Regional, Critical, and Historical Approaches Peter Antes, Armin W. Geertz, Randi R. Warne, 2008-12-19 Internationally recognized scholars from many parts of the world provide a critical survey of recent developments and achievements in the global field of religious studies The work follows in the footsteps of two former publications Classical Approaches to the Study of Religion edited by Jacques Waardenburg 1973 and Contemporary Approaches to the Study of Religion edited by Frank Whaling 1984 85 New Approaches to the Study of Religion completes the survey of the comparative study of religion in the twentieth century by focussing on the past two decades Many of the chapters however are also pathbreaking and point the way to future approaches

The Second Vatican Council on Other Religions Gerald O'Collins, 2013-03-28 Many observers greeted the Second Vatican Council 1962 65 as the most important religious event in the twentieth century Its implementation and impact are still being felt in the Catholic Church the wider Christian world and beyond One sea change that Vatican II brought concerned Roman Catholic attitudes towards Judaism Islam and other religions Gerald O Collins breaks fresh ground

by examining in detail five documents from the Council which embodied a new mindset about other religious faiths and mandated changes that quickly led to international and national dialogues between the Catholic Church and the followers of non Christian religions The book also includes chapters on the insights that prepared the way for the rethinking expressed by Vatican II and on the follow up to the Council s teaching found in the work of Pope John Paul II and Jacques Dupuis O Collins ably illustrates how the Council made a startling advance in official Catholic teaching about followers of other living faiths Carefully researched the book is written in the clear accessible style that readers of previous works by O Collins will recognize

Excel Senior High School Studies of Religion Louise Fleming,2001 *New Approaches to the Study of Religion: Regional, critical, and historical approaches* Peter Antes,Armin W. Geertz,Randi Ruth Warne,2004 Internationally recognized scholars from many parts of the world provide a critical survey of recent developments and achievements in the global field of religious studies The work follows in the footsteps of two former publications Classical Approaches to the Study of Religion edited by Jacques Waardenburg 1973 and Contemporary Approaches to the Study of Religion edited by Frank Whaling 1984 85 New Approaches to the Study of Religion completes the survey of the comparative study of religion in the twentieth century by focussing on the past two decades Many of the chapters however are also pathbreaking and point the way to future approaches

Clashes of Knowledge Peter Meusburger,Michael Welker,Edgar Wunder,2008-04-15 Do traditional distinctions between belief and knowledge still make sense How are differences between knowledge and belief understood in different cultural contexts This book explores conflicts between various types of knowledge especially between orthodox and heterodox knowledge systems ranging from religious fundamentalism to heresies within the scientific community itself Beyond addressing many fields in the academy the book discusses learned individuals interested in the often puzzling spatial and cultural disparities of knowledge and clashes of knowledge

Religion and Change in Australia Adam Possamai,David Tittensor,2022-03-30 This timely book offers a panoramic overview of the enduring significance of religion in modern Australian society Applying sociological perspectives and contemporary theories of religion in society it challenges conventional assumptions around the extent of secularisation in Australia and instead argues that religious institutions groups and individuals have proved remarkably adaptable to social change and continue to play a major role in Australian life In doing so it explores how religion intersects with a wide range of other contemporary issues including politics race migration gender and new media Religion and Change in Australia explores Australia s unique history regarding religion Christianity was originally imported as a tool of social control to keep convicts settlers and Australian Aboriginal peoples in check This had a profound impact on the social memory of the nation and lingering resentment towards the excessive presence of religion continues to be felt today Freedom of religion was enshrined in Section 116 of the Australian Constitution in 1901 Nevertheless the White Australia Policy effectively prevented adherents of non Christian faiths from migrating to Australia and the nation remained overwhelmingly Christian However after WWII Australia in common with

