Ross, 2003-01-01 The Renaissance Reader Kenneth J. Atchity, 1996-06-27 As the transition between the Middle Ages and modern times the Renaissance is perhaps the most distinguished age since that of Classical Greece Moreover the consciousness of our own time was largely formed by those who were given the freedom to express themselves by the rebirth of the arts and sciences of the Renaissance The Renaissance Reader allows the men and women of that turbulent time of change to speak in their own voices sane and insane brilliant and mundane inspired and possessed oblivious and decisive Organized chronologically and covering the fourteenth through seventeenth centuries the book provides readers with the literary and artistic social religious and political and scientific and philosophic texts that shaped Renaissance thinking from the death of Dante in 1321 to the death of Cervantes and Shakespeare in 1616 Besides selections from such familiar texts as Sir Thomas Malory's *Le Morte d'Arthur* Baldassare Castiglione's *The Book of the Courtier* and Miguel de Cervantes' *Don Quixote* the book also contains the work of many less familiar writers including such prominent Renaissance women as Christine de Pizan Isabella d'Este and Catherine Zell With the inclusion of such brilliant artists as Giotto da Vinci Durer Michelangelo Raphael Brueghel and others The Renaissance Reader brings the age to life with all its vibrance and excitement *The Italian Renaissance Reader* Julia Conaway Bondanella, Mark Musa, 1987-11-13 A single volume

introduction to the major writers of the Italian Renaissance Petrarch Boccaccio Alberti della Mirandola da Vinci Castiglione Machiavelli Buonarroti Guicciardini Cellini and Vasari **Reformation Fictions** Antoinina Bevan Zlatar, 2011-06-30

Reformation Fictions rehabilitates some twenty polemical dialogues published in Elizabethan England for the first time giving them a literary historicist and to a lesser extent theological reading By juxtaposing these Elizabethan publications with key Lutheran and Calvinist dialogues theological tracts catechisms sermons and dramatic interludes Antoinina Bevan Zlatar explores how individual dialogists exploit the fictionality of their chosen genre Writers like John Vron Anthony Gilby George Gifford John Nicholls Job Throckmorton and Arthur Dent to name the most prolific not only understood the dialogue's didactic advantages over other genres they also valued it as a strategic defence against the censor They were convinced as Erasmus had been before them that a cast of lively characters presented antithetically often with a liberal dose of Lucianic

humour worked wonders with carnal readers Here was an exemplary way to make doctrine entertaining and memorable here was the honey to make the medicine go down They knew too that these dialogues particularly their use of manifestly imaginary interlocutors and a plot of conversion licensed the delivery of singularly radical messages What comes to light is a body of literature often scurrilous always serious that gives us access to early modern concepts of fiction rhetoric and satire It showcases the imagery of Protestant polemic against Catholicism and puritan invective against the established Elizabethan Church all the while triggering the frisson that comes from the illusion of eavesdropping on early modern conversations

Misfit Modernism Octavio R. González, 2020-08-31 In this book Octavio R. González revisits the theme of alienation in the twentieth century novel identifying an alternative aesthetic centered on the experience of double exile or marginalization from both majority and home culture This misfit modernist aesthetic decenters the mainstream narrative of modernism which explores alienation from a universal and existential perspective by showing how a group of authors leveraged modernist narrative to explore minoritarian experiences of cultural nonbelonging Tying the biography of a particular author to a close reading of one of that author's major works González considers in turn Nella Larsen's *Quicksand* and Wallace Thurman's *The Blacker the Berry* Jean Rhys's *Quartet* and Christopher Isherwood's *A Single Man* Each of these novels explores conditions of maladjustment within one of three burgeoning cultural movements that sought representation in the greater public sphere the New Negro movement during the Harlem Renaissance the 1920s Paris expatriate scene and the queer expatriate scene in Los Angeles before Stonewall Using a methodological approach that resists institutional taxonomies of knowledge González shows that this double exile speaks profoundly through largely

autobiographical narratives and that the novels protagonists challenge the compromises made by these minoritarian groups out of an urge to assimilate into dominant social norms and values Original and innovative Misfit Modernism is a vital contribution to conversations about modernism in the contexts of sexual identity nationality and race Moving beyond the debates over the intellectual legacies of intersectionality and queer theory Gonz lez shows us new ways to think about exclusion

