comprehensive and inquisitive stance for the study of moving pictures as a cultural movement and ludenic innovation It returns to earlier analysis and commentary on this new invention and recreation quickly termed the movies and develops the initial impression of both moviegoers and observers that the movies appealed because they were fun As such the book examines the characteristics that made films so enjoyable namely their use of magic presentation of myth and persistence of mnemonic recollection The enduring appeal of moving pictures remains consistent even though the medium has proliferated and diversified so much so that now a good portion of the human race spends a great deal of time looking at moving pictures The book is eclectic and exploratory designed to urge consideration of moving pictures in this larger perspective as something that has changed and perhaps enriched the lives of many people leaving inquirers the task of calculating the enormous significance and consequences of our motion picture experience for the conduct of our lives Such an effort is not without merit since it now seems quite clear that the whole world is watching *From the Forest* Sara Maitland, 2013-10-29

An insightful beautifully written study of how nature has influenced popular fairy tales like Rapunzel and Little Red Riding Hood pairing 12 modern retellings with detailed histories of Northern European forests Fairy tales are one of our earliest cultural forms and forests one of our most ancient landscapes Both evoke similar sensations At times they are beautiful and magical at others spooky and sometimes horrifying Maitland argues that the terrain of these fairy tales are intimately connected to the mysterious secrets and silences gifts and perils With each chapter focusing on a different story and a different forest visit Maitland offers a complex history of forests and how they shape the themes of fairy tales we know best She offers a unique analysis of famous stories including Rapunzel Hansel and Gretel Snow White Little Red Riding Hood Rumpelstiltskin and Sleeping Beauty Maitland uses fairy tales to explore how nature itself informs our imagination and she guides the reader on a series of walks through northern Europe's best forests to explore both the ecological history of forests and the roots of fairy tales In addition to the twelve modern retellings of these traditional fairy tales she includes beautiful landscape photographs taken by her son as he joined her on these long walks Beautifully written and impeccably researched Maitland has infused new life into tales we've always thought we've known **Europa's Fairy Book** Joseph
