pursuit of truth Discover how apologetics can become a bridge not a barrier between reason and revelation This beautifully written book gives the reader a deep philosophical dive into the interactions between theology and science The author presents thorough discussions of the complex ways that these disciplines have influenced conflicted with and reinforced each other over history and in the present He presents a comprehensive and enlightening view of concordism anachronism and scientism as dangers to be avoided and describes worldviews that treat philosophy theology and science as valid and valuable contributions to human knowledge and the understanding of reality A valuable resource for anyone interested in the details of the philosophical dynamics between science and faith Sy Garte Ph D Biochemist Author of The Works of His Hands A Scientist's Journey from Atheism to Faith A significant portion of the modern intellectual world rests on the unsupported foundation of scientism the typically self serving notion that knowledge is gained only through science Yet what laboratory experiment demonstrated that In fact scientism is a parasite that feeds off the prestige of real working science It is a terrible philosophy with no answers for the most profound questions that tug on the human heart In his latest book Dr Octavian Caius Obeada takes the measure of scientism and shows the way to a balanced fruitful understanding of the relationship between faith and reason Michael J Behe author of Darwin's Black Box Martin Luther reportedly compared human nature to a drunken man on horseback who if he doesn't fall off on one side he'll fall off the other what he lacks is balance Balance is also hard to find in much contemporary thinking about theology philosophy science and how they are related to each other This fine volume by Dr Octavian Caius Obeada provides an important counterexample to this tendency a thorough fair historically informed and carefully argued account of faith reason and science that does justice to each and relates them in a balanced and fruitful way This will be a helpful resource for anyone hoping to stay on the saddle in this important but contested area I recommend it highly David A Horner D Phil Oxford Professor of Theology and Philosophy Talbot School of Theology Biola University In Bridging Faith and Reason Dr Caius Obeada offers a rigorous and balanced exploration of how Scripture and science can be engaged without distortion or reduction With intellectual clarity and deep conviction he challenges both concordist shortcuts and scientistic reductionism pointing instead to a more faithful apologetic of our faith grounded in humility and truth Having read this work I am encouraged by the way Dr Obeada equips believers pastors and even theologians to think critically to honor God's Word and to engage our culture with confidence and grace This book is an important contribution to the ongoing dialogue between faith theology and the sciences Sergiu M Br dean Pastor First Romanian Baptist Church Windsor Ontario This book offers a fresh and important perspective on the relationship between faith and science The author emphasizes that this relationship is not a battleground but rather a place of rich dialogue and shared wonder Throughout this book the central argument is that apologetics is not about transforming theology into science or vice versa Rather it is about building bridges finding how the revelations of modern science can coexist with the timeless truths of the Bible It is about holding together the human inquiry and the mystery of divine revelation In doing so the author

is inviting both believers and skeptics into a deeper conversation about faith and science Rector Conf Univ Dr Daniel Mari Institutul Teologic Baptist Bucure ti I very much welcome author s call to broaden our standards of rationality and to cultivate virtues of provisionality and interpretive care in our apologetic work Honoring multiple modes of knowing scientific philosophical theological is not only desirable but necessary I also welcome Caius underlying assumption that such conversation is not merely about methods of knowing but about knowing before the One who calls us to truth George Ille PhD an Affiliate Professor of Theology and Philosophy at Asbury Theological Seminary *Story Of The World Ancient Times Activity Book 1 3e* Susan Wise Bauer,2006-11 Presents a history of the ancient world from 6000 B C to 400 A D **A Study in Terror: Volume 1** Derrick Belanger,Sir Arthur Conan Doyle,2014-09-24 Sir Arthur Conan Doyle is one of those authors whose literary creation is much more famous than the man himself Those who do know the name Arthur Conan Doyle tend to know him only as the inventor of the world s greatest detective Sherlock Holmes A smaller segment of this group goes further and remembers Doyle as the inventor of the great detective who squandered his fame with crackpot beliefs in faeries and the supernatural Sadly there is so much more to the man who revolutionized the writing not just of detective fiction but also of the genre of horror the supernatural and even influenced history itself This two volume anthology s point is to put Doyle back on the pedestal he so rightly deserves Its aim is twofold First to introduce readers to Doyle s lesser known yet no less important works These works speak for themselves in showing a master writer at his craft The stories are timeless enjoyable and hopefully will lead to new fans embracing a great author s somewhat forgotten tales The second aim is to show the relevance of Doyle s works Through a collection of articles written by current scholars and experts readers can see just how revolutionary Doyle s writings remain even today **New Age Bible of Mother Africa (Volumes 1 & 2)** T Lindsey-Billingsley,2019-12-13 The author T Lindsey Billingsley has compiled a no nonsense philosophical study guide exploring racial origins the African origins of humanity and prehistoric Kemetic influence throughout the world The main focus of these studies is on the anthropological and physiological makeup of racial groups with indepth research into both the Out of Africa theories and divine creationism myths Billingsley supplies concrete evidence to support her conclusions on the true human experience in lieu of popular speculation and theory devoid of logic and sound proof In this and subsequent volumes the author will establish a new perspective of thinking that will tempt you to challenge the validity of theological creationism and evolution whilst substantiating a strong position on intelligent design and extraterrestrial intervention **Old Testament Pseudepigrapha, vol. 1** Richard Bauckham,James R.
