## **Lost World Adventures:**

**Planet Comics #28** Various Authors, **Perilous Escapades** Gary Hoppenstand, 2018-04-19 Adventure fiction is one of the easiest narrative forms to recognize but one of the hardest to define because of its overlap with many other genres. This collection of essays attempts to characterize adventure fiction through the exploration of key elements such as larger than life characters and imperialistic ideas in the genre's 19th and 20th century British and American works like *The Scarlet Pimpernel* by Orczy and *Captain Blood* by Sabatini. The author explores the cultural and literary impact of such works presenting forgotten classics in a new light.

**The Clive Cussler Adventures** Steven Philip Jones, 2014-05-20 The author of more than 50 books 125 million copies in print Clive Cussler is the current grandmaster of adventure literature. Dirk Pitt the sea loving protagonist of 22 of Cussler's novels remains among the most popular and influential adventure series heroes of the past half century. This first critical review of Cussler's work features an overview of Pitt and the supporting characters and other heroes an examination of Cussler's themes and influences a review of his most important adventures such as *Raise the Titanic* and *Iceberg* and a look at adaptations of his work in other media. Cussler joins the pantheon of such as Rudyard Kipling Sir Arthur Conan Doyle and Ian Fleming and this overdue volume demonstrates that beneath Cussler's immense popularity lies a literary depth that well merits scholarly attention.

**Outside Adventure Travel Trekking** David Noland, 2001-04-03 Describes and outlines the treks of early twentieth century explorers in six continents and provides information on cost distance altitude equipment and clothing and level of physical and mental challenge.

**The British Adventure Hero** Leo Hall, 2025-07-26 This book explores the construction of the fin de siècle adventure hero set against a romanticised vision of the past and a nostalgic ideal of gentlemanliness but also forward looking in terms of forging a future for Britain through the imperialist dream. *The British Adventure Hero* offers a unique focus on how the adventure hero's masculinity is shaped by Victorian industrial technological and scientific developments which influenced concepts of national identity both psychologically and physiologically. Central to exploring the relationship between the adventure hero and industrialisation are the original illustrations that were printed with the stories in periodicals and the first illustrated editions. This approach to studying the partnership between both text and illustrations demonstrates that the adventure story is a paradox an outcome of invention scientific technological and industrial progress yet also a supposed escape from nineteenth century industrial modernity. The book traces this context through analysis of Robert Louis Stevenson's *Treasure Island* 1883 Arthur Conan Doyle's *The Lost World* 1912 Jules Verne's *Around the World in Eighty Days* 1873 and Edgar Rice Burroughs's *Tarzan of the Apes* 1912. Significantly the book also examines how these authors' perspectives on the idealised English identities of their heroes are informed by their Scottish French and American nationalities.

**Genre and Hollywood** Steve Neale, 2005-06-20 *Genre and Hollywood* provides a comprehensive introduction to the study of genre In this important new book Steve Neale discusses all the major concepts theories and accounts of Hollywood and genre as well as the key genres which theorists have written about from horror to the Western He also puts forward new arguments about the importance of genre in understanding Hollywood cinema Neale takes issue with much genre criticism and genre theory which has provided only a partial and misleading account of Hollywood's output He calls for broader and more flexible conceptions of genre and genres for more attention to be paid to the discourses and practices of Hollywood itself for the nature and range of Hollywood's films to be

looked at in more detail and for any assessment of the social and cultural significance of Hollywood's genres to take account of industrial factors. In detailed revisionist accounts of two major genres, film noir and melodrama, Neale argues that genre remains an important and productive means of thinking about both New and old Hollywood, its history, its audiences, and its films.

**Imagining the Arctic** Huw Lewis-Jones, 2017-03-13. *Imagining the Arctic* explores the culture and politics of polar exploration and the making of its heroes. Leading explorers, the celebrity figures of their day, went to great lengths to convince their contemporaries of the merits of polar voyages. Much of exploration was in fact theatre, a series of performances to capture public attention and persuade governments to finance ambitious proposals. The achievements of explorers were promoted, celebrated, and manipulated, whilst explorers themselves became the subject of huge attention. Huw Lewis-Jones draws upon recovered texts and striking images, many reproduced for the first time since the nineteenth century, to show how exploration was projected through a series of spectacular visuals, helping us to reconstruct the ways that heroes and the wilderness were imagined. Elegantly written and richly illustrated, *Imagining the Arctic* offers original insights into our understanding of exploration and its pull on the public imagination.
