Violence Heather Montgomery,2024-02-07 Child abuse casts a long shadow over the history of childhood Across the centuries there are numerous accounts of children being beaten neglected sexually assaulted or even killed by those closest to them This book explores this darker side of childhood history looking at what constituted cruelty towards children in the past and at the social responses towards it Focusing primarily on England it is a history of violence against children in their own homes covering a large timeframe which extends from medieval times to the present Undeniably the experience of children in the past was often brutal and children were treated with what seems to contemporary mores callousness and cruelty However historians have paid far less attention to how the mistreatment of children was understood within its contemporary context Most parents both now and in the past loved their children and there have always been widely shared understandings of the boundaries that separate the acceptable treatment of children from the intolerable and morally wrong This book will examine how these boundaries have changed and been contested over time and in doing so provides a context to the many forms of violence experienced by children in the past Also available as an audiobook *Gender and Social Equity in Primary Education* Vimala Ramachandran,2004-08-19 In recent years India has made impressive strides in increasing literacy rates and in enabling access to education The country now seems well set to provide universal and good

quality basic education Yet behind this otherwise rosy picture lie serious concerns relating primarily to gender and equity This volume provides an insightful understanding of the ground realities of primary education programmes particularly those run by the District Primary Education Programme DPEP Combining secondary research with field studies conducted in six states the contributors explore gender and social equity issues in primary education They conclude that there is a subtle but nevertheless discernible hierarchy of access to education which has resulted in new forms of segregation in primary schools
