### **The habits of millionaires and successful**

Tracy Herttly, 2023-04-09 How many times have we not heard over time successful or powerful men who speak of the power of self-discipline as an essential tool to reach very high? However, after spending the last ten years dealing in an intimate setting and closely analyzing over 1,200 billionaires and elite individuals, I have come to realize one key thing: that self-discipline, passion, and all those qualities are not by themselves those that lead these men to success, but a series of combinations that for the most part nobody takes into account, and yes, I am referring to habits, whether negative or positive. When I gave myself the task of investigating if all this was true, it was because I read a book by Marky Loshcy where he stated that without a series of essential habits, even if you are the most intelligent or apt for it, you will not achieve success or fulfill your dreams. And he exposed that most of the great leaders of past and present history had a unique combination that allowed them to gain an ironclad and immovable access to power, be it economic, personal, or political.
