Reluctant Press Lord Esmond Rothermere And The Daily Mail:

The Reluctant Press Lord S. J. Taylor, 1999-08-12 This second volume tracing the history of the Daily Mail follows the fortunes of the paper after the second Lord Rothermere took over from his fascist father **The British National Daily Press and Popular Music, c.1956-1975** Gillian A.M. Mitchell, 2019-02-28 The British National Daily Press and Popular Music c. 1956-1975 constitutes a reappraisal of the reactions of the national daily press to forms of music popular with young people in Britain from the mid 1950s to the 1970s including rock n roll skiffle beat group and rock music Conventional histories of popular music in Britain frequently accuse the newspapers of generating moral panic with regard to these musical genres and of helping to shape negative attitudes to the music within the wider society This book questions such charges and considers whether alternative perspectives on press attitudes towards popular music may be discerned In doing so it also challenges the tendency to perceive evidence from newspapers straightforwardly as a mere illustration of wider social trends and considers the manner in which the post war newspaper industry as a sociocultural entity in its own right responded to developments in youth culture as it faced distinctive challenges and pressures amid changing times

Changes in Attitudes to Immigrants in Britain, 1921-2021 Ben Braber, 2025-03-04 This book reviews changes in attitudes towards immigrants in Britain and the language that was used to put these feelings into words between 1921 and 2021 It analyses in what context attitudes were articulated and where they came from To determine what was specifically British it makes international comparisons It applies a historical and linguistic method for an analysis of so far relatively unused primary sources It also explores secondary resources and to provide context engages with the existing literature that deals with immigration but is not focused on attitudes or not always covers the entire period after 1921 and links post 1921 developments to what was set in motion before 1921 to sketch a long history that runs into the present The linguistic historical approach applied in this book brings it all together for the first time It discovers when and how attitudes to immigrants in Britain changed after 1921 where they originated and what language was used to voice these attitudes in particular specific words their meanings the under or overtones they bore and what people meant or felt when they used them *Gender, Modernity, and the Popular Press in Inter-War Britain* Adrian Bingham, 2004-07-08 Journalists often claim that they write the first draft of history but few historians examine the press in detail when preparing later drafts This book demonstrates the value of popular newspapers as a historical source by using them to explore the attitudes and identities of inter war Britain and in particular the reshaping of femininity and masculinity It provides a fresh insight into a period of great significance in the making of twentieth century gender identities when women and men were coming to terms with the upheavals of the Great War the arrival of democracy and rapid social change The book also deepens our understanding of the development of the modern media by showing how newspaper editors in the fierce competition for readers developed a template for the popular press that is still influential today **Changes in Attitudes to Immigrants in Britain,**

1841-1921 Ben Braber, 2020-11-25 This book reviews changes in attitudes to immigrants in Britain and the language that was used to put these feelings into words between 1841 and 1921 Using a historical and linguistic method for an analysis of so far for this purpose relatively unused primary sources it offers novel findings It has found that changes in the meaning and use of the word alien in Britain coincided during the period between 1841 and 1921 with the expression of changing attitudes to immigrants in this country and the modification of the British variant of the English language When people in Britain in these years used the term an alien they meant most likely a foreigner stranger refugee or immigrant In 1841 an alien denoted a foreigner or a stranger notably a person residing or working in a country who did not have the nationality or citizenship of that country However by 1921 an alien mainly signified an immigrant in Britain a term which as this book shows had in the course of the years since 1841 acquired very negative connotations **Reporting on Hitler** Will

Wainwright, 2017-02-02 Allegedly the only man capable of holding the Führer's intense gaze Rothay Reynolds was a leading foreign correspondent between the wars and ran the Daily Mail's bureau in Berlin throughout the 1920s and 1930s The enigmatic former clergyman was one of the first journalists to interview Adolf Hitler meeting the future Führer days before the Munich Putsch While the awful realities of the Third Reich were becoming apparent on the ground in Germany in Britain the Daily Mail continued to support the Nazi regime Reynolds's time as a foreign correspondent in Nazi Germany provides some startling insights into the muzzling of the international press prior to the Second World War as journalists walked uneasy tightropes between their employers politics and their own journalistic integrity As war approached the stakes and the threats from the Gestapo rose dramatically Reporting on Hitler reveals the gripping story of Rothay Reynolds and the intrepid foreign correspondents who reported on some of the twentieth century's most momentous events in the face of sinister propaganda brazen censorship and the threat of expulsion or worse if they didn't toe the Nazis line It uncovers the bravery of the forgotten heroes from a golden age of British journalism who risked everything to tell the world the truth

