Sebastiano del Piombo and the World of Spanish Rome Piers Baker-Bates, 2017-07-05 Sebastiano del Piombo c 1485 1547 was a close associate and rival of the central artistic figures of the High Renaissance notably Michelangelo and Raphael After the death of Raphael and the departure of Michelangelo from Rome Sebastiano became the dominant artistic personality in the city Despite being one of most significant artistic figures of the period he remains the last artist of major importance in the western canon about whom no recent work has been published in English In this study Piers Baker Bates approaches Sebastiano s career through analysis of the patrons he attracted following his arrival at Rome The first half of the book concentrates on Sebastiano s network of patrons predominantly Italian who had strong factional ties to the Imperial camp the second half discusses Sebastiano s relationship with his principal Spanish patrons Sebastiano is a leading example of a transcultural artist in the sixteenth century and his relationship with Spain was fundamental to the development of his career The author investigates the domination of Sebastiano s career by patrons who had geographically different origins but who were all members of a wider network of Imperial loyalties Thus Baker Bates removes Sebastiano from the shadow of his contemporaries bringing him to life for the reader as an artistic personality in his own right Baker Bates characterization of the Rome in which Sebastiano made his career differs from previous scholarly accounts and he describes how Sebastiano was ideally suited to

flourish in the environment he depicts Sebastiano del Piombo and the World of Spanish Rome thus re appraises not only Sebastiano s place in the canon of Renaissance art but using him as a lens also the cultural worlds of Early Modern Italy and Spain in which he operated *Mythologies of Internal Exile in Elizabethan Verse* A.D. Cousins,2018-10-26 Writers of the English Renaissance like their European contemporaries frequently reflect on the phenomenon of exile an experience that forces the individual to establish a new personal identity in an alien environment Although there has been much commentary on this phenomenon as represented in English Renaissance literature there has been nothing written at length about its counterpart namely internal exile marginalization or estrangement within the homeland This volume considers internal exile as a simultaneously twofold experience It studies estrangement from one s society and correlatively from one s normative sense of self In doing so it focuses initially on the sonnet sequences by Sidney Spenser and Shakespeare which is to say the problematics of romance then it examines the verse satires of Donne Hall and Marston likewise the problematics of anti romance This book argues that the authors of these major texts create mythologies via the myths of and accumulated mythographies about Cupid satyrs and Proteus through which to reflect on the doubleness of exile within one s own community These mythologies at times accompanied by theologies of alienation suggest that internal exile is a fluid and complex experience demanding multifarious reinterpretation of the incongruously expatriate self The monograph thus establishes a new framework for understanding texts at once diverse yet central to the Elizabethan literary achievement

Artistic Responses to Travel in the Western Tradition Sarah J. Lippert,2018-04-17 In an era when ease of travel is greater than ever it is also easy to overlook the degree to which voyages of the body and mind have generated an outpouring of artistry and creativity throughout the ages Exploration of new lands and sensations is a fundamental human experience This volume in turn provides a stimulating and adventurous exploration of the theme of travel from an art historical perspective Topical regions are covered ranging from the Grand Tour and colonialism to the travels of Hadrian in ancient times and Georgia O Keefe s journey to the Andes from Vasari s Neoplatonic voyages to photographing nineteenth century Japan The scholars assembled consider both imaginary travel as well as factual or embellished documentation of voyages The essays are far reaching spatially and temporally but all relate to how art has documented the theme of travel in varying media across time and as illustrated and described by writers artists and illustrators The scope of this volume is far reaching both chronologically and conceptually thereby appropriately documenting the universality of the theme to human experience

all over Europe came to the city to see its classical remains and its celebrated contemporary art works as well as for the opportunity to work for its many wealthy patrons. They contributed to the eclecticism of the Roman artistic scene and to the diffusion of Roman artistic styles in Europe and beyond. *Art and Identity in Early Modern Rome* is the first book-length study to consider identity creation and artistic development in Rome during this period. Drawing together an international cast of key scholars in the field of Renaissance studies, the book adroitly demonstrates how the exceptional quality of Roman court and urban culture, with its elected monarchy, its large foreign population, and its unique sense of civic identity, interacted with developments in the visual arts. With its distinctive chronological span and uniquely interdisciplinary approach, *Art and Identity in Early Modern Rome* puts forward an alternative history of the visual arts in early modern Rome, one that questions traditional periodisation and stylistic categorisation.
