Who Ran the Cities? Ralf Roth, 2017-03-02

The question of who actually ran cities in the eighteenth nineteenth and twentieth centuries has been increasingly debated in recent years As well as trying to understand the distribution of political power and the rise of broad political participation urban historians have questioned how and whether elites retained influence in municipal government The essays in this collection provide a detailed examination of the relationship between urban elites and the exercise of power bringing together economic social and cultural history with the political history of power resources and decision making The volume challenges common perceptions of a monolithic urban elite by looking at specific case studies Collectively these essays provide a more sophisticated view of the exercise of urban power as the negotiation of various elite groups defined by their economic social political or cultural privilege To contribute to this complex account of the history of cities elites and their influence the collection applies a range of methodological approaches to studying European and American cities as well as the wider world
