**Runic Amulets and Magic Objects** Mindy MacLeod, Bernard Mees, 2006 A fresh examination of one of the most contentious issues in runic scholarship magical or not The runic alphabet in use for well over a thousand years was employed by various Germanic groups in a variety of ways including inevitably for superstitious and magical rites Formulaic runic words were inscribed onto small items that could be carried for good luck runic charms were carved on metal or wooden amulets to ensure peace or prosperity There are invocations and allusions to pagan and Christian gods and heroes to spirits of disease and even to potential lovers Few such texts are completely unique to Germanic society and in fact most of the runic amulets considered in this book show wide ranging parallels from a variety of European cultures The question of whether runes were magical or not has divided scholarship in the area Early criticism embraced fantastic notions of runic magic leading not just to a healthy scepticism but in some cases to a complete denial of any magical element whatsoever in the runic inscriptions This book seeks to re evaluate the whole question of runic sorcery attested to not only in the medieval Norse literature dealing with runes but primarily in the fascinating magical texts of the runic inscriptions themselves Dr MINDY MCLEOD teaches in the Department of Linguistics Deakin University Melbourne Dr BERNARD MEES teaches in the Department of History at the University of Melbourne

**Making Amulets Christian** Theodore de Bruyn, 2018-01-26 Making Amulets Christian Artefacts Scribes and Contexts examines Greek amulets with Christian elements from late antique Egypt in order to discern the processes whereby a customary practice the writing of incantations on amulets changed in an increasingly Christian context It considers how the formulation of incantations and amulets changed as the Christian church became the prevailing religious institution in Egypt in the last centuries of the Roman empire Theodore de Bruyn investigates what we can learn from incantations and amulets containing Christian elements about the cultural and social location of the people who wrote them He shows how incantations and amulets were indebted to rituals or ritualizing behaviour of Christians This study analyzes different types of amulets and the ways in which they incorporate Christian elements By comparing the formulation and writing of individual amulets that are similar to one another one can observe differences in the culture of the scribes of these materials It argues for conditioned individuality in the production of amulets On the one hand amulets manifest qualities that reflect the training and culture of the individual writer On the other

hand amulets reveal that individual writers were shaped whether consciously or inadvertently by the resources they drew upon by what is called tradition in the field of religious studies Translating Worlds Carlo Severi, William F.

Hanks, 2015-12-15 Set against the backdrop of anthropology's recent focus on various turns whether ontological, ethical, or otherwise, this pathbreaking volume returns to the question of knowledge and the role of translation as a theoretical and ethnographic guide for twenty-first century anthropology, gathering together contributions from leading thinkers in the field. Since Ferdinand de Saussure and Franz Boas, languages have been seen as systems whose differences make precise translation nearly impossible. And still others have viewed translation between languages as principally indeterminate. The contributors here argue that the challenge posed by the constant confrontation between incommensurable worlds and systems may be the most fertile ground for state-of-the-art ethnographic theory and practice. Ranging from tourism in New Guinea to shamanism in the Amazon to the globally ubiquitous restaurant menu, the contributors mix philosophy and ethnography to redefine translation not only as a key technique for understanding ethnography but as a larger principle in epistemology. **Textual Amulets from Antiquity to Early Modern Times** Christoffer Theis, Paolo Vitellozzi, 2022-10-20

Comparing amulets over time and space, this volume focuses on the function of written words on these fascinating artefacts. Ranging from Roman Egypt to the Middle Ages and the Modern period, this book provides an overview on these artefacts in the Mediterranean world and beyond, including Europe, Iran, and Turkey. A deep analysis of the textuality of amulets provides comparative information on themes and structures of the religious traditions examined. A strong emphasis is placed on the material features of the amulets and their connections to ritual purposes. The textual content as well as other characteristics is examined systematically in order to establish patterns of influence and diffusion. The question of production, which includes the relationships that linked professional magicians, artists, and craftsmen to their clientele, is also discussed, as well as the sacred and cultural economies involved. Medicine, Religion, and Magic in Early Stuart England Ofer Hadass, 2018-03-26

The astrologer-physician Richard Napier (1559-1634) was not only a man of practical science and medicine but also a master of occult arts and a devout parish rector who purportedly held conversations with angels. This new interpretation of Napier reveals him to be a coherent and methodical man whose burning desire for certain true knowledge contributed to the contemporary venture of putting existing knowledge to useful ends. Originally trained in theology and ordained as an Anglican priest, Napier later studied astrological medicine and combined astrology, religious thought, and image and ritual magic in his medical work. Ofer Hadass draws on a remarkable archive of Napier's medical cases and religious writings, including the interviews he claimed to have held with angels, to show how Napier's seemingly inconsistent approaches were rooted in an inclusive and coherent worldview combining equal respect for ancient authority and for experientially derived knowledge. Napier's endeavors exemplify the fruitful relationship between religion and science that offered a well-founded alternative to the rising mechanistic explanation of nature at the time. Carefully researched and compellingly told. *Medicine*

Religion and Magic in Early Stuart England is an insightful exploration of one of the most fascinating figures at the intersection of medicine magic and theology in early modern England and of the healing methods employed by physicians of the era

*Knowledge Lost* Martin Mulsow, 2022-11-01 A compelling alternative account of the history of knowledge from the Renaissance to the Enlightenment Until now the history of knowledge has largely been about formal and documented accumulation concentrating on systems collections academies and institutions The central narrative has been one of advancement refinement and expansion Martin Mulsow tells a different story Knowledge can be lost manuscripts are burned oral learning dies with its bearers new ideas are suppressed by censors *Knowledge Lost* is a history of efforts from the Renaissance to the Enlightenment to counter such loss It describes how critics of ruling political and religious regimes developed tactics to preserve their views how they buried their ideas in footnotes and allusions how they circulated their tracts and treatises in handwritten copies and how they commissioned younger scholars to spread their writings after death Filled with exciting stories *Knowledge Lost* follows the trail of precarious knowledge through a series of richly detailed episodes It deals not with the major themes of metaphysics and epistemology but rather with interpretations of the Bible Orientalism and such marginal zones as magic And it focuses not on the usual major thinkers but rather on forgotten or half forgotten members of the knowledge underclass such as Pietro della Vecchia a libertine painter and intellectual Charles C sar Baudelot an antiquarian and numismatist and Johann Christoph Wolf a pastor Hebrew scholar and witness to the persecution of heretics Offering a fascinating new approach to the intellectual history of early modern Europe *Knowledge Lost* is also an ambitious attempt to rethink the very concept of knowledge
