Remaking Asia Essays On The American Use Of Power:

Remaking Asia Mark Selden, 1974 The Asian Dilemma in United States Foreign Policy K.Holly Maze Carter, 2016-07-22 Focuses on the problem through the identification of specific trends in foreign policy isolationism intervention containment detente and disengagement The conclusion of this analysis is that the US foreign policy process is reactive and lacking in any long term strategic planning mode Paper e A Companion to Asian American Studies Kent A. Ono, 2008-04-15 A Companion to Asian American Studies is comprised of 20 previously published essays that have played an important historical role in the conceptualization of Asian American studies as a field Essays are drawn from international publications from the 1970s to the present Includes coverage of psychology history literature feminism sexuality identity politics cyberspace pop culture queerness hybridity and diasporic consciousness Features a useful introduction by the editor reviewing the selections and outlining future possibilities for the field Can be used alongside Asian American Studies After Critical Mass edited by Kent A Ono for a complete reference to Asian American Studies Coming To Terms Douglas Allen, 2019-03-04 Despite the plethora of works on the Vietnam War this is the first book to present an accessible overview from both the Indochinese and antiwar perspectives The authors trace the prewar history war years and postwar experiences of Vietnam Cambodia and Laos before turning to the U S experience where they focus on government policies the antiwar movement veterans and films and literature on Vietnam Those who experienced the war era will find their memories vividly rekindled those who wish to learn more about Indochina the war and its aftermath will find these issues provocatively discussed and analyzed Imperialism Harry Magdoff, 2019-02-15 This volume contains a series of essays aimed at illuminating the theory history and roots of imperialism which extend the analysis developed in Magdoff's The Age of Mass Media, Consumerism and National Identity in Postwar Japan Martyn David Smith, 2018-04-05 Imperialism Mass Media Consumerism and National Identity in Postwar Japan addresses Japan's evolving nationalism and national identity in relation to its newly rising consumerism during the two decades from 1952 to 1972 through a study of the transformation of the print media and the market for weekly and monthly magazines Martyn Smith argues that the transformation of the print media in the 1950s and 1960s expanded the possibilities for social individual and national identities in Japan From the late 1950s the growth in the market for weekly magazines was fuelled by the huge potential for advertising revenue the rapid development of the Japanese economy and the necessity for the growth of a consumer society This resulted in the merging of national identity with individual subjectivity which this book describes as national subjectivity as the Japanese media promoted individual consumption to aid the recovery of the Japanese nation as a whole Examining housewife magazines such as Fujin Koron Fujin no Tomo and Fujin Gaho as well as news magazines such as Mainichi Graph and Asahi Graph and publications aimed at young people Shukan Heibon and Heibon Punch Smith shows how the relationship of nationalism to everyday life is best understood by taking into account the changing nature of consumption in

the period By presenting an alternative to the traditional top down narrative of state driven economic nationalism this book therefore makes a unique contribution to the study of postwar Japanese history and Japanese nationalism — *The Debt Trap* Cheryl Payer, 1975 Details the history of the first thirty years of the system of aid and credit in which the IMF is the keystone

Coming to Jakarta: A Poem about Terror Peter Dale Scott, 1989-04-17 Not since Robert Duncan's Ground Work and before that William Carlos Williams Paterson has New Directions published a long poem as important as Coming to Jakarta James Laughlin A devastating revelation of violence exploitation and corrupt politics Coming to Jakarta derives its title from the role played by the CIA banks and oil companies in the 1965 slaughter of more than half a million Indonesians A former Canadian diplomat and now a scholar at the University of California Peter Dale Scott has said that the poem is triggered by what we know of the bloody Indonesian massacre However it is not so much a narrative of exotic foreign murder as one person's account of what it is like to live in the 20th century possessing enough access to information and power to feel guilty about global human oppression but not enough to deal with it The usual result is a kind of daily schizophrenia by which we desensitize ourselves to our own responses to what we read in the newspapers The psychic self alienation which ensues makes integrative poetry difficult but necessary With a brilliant use of collage placing the political against the personal childhood acquaintances are among the darkly powerful figures Scott works in the tradition of Pound's Cantos but his China's Development Experience in Comparative Perspective Joint Committee on substance is completely his own Contemporary China. Subcommittee on Research on the Chinese Economy, 1980 Monographic collection of essays on comparison of economic development trends and economic policy in China and experiences in other developing countries covers economic growth employment public debt income distribution regional development choice of technology health services etc Diagrams map and references Perestroika and the Party Francesco Di Palma, 2019-08-01 Countless studies have assessed the dramatic reforms of Mikhail Gorbachev but their analysis of the impact on European communism has focused overwhelmingly on the Soviet Union and Eastern bloc nations This ambitious collection takes a much broader view reconstructing and evaluating the historical trajectories of glasnost and perestroika on both sides of the Iron Curtain Moving beyond domestic politics and foreign relations narrowly defined the research gathered here constitutes a transnational survey of these reforms collective impact showing how they were variably received and implemented and how they shaped the prospects for proletarian internationalism in diverse political contexts No Other Way Out Jeff Goodwin, 2001-06-04 No Other Way Out provides a powerful explanation for the emergence of popular revolutionary movements and the occurrence of actual revolutions during the Cold War era This sweeping study ranges from Southeast Asia in the 1940s and 1950s to Central America in the 1970s and 1980s and Eastern Europe in 1989 Following in the state centered tradition of Theda Skocpol's States and Social Revolutions and Jack Goldstone's Revolutions and Rebellion in the Early Modern World Goodwin demonstrates how the actions of specific types of authoritarian regimes unwittingly channeled popular resistance into radical