other western societies appears to have become increasingly secularised as religious observance declined dramatically. However, *Religion and Change in Australia* employs a range of social theories to challenge this secularist view and argues that Australia is a post secular society. The 2016 census revealed that over half of the population still identify as Christian. In politics, the socially conservative religious right has come to exert considerable influence on the ruling Liberal National Coalition, particularly under John Howard and Scott Morrison. New technologies such as the Internet and social media have provided new avenues for religious expression and proselytisation, whilst so called megachurches have been built to cater to their increasing congregations. The adoption of multiculturalism and increased immigration from Asia has led to a religiously pluralist society, though this has often been controversial. In particular, the position of Islam in Australia has been the subject of fierce debate, and Islamophobic attitudes remain common. Atheism, non belief, and alternative spiritualities have also become increasingly widespread, especially amongst the young. *Religion and Change in Australia* analyses these developments to offer new perspectives on religion and its continued relevance within Australian society. This book is therefore a vital resource for students, academics, and general readers seeking to understand contemporary debates surrounding religion and secularisation in Australia.

Inventing Catholic Tradition Terrence W. Tilley, 2011-06-07. This creative argument that traditions are neither found nor made but are invented and reinvented in practice is carried out in dialogue with scholars such as Yves Congar and George Lindbeck. Tilley examines the actual practices as the bearers of tradition and argues that vibrant and meaningful traditions must be reinvented or reconstructed in every generation. He demonstrates how deliberately invented or imposed traditions are often resisted. Tilley applies his analysis to the Catholic Intellectual Tradition and in the last chapter shows how truth, revelation, and authority can be accommodated by a constructivist practical theology of tradition.

Blood, Bones and Spirit Heather McDonald, 2012-11-27. In this fascinating and beautifully written book, Heather McDonald examines Aboriginal people's experiences of colonialism and post colonialism in the nineteenth and twentieth centuries. *Blood, Bones and Spirit* analyses how Aboriginal people have appropriated Biblical stories of land inheritance, expansion, and loss in order to make sense of their own dispossession. It investigates the embodiment of Christianity by Aboriginal people through their appropriation of Christ's body, his blood, bones, and spirit in order to replenish and heal their own colonised bodies. Indeed, this local study of Christianisation in a small East Kimberley town presents a challenge to the very history and philosophy of Western religion. Heather McDonald spreads out before the reader various aspects of Aboriginal Christianity: the way Aborigines have assimilated Christian stories to make sense of their history and their relationships with the dominant society; their understanding of what it means to be Christian; their church activities; and their conflicting interpretations of the Christian way of life. Aboriginal Christians are repossessing the land and reclaiming a traditional earth bound world immanent spirituality. These Aboriginal understandings of colonisation, including missionisation and Aboriginal ways of interpreting and understanding Christianity, offer a unique contribution to the

reconciliation process Sociology of Religion for Generations X and Y Adam Possamai, 2016-04-08 Generations X and Y are plugged into the contemporary world of consumption popular culture and the internet These generations treat knowledge and belief as a more flexible concept often focusing on the practical rather than the theoretical and often drawing on conflicting sources in both popular and cyber culture Their approach to religious belief and practice requires a new way of studying the sociology of religion Sociology of Religion for Generations X and Y examines key world religions Buddhism Christianity and Islam as well as newer religious groups such as Scientology New Age Witchcraft and online communities such as Jediism and Matrixism The book covers a range of key concepts secularisation and modernisation re enchantment the McDonaldisation of society and the easternisation of the west Each chapter opens with a case study from popular culture or the internet which takes the reader to the heart of the topic being discussed Employing both classical sociological theory and contemporary critical theory Sociology of Religion for Generations X and Y explains where contemporary religion and spirituality are coming from where they are now and where they are going **The Beginning of All Things** Hans Kng, 2008-06-06 In an age when faith and science seem constantly to clash can theologians and scientists come to a meeting of minds Yes maintains the intrepid Hans K ng as he brilliantly argues here that religion and science are not mutually exclusive but complementary Back cover *For Self-examination and Judge for Yourself!* Robert L.
