Performing Deception Brian Rappert,2022-05-27 In Performing Deception Brian Rappert reconstructs the practice of entertainment magic by analysing it through the lens of perception deception and learning as he goes about studying conjuring himself Through this novel meditation on reasoning and skill Rappert elevates magic from the undertaking of mere trickery to an art that offers the basis for rethinking our possibilities for acting in the modern world Performing Deception covers a wide range of theories in sociology philosophy psychology and elsewhere in order to offer a striking assessment of the way secrecy and deception are woven into social interactions as well as the illusionary and paradoxical status of expertise

Experiencing the Impossible Gustav Kuhn,2019-03-12 This thought provoking tour through the science of magic will make you question what you know about your brain and your reality A psychologist and magician shows how the scientific

study of magic reveals intriguing and often unsettling insights into the mysteries of the human mind What do we see when we watch a magician pull a rabbit out of a hat or read a person s mind We are captivated by an illusion we applaud the fact that we have been fooled Why do we enjoy experiencing what seems clearly impossible or at least beyond our powers of explanation In *Experiencing the Impossible* Gustav Kuhn examines the psychological processes that underpin our experience of magic Kuhn a psychologist and a magician reveals the intriguing and often unsettling insights into the human mind that the scientific study of magic provides Magic Kuhn explains creates a cognitive conflict between what we believe to be true for example a rabbit could not be in that hat and what we experience a rabbit has just come out of that hat Drawing on the latest psychological neurological and philosophical research he suggests that misdirection is at the heart of all magic tricks and he offers a scientific theory of misdirection He explores among other topics our propensity for magical thinking the malleability of our perceptual experiences forgetting and misremembering free will and mind control and how magic is applied outside entertainment the use of illusion in human computer interaction politics warfare and elsewhere We may be surprised to learn how little of the world we actually perceive how little we can trust what we see and remember and how little we are in charge of our thoughts and actions Exploring magic Kuhn illuminates the complex and almost magical mechanisms underlying our daily activities

The Magic Crucible Pasquale De Marco, In the realm of enchantment and mystery *The Magic Crucible* unveils the secrets of the arcane inviting readers to embark on a captivating journey into the heart of magic With captivating prose and profound insights this book delves into the diverse facets of magic from the ancient sages who sought to unravel the enigmas of the universe to the modern day practitioners who harness the power of intention and belief It illuminates the intricate relationship between science and magic revealing how the boundaries of human perception can be transcended Within these pages readers will discover the elemental forces that shape the world the art of spellcraft and incantation and the profound impact of magic on healing and manifestation The exploration extends to the realm of shadow magic unveiling the darker aspects of this potent force and the delicate balance between light and darkness As we stand at the precipice of a new era *The Magic Crucible* peers into the future of magic envisioning a convergence of technology and ancient wisdom It contemplates the role of magic in shaping the destiny of humanity and the limitless possibilities that lie ahead Prepare to be captivated as *The Magic Crucible* unlocks the secrets of the cosmos revealing the hidden realms of existence and the boundless power of the human spirit Embark on this extraordinary odyssey and discover the magic that resides within you Delve into the depths of magic and uncover the mysteries that lie hidden within *The Magic Crucible* awaits those who dare to explore the extraordinary and embrace the power of the unknown If you like this book write a review

Magic and Magicians in the Middle Ages and the Early Modern Time Albrecht Classen, 2017-10-23 There are no clear demarcation lines between magic astrology necromancy medicine and even sciences in the pre modern world Under the umbrella term magic the contributors to this volume examine a wide range of texts both

literary and religious both medical and philosophical in which the topic is discussed from many different perspectives The fundamental concerns address issue such as how people perceived magic whether they accepted it and utilized it for their own purposes and what impact magic might have had on the mental structures of that time While some papers examine the specific appearance of magicians in literary texts others analyze the practical application of magic in medical contexts In addition this volume includes studies that deal with the rise of the witch craze in the late fifteenth century and then also investigate whether the Weberian notion of disenchantment pertaining to the modern world can be maintained Magic is oddly but significantly still around us and exerts its influence Focusing on magic in the medieval world thus helps us to shed light on human culture at large

Doing Rebellious Research ,2022-05-09 The ways in which research and scholarship are co produced co performed and proclaimed as particular kinds of knowledges and truths in and beyond the academy is radically changing The capacity to write rebelliously in varying registers and voices tempos and volumes as featured across this book is boundaryless In this edited volume we ask new questions which simultaneously trouble and open up what the product and performance of academic work words and worlds might come to be At the heart of this book we move between departing radically from academic writing to arriving at a new academic endeavor and transaction between reader and text driven by the invitation to open rebellion in academic research and writing This unique volume brings together an extraordinary range of international scholars researchers and artists that include contemporary social scientists critical theorists visual artists poets musicians hip hoppers choreographers activists film makers theatre makers magicians and circus artists from both within and outside the academy in Europe UK India Africa USA Canada Australia and New Zealand They articulate new concepts for thinking differently generate new theories differently and present new methods of writing differently This book provides permission to depart radically in academic writing and creative practice particularly for doctoral and higher degree research students and those who work alongside them as supervisors and advisors and higher research degree educators The claim here is that rebellious departures and performances in academic research and writing are the future of academia This book provides a series of steps toward preparing for that future