Silent Film and the Formations of U.S. Literary Culture Sarah Gleeson-White,2024-04-30 Silent Film and the Formations of U S Literary Culture Literature in Motion argues that the emergence of motion pictures constituted a defining moment in U S literary history Author Sarah Gleeson White discovers what happened to literary culture both popular and higher brow when inserted into the spectacular world of motion pictures during the early decades of the twentieth century How did literary culture respond to and how was it altered by the development of motion pictures literature s exemplar and rival in narrative realism and enthrallment Gleeson White draws on extensive archival film and literary materials and unearths a range of collaborative cross media expressive and industrial practices to reveal the manifold ways in which early twentieth century literary culture sought both to harness and temper the reach of motion pictures J.S. Bach George B. Stauffer,2024 Humanism and the Culture of Renaissance Europe Charles G.

Nauert,2006-05-04 In this updated edition of his classic account Charles Nauert charts the rise of humanism as the distinctive culture of the social political and intellectual elites in Renaissance Europe He traces humanism s emergence in the unique social and cultural conditions of fourteenth century Italy and its gradual diffusion throughout the rest of Europe He shows how despite its elitist origins humanism became a major force in the popular culture and fine arts of the fifteenth and sixteenth centuries and the powerful impact it had on both the Protestant and Catholic Reformations He uses art and biographical sketches of key figures to illuminate the narrative and concludes with an account of the limitations of humanism at the end of the Renaissance The revised edition includes a section dealing with the place of women in humanistic culture and an updated bibliography It will be essential reading for all students of Renaissance Europe *The Sensuous in the Counter-Reformation Church* Marcia B. Hall,Tracy E. Cooper,2013-07-22 This book examines the promotion of the sensuous as part of religious experience in the Roman Catholic Church of the early modern period During the Counter Reformation every aspect of religious and devotional practice was reviewed including the role of art and architecture and the invocation of the five senses to incite devotion became a hotly contested topic The Protestants condemned the material cult of veneration of relics and images rejecting the importance of emotion and the senses and instead promoting the power of reason in receiving the Word of God After much debate the Church concluded that the senses are necessary to appreciate the sublime and that they derive from the Holy Spirit As part of its attempt to win back the faithful the Church embraced the sensuous and promoted the use of images relics liturgy processions music and theater as important parts of religious experience

Potential History Ariella Aisha Azoulay, 2019-11-19 In this theoretical tour de force renowned scholar Ariella Aisha Azoulay calls on us to recognize the imperial foundations of knowledge and to refuse its strictures and its many violences Azoulay argues that the institutions that make our world from archives and museums to ideas of sovereignty and human rights to history itself are all dependent on imperial modes of thinking Imperialism has segmented populations into differentially governed groups continually emphasised the possibility of progress while trying to destroy what came before and voraciously sought out the new by sealing the past away in dusty archival boxes and the glass vitrines of museums By practising what she calls potential history Azoulay argues that we can still refuse the imperial violence that shattered communities lives and worlds from native peoples in the Americas to the Congo ruled by Belgium's brutal King Leopold II from dispossessed Palestinians in 1948 to displaced refugees in our own day In *Potential History* Azoulay travels alongside historical companions an old Palestinian man who refused to leave his village in 1948 an anonymous woman in war ravaged Berlin looted objects and documents torn from their worlds and now housed in archives and museums to chart the ways imperialism has sought to order time space and politics Rather than looking for a new future Azoulay calls upon us to rewind history and unlearn our imperial rights to continue to refuse imperial violence by making present what was invented as past and making the repair of torn worlds the substance of politics

Practices of Comparing Angelika Epple, Walter Erhart, Johannes Grave, 2020-06-22 Practices of comparing shape how we perceive organize and change the world Supposedly innocent practices of comparing play a decisive role in forming categories boundaries and hierarchies but they can also give an impetus to question and change such structures Like almost no other human practice comparing pervades all social political economic and cultural spheres This volume outlines the program of a new research agenda that places comparative practices at the center of an interdisciplinary exploration Its contributions combine case studies with overarching systematic considerations They show what insights can be gained and which further questions arise when one makes a seemingly trivial practice comparing the subject of in depth research
