Easing As A Highway To Hyperinflation Imad A Moosa,2013-10-07 This book addresses the topical issue of whether the current environment in the US and other major countries where quantitative easing is used to boost the economy is conducive to the emergence of hyperinflation This is a controversial and highly debated issue Using both economics and history the author challenges the view that quantitative easing will not lead to hyperinflation and argues that hyperinflation or at least high inflation is likely to appear eventually The book examines all the propositions put forward for and against the eventuality of hyperinflation in the US using illustrations based on actual and simulated data The analysis leads to the conclusion that the current fiscal position of the US government particularly the levels of external debt and unfunded liabilities will not be rectified without resorting to inflationary financing The book would be useful not only for policy makers and economists but also for non specialist observers

Loss and consequent grief permeates nearly every life changing event from death to health concerns to dislocation to relationship breakdown to betrayal to natural disaster to faith issues Yet while we know about particular events of loss independently we know very little about a psychology of loss that draws many adversities together This universal experience of loss as a concept in its own right sheds light on so much of the work we do in the care of others This book develops a new overarching framework to understand loss and grief taking into account both pathological and wellbeing approaches to the subject Drawing on international and cross disciplinary research Judith Murray highlights nine common themes of loss helping us to understand how it is experienced These themes are then used to develop a practice framework for structuring assessment and intervention systematically Throughout the book this generic approach is highlighted through discussing its use in different loss events such as bereavement trauma chronic illness and with children or older people Having been used in areas as diverse as child protection palliative care and refugee care the framework can be tailored to a range of needs and levels of care Caring for people experiencing loss is an integral part of the work of helping professions whether it is explicitly part of their work such as in counselling or implicit as in social work nursing teaching medicine and community work This text is an important guide for anyone working in these areas

Industrial Relations and Labour Laws, 7th Edition Srivastava S.C., The Seventh revised and enlarged edition of the book Industrial Relations and Labour Laws has brought all the important labour legislations within the purview of this book The notable feature of this edition is inclusion of laws on social security wages and minimum standards of employment including factory contract child and migrant workers Another significant feature of this edition is detailed discussion on labour law reforms and more specifically comprehensive analysis of the proposed labour code on industrial relations social security wages and occupational safety health and working conditions This edition also incorporates all the amendments in labour laws and analyses of all important judgments of the Supreme Court and High Courts on labour laws This edition covers almost all the syllabuses of LLB LLM MBA MPA MSW
