The Mystery of Herbs and Spices

James Moseley, 2006-03-27 The Mystery of Herbs and Spices offers 53 tell all biographies of celebrated spices and herbs Tales of war sex greed hedonism cunning exploration and adventure reveal how mankind turned the mere need for nourishment into the exaltation of culinary arts Is it a spice or herb Where does it come from and what causes its taste What legends or scandals embellish it To what curious uses has it been put How can you use it today Neither a cookbook nor dry scholarship the book employs anecdotes and humor to demystify the use and character of every spice or herb Sample chapters from The Mystery of Herbs and Spices follow INTRODUCTION Better is a dinner of herbs where love is than a fatted calf with hatred Proverbs 15 17 Herbs and spices They impart glory to food and variety to life They are what separate the mere cook from the gourmet But they can be confusing What is the difference between a herb and a spice What foods do they go with And don't you feel silly not knowing if you are supposed to say herb or erb You might think a gourmet who understands such things is a sort of wizard that's what people thought in the Middle Ages when users of herbal medicines were accused of witchcraft and burnt But to people who grow up in India or Thailand exotic spices are common They use a wealth of seasonings as casually as we scatter ketchup and pepper Cooking with cardamom or cumin might seem a mystery of subtle kitchens but did you know that ordinary pepper was once precious and rare If you lived in Europe seven hundred years ago you could pay your rent or taxes in peppercorns counting them out like coins You could have bought a horse for a pound of saffron a pound of ginger would get you a cow and a pound of nutmeg was worth seven fat oxen If you were an exceptionally lucky bride your father might give you peppercorns as a dowry Now consider how casually we dash a bit of pepper over a fried egg today Like anything else herbs and spices are easy to use when you are familiar with them But like nothing else the story of spices is laced with adventure Ferdinand Magellan launched the first voyage around our planet By the time he reached the Pacific Ocean he had been out of touch with civilization for a year Sailing from the west coast of South America he headed out onto a briny desert of burning glass He had no maps He had no radio He had ridiculously small and leaky ships He was going where no one had ever gone before The hissing swells of the Pacific would take him four

frightening months to cross without laying eyes once on land There would be nothing like this adventure for another five hundred years not until our exploration of space Magellan died out there in the unknown Only eighteen of his 237 sailors straggled back to Spain What did they have to show for it Silver Gold Scientific discoveries No nutmegs and cloves Twenty six tons of them enough to pay for the entire cost of the voyage and make a profit of 500 gold ducats for every shareholder No one doubted for one second that the whole adventure had been worth it Spices They enhance our food That s all But since the human race began to dream the story of spices has enchanted our fantasy as well Where do they come from Why are they so enticing In what new ways can we use them This is a book of discovery Unfurl your sails like Magellan and follow the fragrance of spices and herbs to their source gather their lore and let them not only season your cooking but enrich your enjoyment of life PETER PIPER If Peter Piper picked a peck of pickled peppers How many pickled peppers did Peter Piper pick It might seem funny now but it wasn t funny at the time Pierre Poivre of Lyons France otherwise known as Peter Pepper or Peter Piper was a real person Born in 1719 he started his career as a Christian missionary and founded a bank in Vietnam In 1766 he became Governor of Isle de France Mauritius the French colony far off the southeast coast of Africa The eponymous tongue twister made fun of the Pierre s hare brained schemes On his lovely but lonely tropical island far from the glitter of Paris Peter Piper watched Dutch ships freighting precious cargoes of cloves nutmeg and cinnamon right under his nose from the Far East to Amsterdam The spice trade created fabulous wealth Spices were cheap to grow They were compact and lightweight so that huge loads could be crammed into a ship s hold Prices in Europe were high so that an Indiaman could realize a 4 000 per cent profit in a single voyage No other cargo could compare Now why thought Peter Piper couldn t those spices be grown in his colony Of course the Dutch wouldn t just hand them over But if one could sneak into the Dutch colony of Indonesia and smuggle out a seedling or two what wealth for France What gloire for Pierre Poivre And he did it In 1769 Governor Poivre equipped two fast ships that slipped through the Dutch blockade into a lonely harbor on the island of Jibby in the Moluccas The French expedition persuaded the local rajah to sell sixty clove plants The Dutch found out but could not outsail the swift French corsairs Two of the pilfered trees bore fruit in 1775 In 1776 Peter Piper presented the first French grown cloves to His Christian Majesty King Louis XVI Cloves were planted in the other French colonies of Reunion Cayenne and Martinique But historical events foiled Peter s Piper s plan for a new French monopoly Napoleon occupied Holland in 1800 In a counter move France s enemy England seized the Dutch colonies in the East They sent clove and nutmeg plants to the British colonies of Malacca and Ceylon to the West Indian islands of St Vincent Trinidad Grenada and in Africa to Zanzibar which became the most important source of cloves on earth even to this day So the greatest harvest of Peter Piper s pilfered plants came long after he left Mauritius in 1776 And what glory did Peter Piper get An inaccurate nursery rhyme about picking pickled peppers CINNAMON AND CASSIA The Greeks thought that cassia cinnamon s cousin was collected from a swamp infested by giant shrieking bats Cinnamon is probably the oldest spice known to man Twenty five centuries

