **Religious Authority In An Age Of Doubt:**

*Religious Authority in an Age of Doubt* Rupert E. Davies, 1968-01-01      *Religious Authority in an Age of Doubt* Rupert Eric Davies, 1968      **The Changing Shape of English Nonconformity, 1825-1925** Dale A. Johnson, 1999 This book addresses several dimensions of the transformation of English Nonconformity over the course of an important century in its history It begins with the question of education for ministry considering the activities undertaken by four major evangelical traditions Congregationalist Baptist Methodist and Presbyterian to establish theological colleges for this purpose and then takes up the complex three way relationship of ministry churches colleges that evolved from these activities As author Dale Johnson illustrates this evolution came to have significant implications for the Nonconformist engagement with its message and with the culture at large These implications are investigated in chapters on the changing perception or understanding of ministry itself religious authority theological questions such as the doctrines of God and the atonement and religious identity In Johnson s exploration of these issues conversations about these topics are located primarily in addresses at denominational meetings conferences that took up specific questions and representative religious and theological publications of the day that participated in key debates or advocated contentious positions While attending to some important denominational differences *The Changing Shape of English Nonconformity 1825 1925* focuses on the representative discussion of these topics across the whole spectrum of evangelical Nonconformity rather than on specific denominational traditions Johnson maintains that too many interpretations of nineteenth century Nonconformity especially those that deal with aspects of the theological discussion within these traditions have tended to depict such developments as occasions of decline from earlier phases of evangelical vitality and appeal This book instead argues that it is more appropriate to assess these Nonconformist developments as a collective necessary and deeply serious effort to come to terms with modernity and further to retain a responsible understanding of what it meant to be evangelical It also shows these developments to be part of a larger schema through which Nonconformity assumed a more prominent place in the English culture of the nineteenth and early twentieth centuries      **Islamic Religious Authority in a Modern Age** Shaheen Amid Whyte, 2024-01-22 This book situates Australian Muslim experiences of religious authority within the global context of Islam in the modern world While drawing on examples of Muslim majority states new empirical findings indicate the growing diversity of Muslim religious actors in Australia as well as the contextual realities shaping the way religious authority is legitimised and contested in democratic and authoritarian environments In particular the study challenges homogenous articulations of Islamic religious authority in unearthing new voices epistemologies and socio political factors shaping Muslim attitudes and experiences of religious authority The book fills important gaps in the field such as intra Muslim relations female religious authority digital Islam and the relationship between traditional ulama reformists and Muslim intellectuals in the West      **Religion Authority in an Age of Doubt** Rupert Eric Davies, 1968      *Children in Colonial America* James Alan

Marten,2007 Examining the aspects of childhood in the American colonies between the late 16th and late 18th centuries this text contains essays and documents that shed light on the ways in which the process of colonisation shaped childhood and in turn how the experience of children affected life in colonial America      **Tradition and Modernity** David

Marshall,2013-05-20 Tradition and Modernity focuses on how Christians and Muslims connect their traditions to modernity looking especially at understandings of history changing patterns of authority and approaches to freedom The volume includes a selection of relevant texts from 19th and 20th century thinkers from John Henry Newman to Tariq Ramadan accompanied by illuminating commentaries      **Secularisms in a Postsecular Age?** José Mapril,Ruy Blanes,Emerson

Giumbelli,Erin K. Wilson,2017-02-24 This volume ethnographically explores the relation between secularities and religious subjectivities As a consequence of the demise of secularization theory we live in an interesting intellectual moment where the so called post secular coexists with the secular which in turn has become pluralized and historicized This cohabitation of the secular and post secular is revealed mainly through political dialectical processes that overshadow the subjective and inter subjective dimensions of secularity making it difficult to pinpoint concrete sites agents and objects of expression Drawing on cases from South America Africa and Europe contributors apply key insights from religious studies debates on the genealogies and formations of both religion and secularism They explore the spaces persons and places in which these categories emerge and mutually constitute one another      *Messianic Zionism in the Digital Age* Rachel Z.

