Outsiders Still Vivian Smith, 2015-01-01 Despite years of dominating journalism school classrooms across North America women remain vastly underrepresented at the highest levels of newspaper leadership Why do so many female journalists leave the industry and so few reach the top Interviewing female journalists at daily newspapers across Canada Vivian Smith who spent fourteen years at The Globe and

Mail as a reporter editor and manager finds that many of the obstacles that women face in the newspaper industry are the same now as they have been historically made worse by the challenging times in which the industry finds itself The youngest fear they will have to choose between a career and a family mid career women madly juggle the pressures of work and family while worrying that they are not good mothers and the most senior reflect on decades of accomplishments mixed with frustration at newsroom sexism that has held them back Listening carefully to the stories these journalists tell both about themselves and about what they write Smith reveals in *Outsiders* Still how overt hostility to women in the newsroom has been replaced by systemic inequality that limits or ends the careers of many female journalists Despite decades of contributions to society's news agenda women print journalists are outsiders still

Leonard and Reva Brooks John Virtue, 2001 In 1947 Leonard and Reva Brooks left for Mexico where Leonard planned to study painting for a year In Mexico they discovered a vibrant sometimes even dangerous society and a dynamic artistic community unlike the mundane world they had left behind in Canada with its stale and unwelcoming artistic scene Invigorated by their new environment Leonard and Reva ended up staying for over half a century playing a key role in establishing San Miguel de Allende as a world famous art colony In this new biography John Virtue chronicles the lives of these two important artists and offers an intimate look at these complex and creative people Virtue describes how they were caught up in the McCarthy era of Communist witch hunts and blacklisted in the United States He details their close friendships with luminary figures such as Marshall McLuhan Earle Birney and the Mexican art icon David Alfaro Siqueiros as well as a host of others As Leonard became a fixture in the Mexican art scene Reva's photography quickly garnered international recognition applauded by photographers Ansel Adams and Edward Weston In 1975 the San Francisco Museum of Art selected her as one of the top fifty female photographers of all time With tales of deportations shootouts murder attempts failures and triumphs Leonard and Reva Brooks is a biography of two creative people caught up in interesting times

The Dominion of Youth Cynthia Comacchio, 2008-10-08 Adolescence like childhood is more than a biologically defined life stage it is also a sociohistorical construction The meaning and experience of adolescence are reformulated according to societal needs evolving scientific precepts and national aspirations relative to historic conditions Although adolescence was by no means a discovery of the early twentieth century it did assume an identifiably modern form during the years between the Great War and 1950 *The Dominion of Youth* Adolescence and the Making of Modern Canada 1920 to 1950 captures what it meant for young Canadians to inhabit this liminal stage of life within the context of a young nation caught up in the self formation and historic transformation that would make modern Canada Because the young at this time were seen paradoxically as both the hope of the nation and the source of its possible degeneration new policies and institutions were developed to deal with the problem of youth This history considers how young Canadians made the transition to adulthood during a period that was developmental both for youth and for a nation also working toward individuation During the years considered here those who occupied this dominion of youth would see

their experiences more clearly demarcated by generation and culture than ever before With this book Cynthia Comacchio offers the first detailed study of adolescence in early twentieth century Canada and demonstrates how young Canadians of the period became the nation's first modern teenagers

Contesting Bodies and Nation in Canadian History Patrizia Gentile, Jane Nicholas, 2013-12-06 From fur coats to nude paintings and from sports to beauty contests the body has been central to the literal and figurative fashioning of ourselves as individuals and as a nation In this first collection on the history of the body in Canada an interdisciplinary group of scholars explores the multiple ways the body has served as a site of contestation in Canadian history in the nineteenth and twentieth centuries Showcasing a variety of methodological approaches *Contesting Bodies and Nation in Canadian History* includes essays on many themes that engage with the larger historical relationship between the body and nation medicine and health fashion and consumer culture citizenship and work and more The contributors reflect on the intersections of bodies with the concept of nationhood as well as how understandings of the body are historically contingent The volume is capped off with a critical introductory chapter by the editors on the history of bodies and the development of the body as a category of analysis
