New,2014-09-03 A global synthesis of the impacts of wildfires and controlled burning on insects bringing together much hitherto scattered information to provide a guide to improved conservation management practice The great variety of responses by insect species and assemblages demonstrates the often subtle balance between fire being a severe threat and a vital management component Examples from many parts of the world and from diverse biotopes and production systems display the increasingly detailed appreciation of fire impacts on insects in terrestrial and freshwater environments and the ways in which prescribed burning may be tailored to reduce harmful ecological impacts and incorporated into protocols for threatened species and wider insect conservation benefits **Wildland Fire in Ecosystems** ,2000 *Shadow Archaeologies* Assaf Nativ,Gavin Lucas,2025-07-31 *Shadow Archaeologies* explores the modes of knowledge production which operate where the light of mainstream historically oriented archaeology does not reach It exposes the field s underbelly and dwells on issues that standard practice ignores or glosses over questioning what archaeology and the archaeological are or could be The volume brings together scholars working at the discipline s theoretical cutting edge to challenge mainstream archaeology in various ways They engage with the political dimensions of the discipline s mode of production develop alternate practices and conceive of other manifestations of the archaeological object thus illuminating various ways in which the concept of shadow archaeology can be articulated After an introduction by the editors the volume is organised into three parts which address from different angles the politics practices and objects of an archaeology that resides in the shadow of antiquity While the book will appeal to any archaeologist with an interest in theory it is also a challenge to all archaeologists to reflect on their discipline and their own working practices and an invitation to join in the discussion about what archaeology might become *Earth Under Fire* Paul A.