Feldman,2024-03-15 Judaism in the twenty first century has seen the rise of the messianic Third Temple movement as religious activists based in Israel have worked to realize biblical prophecies including the restoration of a Jewish theocracy and the construction of the third and final Temple on Jerusalem s Temple Mount Through groundbreaking ethnographic research Messianic Zionism in the Digital Age details how Third Temple visions have gained considerable momentum and political support in Israel and abroad The role of technology in this movement s globalization has been critical Feldman skillfully highlights the ways in which the internet and social media have contributed to the movement s growth beyond the streets of Jerusalem into communities of former Christians around the world who now identify as the Children of Noah Bnei Noah She charts a path for future research while documenting the intimate effects of political theologies in motion and the birth of a new transnational Judaic faith      **Berkeley Journal of Religion and Theology, Vol.2, No. 2** BJRT

Kevin Reinhart,2020-06-11

This book is designed to serve as a text for courses on modern Islam. It challenges misleading questions which foster assumptions of Islam as a monolithic essence to instead argue that Islam like all religions is complex and thus best understood through analogy with language.

**Heresy, Magic and Witchcraft in Early Modern Europe** Gary K Waite, 2019-10-10. In the fifteenth century many authorities did not believe Inquisitors' stories of a supposed Satanic witch sect. However, the religious conflict of the sixteenth century Reformation, especially popular movements of reform and revolt, helped to create an atmosphere in which diabolical conspiracies which swept up religious dissidents, Jews, and magicians into their nets were believed to pose a very real threat. Fear of the Devil and his followers inspired horrific incidents of judicially approved terror in early modern Europe, leading after 1560 to the infamous witch hunts. Bringing together the fields of Reformation and witchcraft studies, this fascinating book reveals how the early modern period's religious conflicts led to widespread confusion and uncertainty. Gary K Waite examines in depth how church leaders dispelled rising religious doubt by persecuting heretics and how alleged infernal plots and witches who confessed to making a pact with the Devil helped the authorities to reaffirm orthodoxy. Waite argues that it was only when the authorities came to terms with pluralism that there was a corresponding decline in witch panics.

**The Age of Sacred Terror** Daniel Benjamin, Steven Simon, 2003-10-14. Winner of the 2004 Arthur Ross Book Award from the Council on Foreign Relations. From two of the world's foremost experts on the new terrorism comes the definitive book on the rise of al Qaeda and America's efforts to combat the most innovative and dangerous terrorist group ever. Daniel Benjamin and Steven Simon trace the growth of radical Islam from its medieval origins and drawing on their years of counterterrorism work at the National Security Council, provide essential insights into the thinking of Usama bin Laden and his followers. With unique authority they analyze why America was unable to defend itself against this revolutionary threat on September 11, 2001, why bin Laden's apocalyptic creed is gaining ground in the Islamic world, and what the United States must do to stop the new terror.

Religions of Authority and the Religion of the Spirit Auguste Sabatier, 1904.

Practical Spiritualities in a Media Age Curtis Coats, Monica M. Emerich, 2015-11-19. We live in a media age where technologies become the sites and sources of our practices and beliefs, including those deeper values that guide decisions about how we should live. *Practical Spiritualities in a Media Age* explores how and why media become the site and source of spiritual expressions that address the mundane or everydayness of our lives. Including international case studies and essays from leading scholars such as Stewart Hoover and Graham Harvey, the book examines the ways and the places in which people have employed media and information technologies to weave spiritual meaning throughout the demands and pastimes of their lives. Topics range from food and sex to spiritual tourism. In doing so, the volume takes up a call from Paul Heelas' seminal work *Spiritualities of Life* to provide more examples, more richness, and more depth to the variety of spiritual practices that exist in late modernity. Providing critical scholarly explorations of the complexities and contradictions of late modern spiritual practices, *Practical Spiritualities in a Media Age* is a must read for anyone working in

