Los Duenos De La Argentina Ii Los Secretos Del Verdadero Poder:

Neoliberalism, Accountability, and Reform Failures in Emerging Markets Luigi Manzetti, 2015-10-13 The agenda of neoliberal market reform known as the Washington Consensus which was meant to turn around the economies of developing and postcommunist countries and provide the bedrock of economic success on which stable democracies could be built has largely proved to be a failure with Russia and many Latin American countries like Argentina left in severe economic crisis by the end of the 1990s Some proponents of neoliberal reform such as Anne Krueger have attributed this failure to the piecemeal and incomplete implementation of reform measures while others including Nobel Prize economist and former World Bank vice president Joseph Stiglitz have pointed to technical flaws in the policies While both of these assessments focus narrowly on economic factors Luigi Manzetti highlights the crucial importance of political institutions and processes to a fully adequate explanation His argument is that the ideology of neoliberal reform rooted in the theories of Friedrich von Hayek and Milton Friedman assumed political checks and balances that did not exist in many of these countries undergoing market reform and that only by taking political accountability as an influential variable in the equation for success can we really understand what happened Where accountability was weak patterns of corruption collusion and patronage worked to undermine the intended aims of market reform Manzetti uses both large N statistical analyses and small N case studies of Argentina Chile and Russia to provide empirical evidence for his argument

Argentinian Telenovelas Gabriela Jonas Aharoni, 2015-07-01 This work explores the way in which telenovelas TV serial dramas give voice to contemporary and historical Argentinian social and political issues Telenovelas have multiple layers of socio cultural message local as well as global and are invariably laden with appealing drama and emotion and sometimes comedy The discussion focuses on how telenovelas reflect society's perception of and adjustment toward issues of globalisation They are a means of portraying how individuals and families rationalize and incorporate rapid social and economic changes The book explores how telenovelas might offer a subversive interpretation of reality or provide a channel of dialogue with the government's political aims The author challenges the assumption that they are merely a reflection of historical political and social circumstance One of the many telenovela examples addressed in this book is whether the serial Padre Coraje constructs a parallel between the current Kirchner government and that of Juan Peron fifty years earlier The serial explores the two leaders relationship with the Church and implicitly presents President Kirchner as Peron's successor Explaining telenovelas as cultural texts they are not soap operas provides the primary basis for this study backed by Argentinian newspaper articles and secondary sources on Latin American history culture and economy as well as TV and cinema studies The result is a more profound and nuanced interpretation than hitherto of Argentinian telenovelas Analysis enables identification of the links between the serials storylines and contemporary political and social events These popular culture texts bring new meaning to the Argentinian historical narrative and for TV viewers puts the processes and effects of economic and social globalisation on a local multi

cultural level perspective The Space of Culture Stewart King, Jeff Browitt, 2004 The essays range from colonial domination and international struggles over territorial claims to a meditation on the politics of location to the issue of spatial representation of mature age women and gay men within a dialectic of visibility invisibility in Spanish theatre and cinema Jacket **Nuevos Senderos** Diana Campoamor, William A. Privatization South American Style Luigi Manzetti, 1999 Privatization South American Style focuses on the politics of privatization in Argentina Brazil and Peru It examines both the micro and macroeconomics of achieving privatization the policy measures introduced and factors affecting the implementation of privatization The political dimensions of privatization are analysed in order to explain the variations in national success in formulation and implementing privatization programmes The author argues that evidence suggests that national governments as planned and that rarely implement most divestiture policies from a technical standpoint privatization is a learning process that evolves through trial and error It also examines the apparently unconventional methods used by the governments of Argentina Brazil and Peru to achieve privatization Comparative in its approach the book seeks also to shed light on the nature of privatization in countries throughout the developing world The book more generally argues that poorly designed privatization policies may have future serious implications on issues such as the rule of law and the regulation of public utilities The Economic Accomplices to the
