Remembered Self Jefferson A. Singer, Peter Salovey, 2010-06-15 A theory for psychologists on the role of memory in personality psychology In *The Remembered Self* Jefferson A. Singer and Peter Salovey persuasively argue that memories are an important window into one's life story revealing characteristic moods motives and thinking patterns Through experimental evidence clinical case material and examples from literature the authors offer a fresh perspective on the role of memory in personality and clinical psychology Unlike the conventional psychoanalytic approach to memory which concentrates on what is forgotten Singer and Salovey treat memory in a new and different way with an emphasis on what is remembered Theirs is a bold new theory of memory and self that is both comprehensive and accessible

The Path to Caister, and Other Poems Violet Spender, 1922

Revolutionary Memory Cary Nelson, 2013-10-11 Revolutionary Memory is the most important book yet to be published about the vital tradition of leftwing American Poetry As Cary Nelson shows it is not only our image of the past but also our sense of the present and future that changes when we recover these revolutionary memories Making a forceful case for political poetry as poetry Nelson brings to bear his extraordinary knowledge of American poets radical movements and social struggles in order to bring out an undervalued strength in a literature often left at the canon's edge Focused in part of the red decade of the 1930s Revolutionary Memory revitalizes biographical criticism for writers on the margin and shows us for the first time how progressive poets fused their work into a powerful chorus of political voices Richly detailed and beautifully illustrated with period engravings and woodcuts Revolutionary Memory brings that chorus dramatically to life and set a cultural agenda for future work

Celebrating Canada Matthew Hayday, Raymond Blake, 2016-01-01 In *Celebrating Canada* Matthew Hayday and Raymond Blake situate Canada in an international context as they examine the history and evolution of our national and provincial holidays and annual

celebrations **John Updike Remembered** Jack A. De Bellis, 2017-11-21 Fifty three individuals present a prismatic view of the two time Pulitzer Prize winner and his work through anecdote and insight Interviews and essays from family friends and associates reveal sides of the novelist perhaps unfamiliar to the public the high school prankster the golfer the creator of bedtime stories the charming ironist the faithful correspondent with scholars the devoted friend and the dedicated practitioner of his craft The contributors include his first wife Mary Pennington and three of their children high school and college friends authors John Barth Joyce Carol Oates and Nicholson Baker journalists Terri Gross and Ann Goldstein and scholars Jay Parini William Pritchard James Plath and Adam Begley Updike s biographer **Catalogue of the War Poetry Collection** Birmingham Public Libraries, 1921 The Remembered Dead Sally Minogue, Andrew Palmer, 2018-05-31 The Remembered Dead explores the ways poets of the First World War and later poets writing in the memory of that war address the difficult question of how to remember and commemorate those killed in conflict It looks closely at the way poets struggled to meaningfully represent dying death and the trauma of witness while responding to the pressing need for commemoration The authors pay close attention to specific poems while maintaining a strong awareness of literary and philosophical contexts The poems are discussed in relation to modernism and myth other forms of commemoration such as photographs and memorials and theories of cultural memory There is fresh analysis of canonical poets which at the same time challenges the confines of the canon by integrating discussion of lesser known figures including non combatants and poets of later decades The final chapter reaches beyond the war s centenary in a discussion of one remarkable commemoration of Wilfred Owen *Remembering the God to Come* Antonio T. de Nicolas, 2000-04 The author of these poems is a philosopher by profession In these pages he steps adeptly from the philosophical idea to the concrete image He proves himself a master in the Symbolist tradition In the prologue to this collection of poems William Packard comments on the vision of eternal realities that is evident in de Nicolas poems At its best this is the kind of poetry that Plato was describing in his dialogues and the kind of poetry that Nietzsche was calling for in Zarathustra Remembering the God to Come describes near mystical experiences recollections of the soul s true realities captured in the metaphor of Woman These poems are meditations on the power of images in our spiritual and sexual lives They are reminders of the path of memory one must follow to create culture **Children Remembered** Robert Woods, 2006-01-01 Children Remembered discusses the relationship between parents and children in the past It focuses on the ways in which adults responded to the untimely deaths of children whether and how they expressed their grief The study engages with the hypothesis of parental indifference associated with the French cultural historian Philippe Ari s by analysing the changing risk of mortality since the sixteenth century and assessing its consequences It uses paintings and poems to describe feelings and emotions in ways that are not only highly original but also challenge traditional disciplinary conventions The circumstances of infant and child mortality are considered for France and England while example portraits and poems are selected from England and America

While the work is firmly grounded in demography it is especially concerned with current debates in social and cultural history with the history of childhood the way pictorial images can be read and the use as historical evidence to which literature may be put This is a wide ranging and ambitious multi disciplinary study that will add significantly to our understanding of demographic structures the ways in which they have conditioned attitudes and behaviour in the past

Making Something Happen Michael Thurston, 2003-01-14 Poetry makes nothing happen wrote W H Auden in 1939 expressing a belief that came to dominate American literary institutions in the late 1940s the idea that good poetry cannot and should not be politically engaged By contrast Michael Thurston here looks back to the 1920s and 1930s to a generation of poets who wrote with the precise hope and the deep conviction that they would move their audiences to action He offers an engaging new look at the political poetry of Edwin Rolfe Langston Hughes Ezra Pound and Muriel Rukeyser Thurston combines close textual reading of the poems with research into their historical context to reveal how these four poets deployed the resources of tradition and experimentation to contest and redefine political common sense In the process he demonstrates that the aesthetic censure under which much partisan writing has labored needs dramatic revision Although each of these poets worked with different forms and toward different ends Thurston shows that their strategies succeed as poetry He argues that partisan poetry demands reflection not only on how we evaluate poems but also on what we value in poems and therefore which poems we elevate
