## Remaking Of Radio:

**The Remaking of Radio** Vincent M. Ditingo,1995 In this era of advancing media technology radio has endured because it has successfully adapted to change The Remaking of Radio is a comprehensive examination of those adaptations and of the many factors shaping today's ten billion dollar commercial radio industry Media expert Vincent M Ditingo explores and explains the principal characteristics of radio's new age including The initial deregulation of the industry by the FCC resulting in a financial investment frenzy The introduction of satellite technology broadening the scope of networks while creating a trend back to the national personality programs of the 1930s and 1940s AM's decline as a result of the explosive growth of FM and its partial recovery with the boom in talk radio Radio's strengthened financial stability stemming from the FCC's relaxation of local and national ownership limits and The move towards digital audio transmissions improving radio's service to both advertisers and listeners Vincent M Ditingo is an award winning business writer media consultant and educator He is a former senior editor of radio for Broadcasting and Cable and is founder and president of Ditingo Media Enterprises in New York City

**The Broadcaster's Guide to RBDS** Scott Wright,1997-07-29 This handbook is intended to give the broadcast industry an authoritative guide to the Radio Data System RDS also called Radio Broadcast Data System RBDS Since the standard's adoption about 700 stations have begun broadcasting RDS in the United States There is a wide variety of encoding equipment with prices starting as low as 400 and over 30 models of RDS receivers have been introduced for cars home receivers portable and even PC receivers Automobile manufacturer's such as General Motors Ford Audi and Porsch now offer RDS on new vehicles Yet despite all the support equipment in place the FM broadcaster has been reluctant to implement and utilize this service mainly because of a lack of understanding of what RDS can do for the station This book finally provides the information required to understand RDS and its possibilities on a variety of levels so that everyone involved in radio can make the most of it Station owner program director salesperson and talent alike will find the information he or she requires to maximize the possibilities of this new technology Each feature of the system is explained in terms of its practical implementation at the station and interviews with broadcasters currently using the system add a hands on perspective Scott Wright is a recognized pioneer in RDS development As the designer of Delco Electronics first RDS receiver he has been extremely active in the development of the RDS standard in the US and in efforts to educate the broadcast community about its potential He has represented Delco at the European Broadcasting Union's EBU RDS Forum and is currently the Chairman of the National Radio Systems Committee RBDS Subcommittee the US standard setting body He is also a member of the Electronics Industries Association's EIA RDS Forum

*Remaking History* Afsar Mohammad,2024-06-27 With evidence from a wide variety of sources this book explores the development of modernity in Hyderabad after 1947

*Remaking the American Patient* Nancy Tomes,2016-01-06 In a work that spans the twentieth century Nancy Tomes questions the popular and largely unexamined idea that in order to get good health care people must

learn to shop for it Remaking the American Patient explores the consequences of the consumer economy and American medicine having come of age at exactly the same time Tracing the robust development of advertising marketing and public relations within the medical profession and the vast realm we now think of as health care Tomes considers what it means to be a good patient As she shows this history of the coevolution of medicine and consumer culture tells us much about our current predicament over health care in the United States Understanding where the shopping model came from why it was so long resisted in medicine and why it finally triumphed in the late twentieth century helps explain why despite striking changes that seem to empower patients so many Americans remain unhappy and confused about their status as patients today

**Remaking the Classics** Christopher Stray, 2007-12-13 Focusing on nineteenth and twentieth century Britain this collection of essays looks at a range of different genres epic novel lyric tragedy political pamphlet

**DIY Utopia** Amber Day, 2016-12-22 At first glance contemporary popular culture filled with bleak images of the future seems to have given up on the possibility of positive collective change Below the surface however alternative culture is rife with artist led projects activist movements and subcultural communities of interest that seek to spark the collective imagination and to encourage hunger for alternatives More playfully self conscious than past utopian movements today's are often whimsical or ironic but are still entirely earnest Artists invite us to re author city maps or archive individual ideas for the future while maker collectives urge us to rethink our relationship to consumer goods All seem to have grown out of a similar do it yourself ethos and alternative culture One of the central conflicts informing these case studies is that while it remains immensely difficult to envision anything outside of the current system of consumer capitalism there is nevertheless a powerful desire to take it apart in piecemeal ways We see the longing for new social and political narratives new forms of communion and sociability and new imaginings of the possible longings that are currently unmet by mainstream culture but that are taking expression in myriad ways at the local level Taken as a whole this collection examines what our grand ideals and playful daydreams tell us about ourselves