the intersection of media religion or spirituality and culture      Discipleship in a Post-Christian Age Thiago Silva, 2025-05-20 This is an age where Christianity is no longer the assumed foundation of culture Instead secularism relativism and individualism shape how people think live and even approach faith Many within the church have unknowingly embraced a shallow self focused spirituality that offers comfort without transformation How can the church recover a robust life giving vision of discipleship in such a world With a little help from C S Lewis this book offers a way forward Lewis s insights rooted in reason imagination and community speak powerfully to this modern crisis equipping believers to engage both mind and heart Through cultural analysis and biblical wisdom this book calls the church to rediscover discipleship as an intellectual imaginative and relational pursuit one that forms resilient thoughtful and deeply rooted followers of Christ Whether picked up by a pastor church leader or everyday disciple longing for deeper faith this book will challenge and inspire readers to cultivate a Christianity that is not only true but beautiful and compelling in an increasingly post Christian world      A *Secular Age beyond the West* Mirjam Künkler, John Madeley, Shylashri Shankar, 2018-07-05 This book traces religion and secularity in eleven countries not shaped by Western Christianity Japan China Indonesia India Pakistan Iran Russia Turkey Israel Egypt and Morocco and how they parallel or diverge from Charles Taylor s grand narrative of the North Atlantic world A *Secular Age* 2007 In all eleven cases the state enhanced by post colonial and post imperial legacies highly determines religious experience by variably regulating religious belief practice property education and or law Taylor s core condition of secularity namely legal permissibility and social acceptance of open religious unbelief Secularity III is largely absent in these societies The areas affected by state regulation however differ greatly In India Israel and most Muslim countries questions of religious law are central to state regulation But it is religious education and organization in China and church property and public practice in Russia that bear the brunt This book explains these differences using the concept of differential burdening      Sufism in an Age of Transition Erik Ohlander, 2008-02-28 Although the early thirteenth century was a critical period in the development of Sufism it has received little scholarly attention Based on heretofore unexplored sources this book examines a pivotal figure from this period the scholar mystic statesman and eponym of one of the earliest ar qa lineages Umar al Suhraward In situating Suhraward s life work in its social political and religious contexts this book suggests that his universalizing Sufi system was not only enmeshed within a broader economy of Muslim religious learning but also furnished social spaces which allowed for novel modes of participation in Sufi religiosity In doing so this book provides a framework for understanding the increasingly ubiquitous presence of intentional Sufi communities and institutions throughout the late medieval Islamic world      **An Age of Infidels** Eric R. Schlereth, 2013-03-05 Historian Eric R Schlereth places religious conflict at the center of early American political culture He shows ordinary Americans both faithful believers and Christianity s staunchest critics struggling with questions about the meaning of tolerance and the limits of religious freedom In doing so he casts new light on the ways Americans reconciled their varied religious beliefs with political change at a formative

moment in the nation's cultural life. After the American Revolution, citizens of the new nation felt no guarantee that they would avoid the mire of religious and political conflict that had gripped much of Europe for three centuries. Debates thus erupted in the new United States about how or even if long-standing religious beliefs, institutions, and traditions could be accommodated within a new republican political order that encouraged suspicion of inherited traditions. Public life in the period included contentious arguments over the best way to ensure a compatible relationship between diverse religious beliefs and the nation's recent political developments. In the process, religion and politics in the early United States were remade to fit each other. From the 1770s onward, Americans created a political rather than legal boundary between acceptable and unacceptable religious expression, one defined in reference to infidelity. Conflicts occurred most commonly between deists and their opponents who perceived deists' anti-Christian opinions as increasingly influential in American culture and politics. Exploring these controversies, Schlereth explains how Americans navigated questions of religious truth and difference in an age of emerging religious liberty.

Social Conflict in the Age of Justinian Peter N. Bell, 2013-04-04

Social Conflict in the Age of Justinian explores a range of often violent conflicts across the whole empire during AD 527-565. These conflicts were reflected at the ideological level and led to intense persecution of intellectuals and Pagans as an ever more robust Christian ideological hegemony was established.
