Picture Titles Ruth Bernard Yeazell,2015-09-29 How the practice of titling paintings has shaped their reception throughout modern history A picture s title is often our first guide to understanding the image Yet paintings didn t always have titles and many canvases acquired their names from curators dealers and printmakers not the artists Taking an original historical look at how Western paintings were named *Picture Titles* shows how the practice developed in response to the conditions of the modern art world and how titles have shaped the reception of artwork from the time of Bruegel and Rembrandt to the present Ruth Bernard Yeazell begins the story with the decline of patronage and the rise of the art market in the seventeenth and eighteenth centuries as the increasing circulation of pictures and the democratization of the viewing public generated the need for a shorthand by which to identify works at a far remove from their creation The spread of literacy both encouraged the practice of titling pictures and aroused new anxieties about relations between word and image including fears that reading was taking the place of looking Yeazell demonstrates that most titles composed before the nineteenth century were the work of middlemen and even today many artists rely on others to name their pictures A painter who wants a title to stick Yeazell argues must engage in an act of aggressive authorship She investigates prominent cases such as David s Oath of the Horatii and works by Turner Courbet Whistler Magritte and Jasper Johns Examining Western painting from the Renaissance to the present day *Picture Titles* sheds new light on the ways that we interpret and appreciate visual art

Rendering Kyle May,Julia van den Hout,2012-01-01 As information is distributed and consumed at an increasingly rapid pace one of the most effective or at least pervasive ways to communicate architectural ideas is through renderings Typically a perspectival image that can be understood without any knowledge of architectural drawing conventions the rendering derives power from its accessibility to a wide audience hence its crucial role in design competitions client presentations press releases and other such public forums While these architectural visualizations are certainly nothing new advances in software and hardware have enabled renderings to be made faster and more realistic than ever before This presents both an opportunity and a challenge On the one hand design concepts can now be tested and conveyed with an unprecedented degree of visual accuracy Conversely whether through omission extreme dramatization or even intentional fakery architects now have the ability to realistically depict the impossible Furthermore both clients and public are beginning to expect photorealistic imagery even at the earliest stages of

a project when supposed realism can oftentimes belie the fundamentally speculative nature of design Given the importance of these images in mediating between architects and the people they ultimately serve CLOG will critically assess the state of renderings today CONTRIBUTORS Michael Abrahamson Bertrand Benoit Rachel Berger Jon Brouchoud Eric de Broche des Combes Ilana Cohen Margot Connor Victoria Easton Scott Farrar Kurt W Forster Kevin Frank Fabrizio Gallanti Pablo Gallego Picard Donald P Greenberg Trond Greve Andersen Benjamin Halpern Kevin Hayes John Hill Julia van den Hout Incorporated Alfie Koetter Labtop LTL Architects Nancy Lin Carl Lostritto Thomas Lozada The Functionality Andrew Lyon Mansilla Y Tunon Arquitectos Kyle May Adam Nathaniel Mayer Elizabeth Mcdonald Samuel Medina Mockitecture The Office of PlayLab Inc Becky Quintal Deepa Ramaswamy Andrew Rasner Jacob Reidel Sam Roche Philipp Schaerer Julia Dorothea Schlegel Dominik Sigg Luca Silenzi Aaron Craig Smith Ben Strak John Szot Victor Tsu Francisco Villeda Joel Wenzel Human Wu and Christian Zollner **American Graffiti** Margo Thompson, 2012-05-08 The first appearances of graffiti tags signatures on
