A brief Biographical Dictionary. Compiled and arranged by ... C. H. Charles HOLE,1865 **A Concise Bibliography for Students of English** Arthur Garfield Kennedy,Donald B. Sands,1966 **Adventures in Paranormal Investigation** Joe Nickell,2014-04-23 Tales of alien abductions miraculous relics and haunted castles have attracted believers and skeptics across the globe for centuries Paranormal investigator Joe Nickell tackles the world s most seemingly inexplicable myths in *Adventures in Paranormal Investigation* With four decades of experience in the field Nickell employs skepticism and scientific analysis to pull truth from the mires of false evidence and trickery that surround both old and new legends and mysteries Unlike authors who engage in hype and sensationalism in order to foster or debunk myths Nickell approaches each case with a rational and scientific approach intended to find the truth Occam s Razor all things being equal the simplest solution is the best one is a principal instrument in his investigative toolbox as well as the belief that it is the claimant s responsibility to provide the extraordinary proof required in such extraordinary cases *Adventures in Paranormal Investigation* features Nickell s on site explorations in unusual phenomena Among the forty unique cases Nickell examines mysteries ranging from snake charmers who purport to hold influence over the reptiles to the Holocaust victims who reportedly haunt a gas chamber in Dachau to Lake Simcoe s resident lake monster Igopogo in Canada In addition to the case studies Nickell analyzes how the propensity to fantasize can affect human perceptions of and belief in paranormal activity and how his personal experience

with the paranormal was altered when intuition led to the discovery of a daughter he didn't know existed. More than just another myth-busting text, *Adventures in Paranormal Investigation* brings together reason and scientific analyses to explain both the phenomena and the role of human perception therein, establishing Nickell as the foremost paranormal investigator of our time.

Learning to Look Lesley Diana Clement, 2000 In *Learning to Look* Lesley Clement traces the evolution of Mavis Gallant's visually evocative style through five decades of her short fictional works. Gallant explores the boundaries between visible and invisible worlds as the lines, shapes, and colours suggested by her allusions, analogies, and structures challenge us as readers.

Encyclopedia of Catholicism Frank K. Flinn, 2007 Covers the key people, movements, institutions, practices, and doctrines of Roman Catholicism from its earliest origins. **Exploring the Religious Life** Rodney Stark, 2004-04 Though religion is for most people one of the most important aspects of their lives, social scientists and other observers of human society too often misunderstand and misrepresent the nature and role of religion in history and in daily life. From the supposed decline of religious attitudes in Western Europe and the venal motivations attributed to the Christian Crusaders to the very definition of religion, personal biases and an inadequate grasp of relevant data have led to the formulation and propagation of unsupportable views on the sacred. In *Exploring the Religious Life*, Rodney Stark boldly overturns much received wisdom within the social sciences about religion, drawing on a wide range of sources to reassess a diverse selection of topics in the study of religion. In his first essay, Stark addresses the carelessness with which scholars use the term religion and the conviction that the belief in divinity evolved from the practice of magic in primitive cultures. In subsequent chapters, he challenges the widespread attitude among social scientists that religion is nothing more than a mask for material realities and examines the effectiveness of religious doctrines in attracting converts and influencing individuals. He uncovers the surprising prevalence of upper-class asceticism in medieval Christianity and explores the relationship between gender, piety, and criminal activity. Divine revelation is a central aspect of many religions, and Stark next applies empirical research to the phenomenon to assess its meaning in Judaism, Christianity, Islam, and Mormonism. He then turns to the confusion between faith and practice in debates over the secularization of the developed world, before investigating the validity of the classic proposition within the social sciences that religion functions to sustain the moral order. He does so by examining the correlation between criminal behavior and depth of religious belief. Stark concludes with an essay on the ingenious methods he uses to unearth data about the popularity of new religions in California and northern Europe, the decline of Christian Science in America, the spread of Christianity in the Roman world, and the execution patterns during the anti-witchcraft frenzy of Enlightenment Europe. Together, the essays that constitute *Exploring the Religious Life* offer an engaging introduction to Rodney Stark's provocative insights and a fearless challenge to academic perceptions about religion's place in history, society, and private life.

A Blueprint of His Dissent Roger S. Platizky, 1989 A systematic examination of five poems by Tennyson revealing a subtle encoding by the poet of a multi-level criticism of Victorian mores. The dementia of

Tennyson's mad speakers is shown to arise from problematic Victorian conflicts about faith duty death and the suppression of desire *Relics of the Christ* Joe Nickell, 2007-03-16 Religious relics defined as either portions of or objects connected with the body of a saint or other holy person are among the most revered items in the world Christian relics such as the Holy Grail the True Cross and the Lance of Longinus are also the source of limitless controversy Such items have incited people to bloodshed and some say have been a source of miracles Relics inspire fear and hope among the faithful and yet are a perennial target for skeptics both secular and Christian To research the authenticity of numerous Christian relics Joe Nickell takes a scientific approach to a field of study all too often tainted by premature conclusions In this volume Nickell investigates such renowned relics as the Shroud of Turin the multiple heads of John the Baptist and the supposedly incorruptible corpses of saints first examining the available evidence and documented history of each item From accounts of true believers to the testimony of the relics alleged fabricators Nickell then presents all sides of each story allowing the evidence to speak for itself For each relic Nickell evaluates both the corroborating and contradictory bodies of evidence and explores whether the relic and attributed miracles can be reconstructed In addition to his own experiments Nickell presents findings from the world's top scientists and historians regarding these controversial objects of reverence and ire explaining the circumstances under which each case was examined Radiocarbon dating and tests to determine the validity of substances such as blood or patina indicate a variety of possible origins Nickell even reveals some of the techniques used to create archaeological forgeries and explains how investigators have exposed them Each relic is a mystery to be solved guided by the maxim extraordinary claims require extraordinary proof Nickell seeks only the truth *Breviary Lives of the Saints: February - May* Frederick J. Murphy, 2003-07-02
