Los Angeles The Ultimate City:

Los Angeles Christopher Rand, 1967 **Through the Lens of the City** , During the 1970s the National Endowment for the Arts Photography Surveys granted money to photograph American cities at the bicentennial and years that followed In *Through the Lens of the City* NEA Photography Surveys of the 1970s Mark Rice brings to light this long neglected photographic endeavor From 1976 to 1981 the NEA supported more than seventy projects that examined a wide range of people and places in America Artists involved included such well known photographers as Bruce Davidson Lee Friedlander and Joel Meyerowitz and many photographers who became widely known after their work with the surveys such as Robert Adams Joe Deal Terry Evans and Wendy Ewald Rice argues that the NEA Photographic Surveys drew from two wells a widespread sense of nostalgia and an intense public interest in photography Looking at the works from eight key cities Atlanta Buffalo Durham East Baltimore Galveston Long Beach Los Angeles and Venice the book uncovers marked differences as well as startling similarities in the concerns manifested by different photographers in far flung places Although the surveys are interesting both for their artistic merits and for their place in the history of American photography they are equally important as a documentation of bicentennial era America and a close examination of American cities A major shift in the ideals of civil engineering and urban planning was underway in the 1970s At the same time ideas and theories about photography were changing along with our notions of what the city could and should be These surveys capturing American cities in a fascinating period of flux show us American photographers matching artistry to subject matter in new and exciting ways Mark Rice is chair of the American studies department at St John Fisher College His work has been published in such periodicals as *Exposure* *Explore* and *Reviews in American History* **L. King of Diamonds Ronald Winston, William Stadiem, 2023-09-19 This authoritative and intimate biography written by his only living son Ronald Winston marries the Gilded Age glamour and romance of Edith Wharton with the ruthless family dynamics of HBO s hit series Succession Few American success stories rival that of Harry Winston Born Harry Weinstein he came from humble roots his parents were poor Jewish immigrants who left Ukraine around 1890 for New York where they settled and started a small jewelry business His genius for spotting priceless gems emerged young When Harry was twelve years old he recognized a two carat emerald in a pawn shop and bought it for 25 cents selling it two days later for 800 a massive sum in the early 1900s From that moment on Harry became obsessed with gems especially diamonds A compact unassuming man with no formal education but unlimited drive and ambition Harry Weinstein transformed himself into Harry Winston the enigmatic figure who created the world s most prestigious luxury brand Harry Winston built his empire while the Depression raged World War II reshaped the world and America entered its post war period of prosperity In this riveting biography readers get a bird s eye view of the dangers of the diamond trade and the lengths men would go to get their hands on the best of the rough There s also a glimpse into the lives of the rich and famous who clamored for Winston s gems Although he traveled the world doing business with kings queens and movie stars Winston remained a devoted family man whose chief wish was that his sons carry on the legacy he had built Harry s older son Ronald Winston worked alongside his father for decades After Harry s death Ron grew the company into the international brand that is still revered today He ran it expertly until he was forced to sell the company due to his younger brother s maligning litigation This is the story of a family business that survived and thrived for more than a century until it was undone by one bitter family member KING OF DIAMONDS is at once a portrait of American ingenuity at its best and the story of sibling rivalry that is Shakespearean in its tragedy

The Ultimate Book of New York Lists Bert Randolph Sugar, C. N. Richardson, 2009-11-15 Where can you find New York City s best hamburger What are the ten best songs ever written about New York The ten best books set in New York Bert Randolph Sugar and some famous friends answer these burning questions helping both New Yorkers and

