English Humanism and the Reception of Virgil c. 1400-1550 Matthew Day,2022-11-03 English Humanism and the Reception of Virgil c 1400 1550 reassesses how the spread of Renaissance humanism in England impacted the reception of Virgil It begins with the first signs of humanist influence in the fifteenth century and ends at the height of the English Renaissance during the mid Tudor period This period witnessed the first extant English translations of Virgil s Aeneid by William Caxton 1490 Gavin Douglas 1513 and the Earl of Surrey c 1543 It also marked the first printings of Virgil s works in England by Richard Pynson c 1515 and Wynkyn de Worde 1510s 1520s Through a fine grained analysis of surviving manuscripts and early printed editions Matthew Day questions how and to what extent Renaissance humanism impacted readers and translators approaches to Virgil Building on current scholarship in the fields of book history classical reception and translation studies it draws attention to substantial continuities between the medieval and humanist reception of Virgil s works Humanist study of Virgil and indeed of classical poetry more generally continued to draw many of its aims methods and conventions from well established medieval traditions of learning In emphasizing the very gradual pace of humanist development and the continuous influence of medieval scholarship the book comes to a more qualified view of how humanism did and just as importantly did not affect Virgilian reading and translation While recognizing humanist innovations and discoveries it gives due attention to the understudied yet far more numerous examples of consistency and traditionalism

Scholastic Florence: Moral Psychology in the Quattrocento Amos Edelheit,2014-07-03 An unfamiliar portrait of Renaissance Florence is depicted in this volume where we find not only some celebrated humanist oriented thinkers but also their scholastic friends and rivals discussing matters pertaining to moral psychology The rationale here is to illuminate the shadowlands of Renaissance philosophy and the intellectual history of late 15th century Italy by bringing into focus the important role played by scholastic thinkers in the Italian Renaissance Questions and problems regarding e g the intellect and the will evil and conscience cognition and love are treated through detailed accounts of debates and texts which were rarely discussed previously **The Theological Origins of Modernity** Michael Allen Gillespie,2008-09-15 Exposing the religious roots of our ostensibly godless age Michael Allen Gillespie reveals in this landmark study that modernity is much less secular than conventional wisdom suggests Taking as his starting point the collapse of the medieval world Gillespie argues that from the very beginning moderns sought not to eliminate religion but to support a new view of religion and its place in human life He goes on to explore the ideas of such figures as William of Ockham Petrarch Erasmus Luther Descartes and Hobbes showing that modernity is best understood as a series of attempts to formulate a new and coherent metaphysics or theology Bringing the history of political thought up to date and situating it against the backdrop of contemporary events

Gillespie's analyses provide us a way to begin to have conversations with the Islamic world about what is perhaps the central question within each of the three monotheistic religions if God is omnipotent then what is the place of human freedom Joshua Mitchell Georgetown University The Language of Demons and Angels Christopher I. Lehrich, 2003-01-01 This is the first modern study of Agrippa's occult philosophy revealing it to be a coherent part of his intellectual work It analyzes the text of *De occulta philosophia* explicating the sophisticated structure and argument of the work **English Humanism** Joanna Martindale, 2025-04-01 The literature of the English Renaissance demands some attention to the intellectual and educational background which produced it in order to be seen in proper perspective The selection in this book originally published in 1985 both illustrate the intellectual climate of the English Renaissance and exemplify some of its characteristics though not strictly literary products These include education classicism and imitation wisdom and eloquence history and moral philosophy religion and vernacular scripture Erasmus has been given a dominant place in the anthology as the main mediator of humanist ideas to England other authors represented include Castiglione Machiavelli Sir Thomas Elyot Roger Ascham and Ben Jonson This volume charts precisely the debt of English Renaissance literature to Continental Humanism and the classical revival and is a valuable contribution to an understanding of the literature and society of the time **"Matter of Glorious Trial"** N. K. Sugimura, 2009-01-01 This groundbreaking book the first to examine Milton's thinking about matter and substance throughout his entire poetic career seeks to alter the prevailing critical view that Milton was a monist materialist one who believes that all things are composed of material and all phenomena including consciousness are the result of material interactions Based on her close study of the philosophical movements of Milton's mind Sugimura discovers the fluid intermediaries in his poetry that are neither strictly material nor immaterial In doing so Sugimura uses *Paradise Lost* as a fascinating window into the intersection of literature and philosophy and of literary studies and intellectual history Sugimura finds that Milton displays a tense and ambiguous relationship with the idealistic dualism of Plato and the materialism of Aristotle and she argues for a more nuanced interpretation of Milton's metaphysics Magic and Superstition in Europe Michael D. Bailey, 2007 The only comprehensive single volume survey of magic available this compelling book traces the history of magic and superstition in Europe from antiquity to the present Focusing mainly on the medieval and early modern era Michael Bailey also explores the ancient Near East **Italian Literature in North America** Canadian Society for Italian Studies, 1990