Go-Betweens for Hitler Karina Urbach, 2015-07-24 This is the untold story of how some of Germany's top aristocrats contributed to Hitler's secret diplomacy during the Third Reich providing a direct line to their influential contacts and relations across Europe especially in Britain where their contacts included the press baron and Daily Mail owner Lord Rothermere and the future King Edward VIII Using previously unexplored sources from Britain Germany the Netherlands the Czech Republic and the USA Karina Urbach unravels the story of top level go betweens such as the Duke of Coburg grandson of Queen Victoria and the seductive Stephanie von Hohenlohe who rose from a life of poverty in Vienna to become a princess and an intimate of Adolf Hitler As Urbach shows Coburg and other senior aristocrats were tasked with some of Germany's most secret foreign policy missions from the First World War onwards culminating in their role as Hitler's trusted go betweens as he readied Germany for conflict during the 1930s and later in the Second World War Tracing what became of these high level go betweens in the years after the Nazi collapse in 1945 from prominent media careers to sunny retirements

in Marbella the book concludes with an assessment of their overall significance in the foreign policy of the Third Reich

Popular Newspapers, the Labour Party and British Politics James Thomas, 2007-05-07 IT S THE SUN WOT WON IT was the famous headline claim of Britain s most popular newspaper following the Conservative party s victory over Labour in the 1992 general election The headline referred to a virulent press campaign against Neil Kinnock s Labour party and dramatically highlighted one of the chief features of British politics during the twentieth century the conflict between a socialist Labour party and a capitalist popular press Labour s frequent complaints of the political and electoral unfairness of newspaper bias meant that some commentators considered that this dispute had a heritage as old as the party itself Others including the Labour leadership at the time argued that despite past tensions the 1992 election marked the culmination of an unprecedented campaign of vilification against the party *Popular Newspapers the Labour Party and British Politics* assesses these competing claims looking not only at 1992 but both back and forward to examine the continuities and changes in newspaper coverage of British politics and the Labour party over the twentieth century The book explores whether the popular press has lived up to its claim of being a democratic fourth estate or has merely as Labour politicians have argued been a powerful fifth column distorting the democratic process Drawing on a range of previously unexamined sources this book offers the first original and comprehensive history of a fascinating aspect of British politics from Beaverbrook to Blair James Thomas is a lecturer at the Cardiff School of Journalism Media and Cultural Studies at Cardiff University and has published articles and essays exploring the relationship between the popular press and British politics Literature and Culture in Modern Britain: Volume Three Clive Bloom, Gary Day, 2014-06-11 British culture has changed almost beyond recognition since 1956 Angry young men have been displaced by Yuppies Elvis by the Spice Girls and meat and two veg by continental cuisine What is more as the death of Diana Princess of Wales showed the British are now more famous for a trembling lower lip than a stiff upper one This volume the last in the series examines the transformations in literature and culture over the last forty years An introductory essay provides a context for the following chapters by arguing that although there have been significant changes in British life there are also profound continuities It also discusses the rise of theory and its impact on the humanities Each essay in the volume concentrates on a facet of British culture over the last half century from painting to poetry from the seriousness of the novel to the postmodern ironies of the computing age What we get from this selection is not only an informed history of the relations between literature and culture but also a lively sense of cultural change not least of which is the new found relationship between literature and other arts which ushers us into the new millennium Revolutions from Grub Street Howard Cox, Simon Mowatt, 2014-03 Based on extensive new research the book provides a unique overview of one of Britain s most successful creative industries consumer magazines from its seventeenth century origins into the digital age It charts the revolutions that took place in both technology and industrial organization and the response to these changes **Neo-Tories** Bernhard Dietz, 2018-05-31 The danger to British democracy in the

