Rosenquist's entire career from his early work as a sign painter to the creation of what is thought to be the world's largest print *Time Dust* completed in 1992. An important historical text by Constance Glenn explores such contemporary issues as the role of the mass media, the appropriation of its techniques and imagery and the origin and demand for multiple images as well as presenting in depth the artist's evolution as painter and printmaker. The 150 colorplates include in addition to landmark paintings numerous examples of previously unpublished sketches and prints as well as many of Rosenquist's famous works such as the great installation print *F 111*. The book includes a catalogue raisonné of the artist's 229 prints and an extensive bibliography.
