Religious Experience Scientific Method:

Religious Experience and Scientific Method Henry Nelson Wieman, 1926 Religious Experience and Scientific Method Henry Nelson Wieman, 1971 Religious Experience and Scientific Method. Wieman Henry Nelson Wieman, 1970

Religion and Radical Empiricism Nancy Frankenberry, 1987-01-01 Rarely in modern times has religion been associated with empiricism except to its own peril This book represents a comprehensive and systematic effort to retrieve and develop the tradition of American religious empiricism for religious inquiry Religion and Radical Empiricism offers a challenging account of how and why reflection on religious truth claims must seek justification of those claims finally in terms of empirical criteria Ranging through many of the major questions in philosophy of religion the author weaves together a study of the varieties of empiricism in all its historical forms from Hume to Quine She finds in James and Dewey in Wieman Meland and Loomer of the Chicago School in Whitehead and in Abhidharma Buddhism constructive elements of a radically empirical approach to the controversial topic of religious experience This work provides a strong counter argument to critics of revisionary theism to caricatures of philosophy as conversation and to any collapse of the category of experience into its linguistic forms Religion and Scientific Method G. Schlesinger, 2012-12-06 I With the immense success of modern science it has generally become accepted that the only way to acquire knowledge is by the use of the method uniformly practiced by working scientists Consequently the credibility of the claims of religion which seem to be based on belief in revelation tradition authority and the like have been considerably shaken In the face of the serious threat provided by the ascendancy of modern scientific methodology religious thinkers have adopted various defensive attitudes Some have retreated into an extreme position where Theism is completely safe from any attack on it by the use of empirical methods of inquiry maintaining that contrary to appearances religion makes no factual claims whatsoever To be religious they say is to subscribe to a certain value system it is to adopt a set of practices and a given attitude to the meaning and purpose of life without making any assertions about this or that empirical feature of the universe Others wishing to remain more faithful to what religion traditionally meant throughout the ages agree that Theism does make factual claims but that these are so radically different from the kind of claims made by science that it is only right that they should be established by a separate method on its own In matters of faith reliance on widely entrenched tradition and sacred authority is not objectionable according to some The Journal of Philosophy, Psychology and Scientific Methods Frederick James Eugene Woodbridge, Wendell T. Bush, 1918 **The Journal of Philosophy, Psychology, and Scientific Methods** , 1919 *Religious Experience Reconsidered* Ann Taves, 2011-10-23 Annotation Ann Taves addresses the subject of religious experience directly and the problems of reductionism and humanistic fears of the sciences indirectly and by example The orientation of this book is practical more than philosophical The American Church Monthly , 1926 Twentieth-Century Western Philosophy of Religion 1900-2000 Eugene Thomas Long, 2012-12-06 In the fall of 1994 Hendrik Jan van Leusen an acquisitions editor from

Kluwer Academic Publishers visited me in my home to discuss a proposal for a handbook in the philosophy of religion. He reported that he had been talking about this with philosophers of religion at several universities and that the response to the idea had been quite favorable. I suggested that given the different approaches to the philosophy of religion it might be good for him to meet with philosophers representing different philosophical traditions at an upcoming meeting of the Eastern Division of the American Philosophical Association. Jude Dougherty, Joseph Kockelmans, Robert Neville, William Rowe, and Merold Westphal kindly agreed to attend that meeting. They made many substantial and helpful suggestions, and a summary of the discussions was sent to van Leusen. Some months later he wrote to inquire whether I might consider editing the series and writing the first volume, which was to provide a historical map of twentieth-century western philosophy of religion. Although I could imagine myself editing the series, I was initially reluctant to undertake the task of writing a volume that would take me across the lines of many different philosophical traditions. By coincidence, I had been asked some months earlier to contribute an essay on the philosophy of religion for a conference being held at the Catholic University of America on the general topic *One Hundred Years of Philosophy*.

William L. Rowe on Philosophy of Religion William L. Rowe, Nick Trakakis, 2017-05-15 William Rowe is one of the leading thinkers in contemporary philosophy of religion. Although he is best known for his contributions to the problem of evil, he has produced innovative and influential work across a wide array of subjects at the interface between philosophy and religion. He has, for example, written extensively on the existentialist theologian Paul Tillich on the challenging problem of divine freedom and on the traditional arguments in support of the existence of God. His work in these areas is distinguished by its clarity, rigour, originality, and sensitivity towards the claims of his theistic opponents. Indeed, Rowe's work has played a pivotal role in the remarkable revival of analytic philosophy of religion since the 1970s. The present collection brings together for the first time Rowe's most significant contributions to the philosophy of religion. This diverse but representative selection of Rowe's writings will provide students, professional scholars, as well as general readers with stimulating and accessible discussions on such topics as the philosophical theology of Paul Tillich, the problem of evil, divine freedom, arguments for the existence of God, religious experience, life after death, and religious pluralism.