tourists learn what makes the greatest city on earth so great With a foreword by legendary newspaperman Bill Gallo of the New York Daily News and lists from celebrity New Yorkers like Pete Hamill and Howard Stern this is a book no lover of New York City should be without How Cities Won the West Carl Abbott,2011-03-03 Cities rather than individual pioneers have been the driving force in the settlement and economic development of the western half of North America Throughout the seventeenth eighteenth and nineteenth centuries western urban centers served as starting points for conquest and settlement As these frontier cities matured into metropolitan centers they grew from imitators of eastern culture and outposts of eastern capital into independent sources of economic cultural and intellectual change From the Gulf of Alaska to the Mississippi River and from the binational metropolis of San Diego Tijuana to the Prairie Province capitals of Canada Carl Abbott explores the complex urban history of western Canada and the United States The evolution of western cities from stations for exploration and military occupation to contemporary entry points for migration and components of a global economy reminds us that it is cities that won the West And today as cultural change increasingly moves from west to east Abbott argues that the urban West represents a new center from which emerging patterns of behavior and changing customs will help to shape North America in the twenty first century *From Bible Belt to Sunbelt: Plain-Folk Religion, Grassroots Politics, and the Rise of Evangelical Conservatism* Darren Dochuk,2010-12-13 A prize winning five decade history of the evangelical movement in Southern California that explains a sweeping realignment of American politics From Bible Belt to Sun Belt tells the dramatic and largely unknown story of plain folk religious migrants hardworking men and women from Oklahoma Texas and Arkansas who fled the Depression and came to California for military jobs during World War II Investigating this fiercely pious community at a grassroots level Darren Dochuk uses the stories of religious leaders including Billy Graham as well as many colorful lesser known figures to explain how evangelicals organized a powerful political machine This machine made its mark with Barry Goldwater inspired Richard Nixon s Southern Solution and achieved its greatest triumph with the victories of Ronald Reagan Based on entirely new research the manuscript has already won the prestigious Allan Nevins Prize from the Society of American Historians The judges wrote Dochuk offers a rich and multidimensional perspective on the origins of one of the most far ranging developments of the second half of the twentieth century the rise of the New Right and modern conservatism **The Metropolitan Frontier** Carl Abbott,1995-09-01 Honolulu to Houston and from Fargo to Fairbanks to show how Western cities organize the region s vast spaces and connect them to the even larger sphere of the world economy His survey moves from economic change to social and political response examining the initial boom of the 1940s the process of change in the following decades and the ultimate impact of Western cities on their environments on the Western regional character and on national identity Today a City Bound Gerald E. Frug,David J. Barron,2013-07-02 Many major American cities are defying the conventional wisdom that suburbs are the communities of the future But as these urban centers prosper they increasingly confront significant constraints In City

Bound Gerald E Frug and David J Barron address these limits in a new way Based on a study of the differing legal structures of Boston New York Atlanta Chicago Denver San Francisco and Seattle City Bound explores how state law determines what cities can and cannot do to raise revenue control land use and improve city schools Frug and Barron show that state law can make it much easier for cities to pursue a global city or a tourist city agenda than to respond to the needs of middle class residents or to pursue regional alliances But they also explain that state law is often so outdated and so rooted in an unjustified distrust of local decision making that the legal process makes it hard for successful cities to develop and implement any coherent vision of their future Their book calls not for local autonomy but for a new structure of state local relations that would enable cities to take the lead in charting the future course of urban development It should be of interest to everyone who cares about the future of American cities whether political scientists planners architects lawyers or simply citizens Southern California Business ,1923 *Imagined Frontiers* Carl Abbott,2015-09-10 We live near the edge whether in a settlement at the core of the Rockies a gated community tucked into the wilds of the Santa Monica Mountains a silicon culture emerging in the suburbs or in the future homesteading on a terraformed Mars In *Imagined Frontiers* urban historian and popular culture scholar Carl Abbott looks at the work of American artists who have used novels film television maps and occasionally even performance art to explore these frontiers the metropolitan frontier of suburban development the classic continental frontier of American settlement and the yet unrealized frontiers beyond Earth Focusing on writers and artists working during the past half century an era of global economic and social reach Abbott describes the dialogue between historians and social scientists seeking to understand these frontier places and the artists reimagining them in written and visual fictions This book offers perspectives on such well known authors as T C Boyle and John Updike and on such familiar movies and television shows as *Falling Down* and *The Sopranos* By putting *The Rockford Files* and the cult favorite *Firefly* in conversation with popular fiction writers Robert Heinlein and Stephen King and literary novelists Peter Matthiessen and Leslie Marmon Silko Abbott interweaves the disparate subjects of western history urban planning and science fiction in a single volume Abbott combines all new essays with others previously published but substantially revised to integrate western and urban history literary analysis and American studies scholarship in a uniquely compelling analysis of the frontier in popular culture *History for Ready Reference from the Best Historians* Josephus Nelson Larned,1910

The Urban Wilderness Sam Bass Warner,1995-01-01 Warner is in some ways almost unique among urban historians in the ways in which he has linked visual and cultural representations with socioeconomic analysis The strength of *The Urban Wilderness* is its scope and reach and the author's willingness to take risks intellectually This book is a work of passion and engagement Margaret Marsh author of *Suburban Lives* **History for Ready Reference from the Best Historians, Biographers and Specialists** Josephus Nelson Larned,1910 *City of Nets* Otto Friedrich,1997-05-02 History of Hollywood in the 1940's Congressional Record United States.
