Los Enganados Medora:

Spanish Dramatists of the Golden Age Mary Parker, 1998-09-17 The Golden Age of Spanish drama extends from the close of the 15th century to the death of Calderón in 1681. During that time the humanists as dramatists followed Italy's artistic awakening direction and imitated Classical drama. With originality and dreams of greatness they subverted the nature of tragedy, modified the approach of Comedy and invented the New Play, the Comedia Nueva. In it the poet-dramatists introduced important modifications of realism, included imagined reality, Christian symbolism and theatricality as artistic truth. They elaborate all kinds of syntheses. For this reason the Spanish Golden Age theater can be viewed as part of a tradition that includes the Greco-Roman comedy and tragedy, Christian tragedy and the authentic national literary and dramatic tendencies. The entries in this reference book explore the fascinating history of the Golden Age of Spanish drama. The volume begins with an introductory overview of the literary, cultural and historical contexts that shaped dramatic writing of the period. The book then presents alphabetically arranged essays for nineteen significant Spanish dramatists of the Golden Age. Each essay is written by an expert contributor and includes biographical information, an analysis and evaluation of major works, a discussion of critical response to the plays and an extensive bibliography of primary and secondary sources. The volume closes with a selected general bibliography of central critical studies of Golden Age Spanish drama.

Divination on stage Folke Gernert, 2021-02-08 Magicians, necromancers and astrologers are assiduous characters in the European golden age theatre. This book deals with dramatic characters who act as physiognomists or palm readers in the fictional world and analyses the fictionalisation of physiognomic lore as a practice of divination in early modern Romance theatre from Pietro Aretino and Giordano Bruno to Lope de Vega, Calderón de la Barca and Thomas Corneille. *Feminizing the Enemy* Sidney Donnell, 2003 Donnell engages gender theory and cultural studies in order to shed light on cross-dressing, a common though poorly understood practice in plays performed in Spain and Colonial Spanish America during the sixteenth and seventeenth centuries. The author shows how certain naturalized assumptions about masculinity and femininity are unmasked through the cross-dressed performance of works attributed to Lope de Rueda, Morales, Lope de Vega, Monroy y Silva and Calderón. **Theatre of the Book, 1480-1880** Julie Stone Peters, 2003 This volume explores the impact of printing on the European theatre in the period 1480-1880 and shows that the printing press played a major part in the birth of modern theatre. Sins of the Fathers Hilaire Kallendorf, 2013-12-06 *Sins of the Fathers* considers sins as nodes of cultural anxiety and explores the tensions between competing organizational categories for moral thought and behaviours, namely the Seven Deadly Sins and the Ten Commandments. Hilaire Kallendorf explores the decline and rise of these organizational categories against critical transformations of the early modern period such as the accession of Spain to a position of world dominance and the arrival of a new courtly culture to replace an old warrior ethos. This ground-breaking study is the first to consider Spanish Golden Age comedias as an archive of moral knowledge. Kallendorf has examined over

800 of these plays to illustrate how they provide insight into aspects of early modern experience such as food sex work and money Finally Kallendorf engages the theoretical terminology of Marxist literary criticism to demonstrate the inherent ambiguity of cultural change
