The Buddhist Essence Elizabeth Clare Prophet,2020-01-07 We all have the seed or essence of Buddha within us and because we do we have the potential to become a Buddha The journey to Buddhahood is not a journey measured in distance or time Its markers are self knowledge and a yearning for something within that beckons the soul to take the next step on her spiritual journey Drawing on traditional and modern Buddhist teachings and stories Elizabeth Clare Prophet gently traces the pathway to Buddhist enlightenment She outlines the stages on that path and describes the ten virtues we are meant to perfect along the way offering insightful tips for developing them She also explores Buddhist teaching on awakening the heart and mind and explains how Buddhist mantras help us overcome obstacles to spiritual growth while increasing wisdom compassion forgiveness and joy Includes a section on mantras for wisdom and compassion The Buddhist Essence is the second book in the author s Mystical Paths of the World s Religions series The Mahayana Buddha-Way Shinshu Center of America,2022-06-30 **Figments and Fragments of Mahayana Buddhism in India** Gregory Schopen,2005-08-31 In these articles Gregory Schopen once again displays the erudition and originality that have contributed to a major shift in the way that Indian Buddhism is perceived understood and studied **The God Who Is** Hans Schwarz,2011-01-01 Who is the God in whom Christians believe Is he just a figment of the human mind as critics of religion claimed in the nineteenth century and as crusading atheists assert again today Since the beginnings of rational thought the brightest minds among humanity have attempted to assert that God does indeed exist But even the so called proofs for God s existence always started with the assumption that there is someone to prove As soon as we move beyond that which is within space and time mere proofs or disproofs no longer suffice Both believers and unbelievers live to a certain degree by faith Yet religion is inextricably connected with human history When we journey through the landscape of religion and witness its gradual unfolding we soon realize that not all religions are equal Though they may be witnesses of the same God the way they talk about God is so different that this not only leads to very different concepts of God but also to different approaches to life on this earth At the end of this long journey we finally arrive at the Judeo Christian tradition which witnesses to the God in whom Christians believe This book seeks to show how this belief matured and what difference this belief still makes today The Cosmic Breath Amos Yong,2012-05-10 The interjection of pneumatology in both theologies of interreligious dialogue and in the theology and science conversation comes together in this volume The resulting Christianity Buddhism science triologue opens up to new pneumatological perspectives on philosophical cosmology and anthropology in interdisciplinary and global context *The Meaning of Life in Hinduism and Buddhism* Floyd H Ross,2013-05-13 Originally published in 1952 This volume by discussing significant insights of Hinduism and Buddhism answers the question What is the meaning of life It

illustrates the importance of Buddhist and Hindu teachings and their relevance to the West as well as clarifying some of the religious and philosophical problems Western readers must grapple with