interwar period came from a different source to that which has thus far been assumed. It came from a network of radical conservatives who challenged the political system and sought to replace it with an authoritarian corporate state. In this book Bernhard Dietz provides the first systematic analysis of this network and its members which are called Neo Tories. With strong links to the European right yet a minority back home this group of British conservatives are all the more fascinating today because it is on their ultimate failure that the success of British democracy rested. *The Murdoch Archipelago* Bruce Page, 2013-09-17 Rupert Murdoch is one of the most powerful men in the world today. As chief executive of News Corporation he controls a global media empire which boasts some of the major players in newspapers, television, publishing and the movie business. In the English speaking world and increasingly in untapped but potentially lucrative markets such as China he wields an influence as political kingmaker second to none. How did he do it? How did this empire, a loose archipelago of media islands large and small, come to be so successful and influential? Building on many years' research and featuring many previously undisclosed revelations, *THE MURDOCH ARCHIPELAGO* is the most definitive survey yet of Murdoch's life and times, how power flows from influence and whether this should or if it can be regulated. **Family Newspapers?** Adrian Bingham, 2009-02-26 *Family Newspapers* provides the first detailed historical study of the modern popular press's coverage of sex and private life from the start of the mass newspaper reading boom in 1918 to the triumph of the Sun's sexualised journalism in 1978. In this period newspapers were at the heart of British popular culture and Fleet Street's preoccupation with sex meant that the press was a hugely significant source of knowledge and imagery about sexual behaviour, personal relationships and moral codes. Focusing on changing ideas of what sexual content was deemed fit to print, Adrian Bingham reveals how editors negotiated the tension between exploiting public curiosity about sex and ensuring that their journalism remained within the bounds of acceptability for a family newspaper. The study challenges established interpretations of social change by drawing attention to the ways in which the press opened up the public discussion of sexuality before the permissiveness of the 1960s. Exploring the spectacular diversity of the press's sexual content from advice columns to pin-ups, from court reports to celebrity revelations, Bingham offers a rich and thought-provoking investigation of a media form that has done much to shape the character of modern Britain. **Nancy Cunard** Lois G. Gordon, 2007 Nancy Cunard 1896-1965 led a life that surpasses Hollywood fantasy. She abandoned the world of a celebrated socialite and Jazz Age icon to pursue a lifelong battle against social injustice as a wartime journalist, humanitarian aid worker and civil rights champion. This biography tells the story of this woman. **Tabloid Tales** Colin Sparks, John Tulloch, 2000-03-22 Coverage of the Clinton Lewinsky saga followed in a long trail of media exposures of the more personal details of the lives of public figures. Many commentators have seen stories like this and TV shows like *Jerry Springer* as evidence of a decline in the standards of the mass media. This increasing interest in private lives and the falling off of coverage of serious news is often described as tabloidization. The essays in this book are the first serious scholarly studies of what is going on and what its implications are.

Reality it turns out is much more complex than some of the laments suggest As the contributors show this is not just a U S problem but is repeated in country after country and it is not certain that the media anywhere are getting more tabloid What is more there is no consensus about whether tabloidization is just dumbing down or whether it is a necessary tactic for the mass media to engage with new audiences who do not have the news habit Tabloid Tales will be of interest to students and scholars in journalism mass communication political science and cultural and media studies Annual Bibliography of the History of the Printed Book and Libraries Dept. of Special Collections of the Koninklijke Bibliotheek,2003-12-31 The Annual Bibliography of the History of the Printed Book and Libraries aims at recording articles of scholarly value which relate to the history of the printed book to the history of arts crafts techniques and equipment and of the economic social and cultural environment involved in its production distribution conservation and description **The Bristol Blenheim** Graham Warner,2005 This is a truly comprehensive account of the Blenheim s origins development and operational history *New Statesman* ,1998-04 1998 Massimo Mastrogregori,2013-05-08 Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical index and indexes of persons and authors **'To Stimulate to Some Action'** Robin W. Winks,2001 In his lecture Professor Winks examines the creation of the Harmsworth Professorship in American History at the University of Oxford from the proposal of the chair in 1920 to his own incumbency
