Daut, Grégory Pierrot, Marion C. Rohrleitner, 2022-01-25 The Haitian Revolution 1791 1804 was the first antislavery and anticolonial uprising led by New World Africans to result in the creation of an independent and slavery free nation state The momentousness of this thirteen year long war generated thousands of pages of writing This anthology brings together for the first time a transnational and multilingual selection of literature about the revolution from the beginnings of the conflicts that resulted in it to the end of the nineteenth century With over two hundred excerpts from novels poetry and plays published between 1787 and 1900 and depicting a wide array of characters including Anacaona Makandal Boukman Toussaint Louverture Jean Jacques Dessalines and Henry Christophe this anthology provides the perfect classroom text for exploring this fascinating revolution its principal actors and the literature it inspired while also providing a vital resource for specialists in the field This landmark volume includes many celebrated authors such as Alexandre Dumas Victor Hugo Heinrich von Kleist Alphonse de Lamartine William Wordsworth Harriet Martineau and William Edgar Easton but the editors also present here for the first time many less well known fictions by writers from across western Europe and both North and South America as well as by nineteenth century Haitian authors refuting a widely accepted perception that Haitian representations of their revolution primarily emerged in the twentieth century Each excerpt is introduced by contextualizing commentary designed to spark discussion about the

ongoing legacy of slavery and colonialism in the Americas Ultimately the publication of this capacious body of literature that spans three continents offers students scholars and the curious reader alike a unique glimpse into the tremendous global impact the Haitian Revolution had on the print culture of the Atlantic world New World Studies Returning to Revolution Thomas Nail,2012-08-06 An account of the concept of revolution in the work of Deleuze and Guattari outlining the theoretical and practical origins of the return to political revolution and providing the first full length account of Deleuze and Guattari's relationship to a concept

Lyric Apocalypse Ryan Netzley,2015-01-22 What's new about the apocalypse Revelation does not allow us to look back after the end and enumerate pivotal turning points It happens in an immediate encounter with the transformatively new John Milton's and Andrew Marvell's lyrics attempt to render the experience of such an apocalyptic change in the present In this respect they take seriously the Reformation's insistence that eschatology is a historical phenomenon Yet these poets are also reacting to the Regicide and as a result their works explore very modern questions about the nature of events what it means for a significant historical occasion to happen Lyric Apocalypse argues that Milton's and Marvell's lyrics challenge any retrospective understanding of events including one built on a theory of revolution Instead these poems show that there is no after to the apocalypse that if we are going to talk about change we should do so in the present when there is still time to do something about it For both of these poets lyric becomes a way to imagine an apocalyptic event that would be both hopeful and new

Damn the Revolution! Raúl Eduardo Chao, 2016-07-21 All throughout history people have praised revolutions as one of the ways to remedy their lack of freedom and abolish the unearned privileges of others Revolutions however pervert their very aims by bringing uncontrollable anarchy atrocities revenge loss of human talent and destruction of material resources Their attempts to rebuild society in more human terms always fail miserably In practice most revolutions can only be stopped by the emergence of a dictator which brings about more misery lack of freedom and inequality that what caused the upheaval in the first place That's why most people end up disillusioned with the hopeless romance of building a better society by revolting and end up shouting **Damn the Revolution**

Revolution Beyond the Event Charlotte Al-Khalili, Narges Ansari, Myriam Lamrani, Kaya Uzel, 2023-05-02 Revolution Beyond the Event brings together leading international anthropologists alongside emerging scholars to examine revolutionary legacies from the MENA region Latin America and the Caribbean It explores the idea that revolutions have varied afterlives that complicate the assumptions about their duration pace and progression and argues that a renewed focus on the temporality of radical politics is essential to our understanding of revolution Approaching revolution through its relationship to time the book is a critical intervention into attempts to define revolutions as bounded events that act as sequential transitions from one political system to another It pursues an ethnographically driven rethinking of the temporal horizons that are at stake in revolutionary processes arguing that linear views of revolution are inextricably tied to notions of progress and modernity Through a careful selection of case studies the book provides a critical perspective on the lived realities of revolutionary afterlives challenging the liberal humanist assumptions implicit in the modern idea of revolution and reappraising the political agency of people caught up in revolutionary situations across a variety of ethnographic contexts
