Religious Philosophy Of Tanabe Hajime:

The Religious Philosophy of Tanabe Hajime Taitetsu Unno, James W. Heisig, 1990 This collection of papers focuses on Philosophy as Metanoetics the seminal work of the celebrated Japanese philosopher Tanabe Hajime 1885-1962

Philosophy as Metanoetics Hajime Tanabe, 1986 Tanabe's agenda was not religious but philosophical in that he tried to integrate Eastern and Western insights in order to acquire a cross-cultural philosophical vision for the post-war world community This book shows his superior philosophical originality It is high time that Tanabe's thought should be introduced to the West Joseph Kitagawa University of Chicago **The Religious Philosophy of Tanabe Hajime** Taitetsu

Unno, 2020-05-30 This collection brings together a series of papers delivered at an international symposium on metanoetics held at Smith College October 1989 The symposium was inspired by publication of the English translation of Tanabe Hajime's *Philosophy as Metanoetics* in 1986 which marked another milestone in the introduction of Japanese philosophy to the West Nineteen representative scholars in the fields of philosophy and religion discuss the implications of metanoetics and other aspects of Tanabe's thought for our understanding of Shin Buddhism Christianity philosophy and society Among the wide variety of topics covered are the meaning of Shin Buddhism for the West the encounter of Buddhism and Christianity and the relation of religious philosophy to society c Chisokudo Publications 2020 Also available as an Apple iBook *Faith and Reason in Continental and Japanese Philosophy* Takeshi Morisato, 2019-05-02 This book brings together the work of two significant figures in contemporary philosophy By considering the work of Tanabe Hajime the Japanese philosopher of the Kyoto School and William Desmond the contemporary Irish philosopher Takeshi Morisato offers a clear presentation of contemporary comparative solutions to the problems of the philosophy of religion Importantly this is the first book-length English language study of Tanabe Hajime's philosophy of religion that consults the original Japanese texts Considering the examples of Christianity and Buddhism *Faith and Reason in Continental and Japanese Philosophy* focuses on finding the solution to the problem of philosophy of religion through comparative examinations of Tanabe's metanoetics and Desmond's metaxology It aims to conclude that these contemporary thinkers while they draw their inspiration from the different religious traditions of Christianity and Mahayana Buddhism successfully reconfigure the relation of faith and reason *Faith and Reason in Continental and Japanese Philosophy* marks an important intervention into comparative philosophy by bringing into dialogue these thinkers both major figures within their respective traditions yet rarely discussed in tandem

Asian Philosophies and the Idea of Religion Sonia Sikka, Ashwani

Peetush,2020-09-28 With a focus on Asian traditions this book examines varieties of thought and self transformative practice that do not fit neatly on one side or another of the standard Western division between philosophy and religion It contains chapters by experts on Buddhist Confucian Taoist Hindu and Jain philosophies as well as ancient Greek philosophy and recent contemplative and spiritual movements The volume also problematizes the notion of a Western philosophical canon distinguished by rationality in contrast to a religious Eastern other These original essays creatively lay the groundwork needed to rethink dominant historical and conceptual categories from a wider perspective to arrive at a deeper more plural and global understanding of the diverse nature of both philosophy and religion The volume will be of keen interest to scholars and students in the Philosophy of Religion Asian and Comparative Philosophy and Religious Studies *Routledge Encyclopedia of Philosophy* Edward Craig,1998 Volume five of a ten volume set which provides full and detailed coverage of all aspects of philosophy including information on how philosophy is practiced in different countries who the most influential philosophers were and what the basic concepts are *The Kyoto School* Robert E. Carter,2013-01-21 An accessible discussion of the thought of key figures of the Kyoto School of Japanese philosophy This book provides a much needed introduction to the Kyoto School of Japanese philosophy Robert E Carter focuses on four influential Japanese philosophers the three most important members of the Kyoto School Nishida Kitar Tanabe Hajime and Nishitani Keiji and a fourth Watsuji Tetsur who was at most an associate member of the school Each of these thinkers wrestled systematically with the Eastern idea of nothingness albeit from very different perspectives Many Western scholars students and serious general readers are intrigued by this school of thought which reflects Japan s engagement with the West A number of works by various thinkers associated with the Kyoto School are now available in English but these works are often difficult to grasp for those not already well versed in the philosophical and historical context Carter s book provides an accessible yet substantive introduction to the school and offers an East West dialogue that enriches our understanding of Japanese thought while also shedding light on our own assumptions habits of thought and prejudices *Confronting Capital and Empire* Viren Murthy,Fabian Schäfer,Max Ward,2017-07-10 Confronting Capital and Empire inquires into the relationship between philosophy politics and capitalism by rethinking Kyoto School philosophy in relation to history The Kyoto School was an influential group of Japanese philosophers loosely related to Kyoto Imperial University s philosophy department including such diverse thinkers as Nishida Kitar Tanabe Hajime Nakai Masakazu and Tosaka Jun Confronting Capital and Empire presents a new perspective on the Kyoto School by bringing the school into dialogue with Marx and the underlying questions of Marxist theory The volume brings together essays that analyse Kyoto School thinkers through a Marxian and or critical theoretical perspective asking in what ways did Kyoto School thinkers engage with their historical moment What were the political possibilities immanent in their thought And how does Kyoto School philosophy speak to the pressing historical and political questions of our own moment Transcendence and Violence John D'Arcy May,2003-06-19 The first two parts of

this book present four detailed historical studies filled with Geertzian thick description of the encounters of Christianity and Buddhism universal religions with a high quotient of transcendence with various primal religious traditions biocosmic or immanentist of the Asian Pacific region namely Aboriginal Australia and Melanesia Christianity and Sri Lanka and Japan Buddhism In each case the encounters represented a failure of the great traditions In the third constructive and theological part of the book the author shows how an acknowledgment of these failures may provide a back door to dialogue

Classics of Philosophy in Japan 6 Hajime Tanabe, 2018-04-12 In this second collection of six essays on the logic of species published between 1940 and 1949 Tanabe Hajime examines the consequences of his new logic and attempts to defend it against postwar critiques c Chisokudo Publications 2018 Also available as an Apple iBook *The Realizations of the Self* Andrea Altobrando, Takuya Niikawa, Richard Stone, 2018-09-11 Recent discussions of self realization have devolved into unscientific theories of self help However this vague and often misused concept is connected to many important individual and social problems As long as its meaning remains unclear it can be abused for social political and commercial malpractices To combat this issue this book shares perspectives from scholars of various philosophical traditions Each chapter takes new steps in asking what the meaning of self realization is both in terms of what it means to understand who or what one is and also in terms of how one can or should fulfill oneself The conceptual elucidations achieved from both theoretical and practical perspectives allow for a more mature awareness of how to deal with discourses on self realization and in any case can help to demystify the subject *Oriental Enlightenment* J.J. Clarke, 2002-09-11 What is the place of Eastern thought Buddhism Taoism Hinduism Confucianism in the Western intellectual tradition Oriental Enlightenment shows how despite current talk of globalization there is still a reluctance to accept that the West could have borrowed anything of significance from the East and explores a critique of the orientalist view that we must regard any study of the East through the lens of Western colonialism and domination Oriental Enlightenment provides a lucid introduction to the fascination Eastern thought has exerted on Western minds since the Renaissance *Beyond Personal Identity* Gereon Kopf, 2012-12-06 Applies Dogen Kigen's religious philosophy and the philosophy of Nishida Kitaro to the philosophical problem of personal identity probing the applicability of the concept of non self to the philosophical problems of selfhood otherness and temporality which culminate in the conundrum of personal identity
