transform your world view Dr Masaru Emoto's first book *The Hidden Message in Water* told about his discovery that crystals formed in frozen water revealed changes when specific concentrated thoughts were directed toward them He also found that water from clear springs and water that has been exposed to loving words showed brilliant complex and colourful snowflake patterns In contrast polluted water or water exposed to negative thought formed incomplete asymmetrical patterns with dull colors *The Healing Power of Water* includes contributions from leading scientists such as William A Tiller who was featured in the film *What the Bleep Do We Know* and from spiritual teachers such as Doreen Virtue Starhawk William Bloom and Sig Lonegren **Profanations** Giorgio Agamben, 2020-10-20 The Italian philosopher Giorgio Agamben has always been an original reader of texts understanding their many rich and multiple historical aesthetic and political meanings and effects In *Profanations* Agamben has assembled for the first time some of his most pivotal essays on photography the novel and film A meditation on memory and oblivion on what is lost and what remains *Profanations* proves yet again that Agamben is one of

the most provocative writers of our times In ten essays Agamben rethinks approaches to a series of literary and philosophical problems the relation between genius ego and theories of subjectivity the problem of messianic time as explicated in both images and lived experience parody as a literary paradigm the potential of magic to provide an ethical canon The range of topics and themes addressed here attest to the very creativity of Agamben s singular mode of thought and his persistent pursuit to grasp the act of witnessing sometimes futile sometimes earth shattering the talking cricket in Pinocchio helps in Kafka s novels pictorial representations of the Last Judgment of anonymous female faces and of Orson Wells s infamous object of obsession Rosebud In Praise of Profanity the central essay of this small but dense book confronts the question of profanity as the crucial political task of the moment An act of resistance to every form of separation the concept of profanation as both the return to common usage and sacrifice reorients perceptions of how power consumption and use interweave to produce an urgent political modality and desire to profane the unprofanable In short Agamben provides not only a new and potent theoretical model but also a writerly style that itself forges inescapable links between literature politics and philosophy