Psychosis or Mystical Religious Experience? Susan L. DeHoff, 2018-02-13 This book presents a new paradigm for distinguishing psychotic and mystical religious experiences. In order to explore how Presbyterian pastors differentiate such events, Susan L. DeHoff draws from Reformed theology, psychological theory, and robust qualitative research. Following a conversation among multidisciplinary voices, she presents a new paradigm considering the similarities, differences, and possible overlap of psychotic and mystical religious experiences.

The Varieties of Religious Experience William James, 2012-06-14 Drawing on psychology, philosophy, and literature, William James's classic survey of religious belief gathers testimony from a huge range of diverse sources to construct a defence of the individual religious experience. It speaks powerfully to the modern debate on atheism and faith in the most critically up-to-date edition available.

Theories

of Religion Seth Daniel Kunin, Jonathan Miles-Watson, 2006 This book provides a comprehensive selection of readings that relate to and explore the definition of religion The texts come from a wide range of approaches unified both by the questions they are addressing and their broadly social scientific perspective The disciplines covered include anthropology phenomenology psychology and sociology The editors have also included some key texts relating to the feminist approach to and critique of religion The first section of the book includes some of the foundational texts such as materials by Marx Freud and Durkheim The remaining sections look at more recent discussions of the issues from the different disciplinary perspectives Each reading is introduced by a biographical sketch of the author The book also includes introductory discussions to each section that both raise the key issues developed in a particular discipline and address the disciplinary approaches from a more critical stance *Theories of Religion A Reader* is an invaluable critical resource accessible to a broad audience as well as students of theology and religious studies NIDA Research Monograph ,1976 Systematics Critical and Constructive 1

Ronald R. Ray, 2018-08-15 This labor of love distills Dr Ron Ray s lifetime reflections on the truth and meaning of the gospel of Jesus Christ Gathered in one volume is an abundant harvest from the best of twentieth century systematic theology Beginning students will find here an informative and clear introductory text Working pastors will receive a refresher course to steady and strengthen a ministry of integrity and joy Preachers will benefit from the author s recommendation of the topical biblical sermon an approach that leads to contemporary topics for textually based scriptural preaching while reinvigorating topical preaching with scriptural sturdiness With both conviction and transparency Ray welcomes his readers into a thoughtful conversation about why and how the Christian message still matters today In the process we also see firsthand how and why systematic theology can still matter today for those entrusted with proclaiming the good news of Jesus Christ James F Kay Dean and Vice President of Academic Affairs Professor Princeton Theological Seminary This critical and constructive perspective interacts with such fields as biblical studies Old and New Testament theology hermeneutics and other philosophy Ray s synthesis arises out of a unique theological and pastoral pilgrimage as a minister in the United States and as a missionary theologian and Christian ethicist in Nigeria and Kenya As one might expect from a scholar who did the first PhD dissertation on Jacques Ellul Ray writes with a forthright probing honest style He criticizes authors at highly specific points but often demonstrates indebtedness to the same scholars He is deeply informed by the New Testament and secondarily by the Old Testament yet insists that interpretive dishonesty is no Christian virtue Leicester R Longden Assoc Professor of Evangelism and Discipleship Emeritus University of Dubuque Theological Seminary

Theology as an Empirical Science Douglas Clyde Macintosh, 1919 The Journal of Religion , 1925 Includes section Book reviews *The Touch of God* Charles R. Meyer, 2002-05-30 The most important matter of concern for theologians today as always is the existence of God Theologians of the past have relied upon rational proofs for God s existence especially those based on an analysis of contingency and causality These Thomistic proofs served their purpose in a culture that was

permeated with philosophical orientations and metaphysical argumentation But such logical arguments seem to have lost their relevance in our technological age Many people today are looking to religion not so much for spiritual guidance counseling or psychotherapy as for some kind of experience of the mystery which is God Individuals seeking meaning and hope in their lives are not comforted by a God described as the Necessary Cause or Unmoved Mover Rather they seek to experience the presence of the personal and loving God of Biblical revelation and the Judeo Christian tradition They search for signs of the divine presence in their daily life experiences This problematic of identifying God's presence in an experience may necessitate the construction of an entirely new theological methodology radically different from the traditional one which proceeded largely by way of rational analysis Realizing this Father Meyer analyzes from the theological point of view the experience of God's presence in daily life and surveys the criteria and norms by which that experience can be identified as being of divine origin He also includes an analysis of the fundamental yet often forgotten role of the Holy Spirit in religious experience thereby exploring the basis of the current Pentecostal movement

Mind ,1919 A quarterly review of philosophy

Ignite the flame of optimism with Crafted by is motivational masterpiece, Fuel Your Spirit with **Religious Experience Scientific Method** .
