The First Fossil Hunters Adrienne Mayor, 2023-04-11 Griffins Cyclopes Monsters and Giants these fabulous creatures of classical mythology continue to live in the modern imagination through the vivid accounts of the ancient Greeks and Romans But what if these beings were more than fictions This is the arresting and original idea that Adrienne Mayor explores in *The First Fossil Hunters* Through careful research and documentation she shows that many of the giants and monsters of myth did have a basis in fact in ancient people's discoveries of the enormous bones of long extinct dinosaurs mastodons and other animals that were once abundant in the lands of the Greeks and Romans *Witchcraft and Magic in Europe, Volume 2* Bengt Ankarloo, Stuart Clark, 1999-10-14 Topics include binding spells curse tablets and the demonization of magic and sorcery by Christianity *The New World*, 1844 **The Magic Art and the Evolution of Kings** James George Frazer, 1913 **Magical House Protection** Brian Hoggard, 2019-04-22 Belief in magic and particularly the power of witchcraft was once a deep and enduring presence in popular culture Diving into Brian Hoggard's *Magical House Protection* is a remarkable experience It provides an immersive and fascinating read Fortean Times People created and concealed many objects to protect themselves from harmful magic Detailed are the principal forms of magical house protection in Britain and beyond from the fourteenth century to the present day Witch bottles dried cats horse skulls written charms protection marks and concealed shoes were all used widely as methods of repelling diverting or trapping negative energies Many of these practices and symbols can be found around the globe demonstrating the universal nature of efforts by people to protect themselves from witchcraft From the introduction The most popular locations to conceal objects within buildings are usually at portals such as the hearth the threshold and also voids or dead spaces This suggests that people believed it was possible

for dark forces to travel through the landscape and attack them in their homes Whether these forces were emanations from a witch in the form of a spell a witch s familiar pestering their property an actual witch flying in spirit or a combination of all of those is difficult to tell Additional sources of danger could be ghosts fairies and demons People went to great lengths to ensure their homes and property were protected highlighting the fact that these beliefs and fears were visceral and as far as they were concerned literally terrifying

Ancient People of the Arctic Robert McGhee,2001 The Palaeo Eskimos have left far more than the hundreds of pieces of art recovered by archaeologists and the evidence of human ingenuity and endurance on the perimeter of the habitable world Their most valuable legacy lies in the realization that these two things occurred together and were part of the same phenomenon They provide an example of lives lived richly and joyfully amid dangers and insecurities that are beyond the imagination of the present world