before Christ Pharaoh Sankhare sent a sailing expedition down the African Coast looking for it And Moses used cinnamon to make the anointing oil of Hebrew worship Herodotus wrote that somewhere near the fabled city of Nosa in Arabia giant birds made nests of cinnamon sticks Cinnamon harvesters would lay carcasses of donkeys and oxen out for the birds who would swoop down and carry the meat up to their nests The weight of these carcasses would snap bits off the nests and the cinnamon hunters would gather the scattered cinnamon quills below The Greeks also thought that cassia cinnamon's cousin was collected from a swamp infested by giant shrieking bats Tragically neither story was true Arab merchants spread these tall tales to keep their sources of cinnamon secret for Europeans dreamed of finding the source of this spice Diodorus the Sicilian historian who flourished in 50 BC wrote tantalizingly that there was so much cinnamon in Arabia that Bedouins used it for campfires Although both cinnamon and its close cousin cassia are mentioned often in the Bible neither ever grew in the Holy Lands From the faraway tropics of Asia daring Indonesian sailors followed seasonal winds called monsoons to the coast of Africa Their cinnamon cargo was freighted by Arab sailors up to the Red Sea or carted by land caravans through Kenya 2 000 miles along the Nile until it reached the Mediterranean shores Cassia which is so like cinnamon but grows in China was packed along the famous Silk Route from South China through the Gobi Desert over the Himalayas and to Antioch Syria

global history of spices Fred Czarra tracks the path of these fundamental ingredients from the trade routes of the ancient world to the McCormick's brand's contemporary domination of the global spice market Focusing on the five premier spices black pepper cinnamon nutmeg cloves and chili pepper while also relating the story of many others along the way Czarra describes how spices have been used in cooking throughout history and how their spread has influenced regional cuisines around the world Chili peppers for example migrated west from the Americas with European sailors and spread rapidly in the Philippines and then to India and the rest of Asia where the spice quickly became essential to local cuisines The chili pepper also traveled west from India to Hungary where it eventually became the national spice paprika Mixing a wide range of spice fact with fascinating spice fable such as giant birds building nests of cinnamon Czarra details how the spice trade opened up the first age of globalization prompting a cross cultural exchange of culinary technique and tradition This savory spice history will enliven any dinner table conversation and give that meal an unforgettable dash of something extra **The Olive and the Caper** Susanna Hoffman, 2004-01-01 A collection of 325 authentic Greek recipes direct from the Mediterranean offers delicious old favorites and exciting secret dishes and includes essays and information on Greek culture myths customs culinary traditions and more *Florida's Best Herbs and Spices* Charles R.