and often violent directions Revolution became the only way out to use Trotsky's formulation for the opponents of these intransigent regimes By comparing the historical trajectories of more than a dozen countries Goodwin also shows how revolutionaries were sometimes able to create and not simply exploit opportunities for seizing state power **Philosophy in Multiple Voices** George Yancy, 2007-08-05 Philosophy in Multiple Voices Bibliography Series ,1957 invites transactional dialogue critical imagination and the desire to travel to enter those discursive spaces where the love of wisdom gets inflected through both lived embodiment and situational history. The text raises significant meta philosophical questions around the issue of who constitutes the philosophical we through a delineation and valorization of multiple philosophical voices African American Afro Caribbean Asian American Feminist Latin American Lesbian Native American and Queer that set forth complex concerns around canon formation the relationship between philosophical discursive configurations and issues of gendered sexed racial and ethnic identities the dynamic of shifting philosophical historical trajectories differential philosophical visions sensibilities and philosophical praxes that are still largely underrepresented within the institutional confines of mainstream philosophy. The text encourages philosophical heterogeneity as a value that Okinawa and the U.S. Military Masamichi S. Inoue, 2007-04-17 In 1995 an Okinawan schoolgirl was ought to be nurtured brutally raped by several U S servicemen The incident triggered a chain of protests by women s groups teachers associations labor unions reformist political parties and various grassroots organizations across Okinawa prefecture Reaction to the crime culminated in a rally attended by some 85 000 people including business leaders and conservative politicians who had seldom raised their voices against the U S military presence Using this event as a point of reference Inoue explores how Okinawans began to regard themselves less as a group of uniformly poor and oppressed people and more as a confident diverse middle class citizenry embracing the ideals of democracy human rights and women s equality As this identity of resistance has grown however the Japanese government has simultaneously worked to subvert it pressuring Okinawans to support a continued U S presence Inoue traces these developments as well revealing the ways in which Tokyo has assisted the United States in implementing a system of governance that continues to expand through the full participation and cooperation of residents Inoue deftly connects local social concerns with the larger political processes of the Japanese nation and the global strategies of the United States He critically engages social movement literature along with postmodern structural colonial discourses and popular currents and themes in Okinawan and Japanese studies Rich in historical and ethnographical detail this volume is a nuanced portrait of the impact of Japanese colonialism World War II and U S military bases on the formation of contemporary Okinawan identity American Adventurism Abroad Michael J. Sullivan, 2004-08-30 This book provides a comparative analysis of 30 American interventions into Third World countries An historical approach is used to place the featured cases into a more general history of American Diplomacy The author uses his assessments to prove that U S foreign policy has been driven by the goal of being the ultimate power in the global capitalist economic system. The author makes his

work unique by giving a critical view of America's place in the world during an anticipated time of war and raised patriotism He provides a scholarly look at U S diplomacy leading up to the era of the War on Terror Sullivan explains how over the past 50 years the U S has come to succeed Europe as ruler of the global economic system. The political systems which have been promoted by the U S to preserve worldwide capitalism range from one party rule to monarchies and recurring civil war The interventions discussed have proved to be short term successes for U S policy but more often tragic for the local societies affected Sullivan draws on his 1996 release Comparing State Polities to create a number of tables that place U S involvement into geographic and hierarchic perspective The reader is ultimately provided with a provocative thesis that challenges traditional interpretations of America's role in the world This book will be an asset to any undergraduate college student taking classes in political science or history It will also appeal to a general audience Redefining Human Rights in the Struggle for Peace and Development Terrence E. Paupp, 2014-01-20 Examines the history of the struggle to advance human rights and provides a global framework of constitutional protections to implement these rights & World Empire Telegram ,1969 The Sources of Social Power: Volume 3, Global Empires and Revolution, 1890-1945 Michael Mann, 2012-09-17 This third volume of Michael Mann's analytical history of social power focuses on the interrelated development of capitalism nation states and empires Filipino American Lives Yen Le Espiritu, Yen Espiritu, 2010-06-17 First person narratives by Filipino Americans reveal the range of their experiences before and after immigration

Shinohata Ronald Dore,2013-05-01 Not many foreigners have the chance to live in a Japanese village certainly not foreigners who are sufficiently at home to do so as unobtrusively and intimately as the author of this book Ronald Dore went to Shinohata twenty years ago when he was studying the land reform which broke the power of Japan's landlords He went back many times thereafter to stay with friends Now he has distilled his memories field notes diaries and some recent forays with a tape recorder into a book which brings to life the village and its people and vividly portrays the stunning transformation of Japanese village life Shinohatais a story of extraordinary change from the traditional values and relationships to typically modern pursuits and aspirations that accompanied the post war prosperity Ronald Dore's gift for combining a sympathetic and often humorous response to unique individuals with the sociologist's ability to discern and analyze patterns make this an unusual and fascinating book
