Media and the Empire Ruth Teer-Tomaselli,Donal McCracken,2017-10-02 This volume on print and broadcast media in the 19th and 20th centuries highlights the pivotal role that the media played in the establishment and maintenance of imperial power The media bolstered both the ideological and financial objectives of the empire in a myriad of overt covert and downright scandalous ways From jeopardising the introduction of wireless telegraphy in order to maximise the financial gains of the investors of under sea cabling to newspaper proprietors cashing in on the thrilling wonderful and sometimes fabricated adventures of war correspondents in exotic lands the media has had a constant background influence in the public s

perception of empire By covering diverse topics from Anthony Lejeune s radio talk show London Letters which supported the Allies by boosting morale and providing a link between soldiers fighting abroad and their families during both World Wars to the complete subversion of imperial influence as in the case of the proliferation of diverse media platforms being used by migrant communities in Britain as a means to promote colonization in reverse the book hints at the politics suspense and intrigue of both the print and broadcast sectors This book was originally published as a special issue of Critical Arts

Yet Being Someone Other Laurens Van Der Post,2011-08-31 Yet Being Someone Other is the most revealing book that Laurens van der Post wrote about his extraordinary and eventful life and the most far reaching it is a distillation of the experiences that have moved him at the deepest level of the imagination and made him the exceptional person and writer he was

Twilight of the Bwanas Gordon Dyus,2011-10-19 Twilight of the Bwanas is a new look at the colonial period of East Africas history Many books have been written about specific events or individuals but readers who simply want to know what it was like to have been in East Africa during the colonial era are faced with a confusing choice of source material The modern tourist or business visitor to East Africa is often puzzled at how things got the way they are and has no idea of the achievements of the men and women who were responsible for its transition from a wilderness to a modern group of states This book is designed to fill the gap by presenting a light hearted but none the less serious history of the bwanas and memsahibs of East Africa how they came into being how they lived and loved what they ate and drank and why they left the scene so precipitately As time goes by there will be fewer survivors of the colonial era left to tell the tale and the current wave of interest in various aspects of the British Empire will face a lack of eye witness accounts While the author is sympathetic to Africas problems he is gravely concerned about its future and suggests that the road to independence which was trodden so hastily in the 1960s was cynically created by European politicians for selfish reasons Hitherto unpublished material has been included in the text and though the author has told most of it in his own words the book has been enlivened by the personal experiences and favourite anecdotes of a wide circle of ex East Africans The aim has been to give someone a good read and academic niceties such as footnotes and references have been deliberately avoided The policy has also been followed of not mentioning living persons unless they happen to be public figures

The Shipbuilder and Marine Engine-builder ,1924 **The Illustrated London News** ,1931 *Boat Trains: The English*

Channel & Ocean Liner Specials Martyn Pring, 2021-01-18 A study of the specialty train including its history development and operation beginning at the end of the nineteenth century In many ways this title featuring the evolution of cross channel boat trains and the many dedicated services responsible for moving international passengers to and from trans Atlantic steamers is an extension of luxury railway travel But that s not the full story as it encapsulates more than 125 years of independent and organised tourism development At the end of the nineteenth century faster and more stable twin screw vessels replaced cross channel paddlers resulting in a significant expansion in the numbers of day excursionists and short stay visitors heading to Belgium France and the Channel Islands Continental Europe as it had done since the end of the Napoleonic Wars beckoned introducing ideas of modern day mass tourism Numerous liners bestriding the globe were British domiciled Major ports became hives of commercial activity involving moving freight and mail as well as transporting all manner of travellers Not only was there intense competition for passenger traffic between the Old and New World and Britain s imperial interests greater numbers of well heeled tourists headed off to warmer winter climes and also experimented with the novel idea of using ocean steamers as hotels to visit an array of diverse destinations Cruise tourism and the itinerary had arrived as Ocean Special boat trains became essential components of railway and port procedures Whilst some railway operations were dedicated to emigrant traffic continental and ocean liner boat trains were also synonymous with the most glamorous travel services ever choreographed by shipping lines and railway companies working closely in tandem This well illustrated book explores the many functions of boat train travel This book should appeal to the rail fan the ship enthusiast the connoisseur of travel posters and those interested in the business of transportation I know of nowhere else one can find so much information on boat train operation in one book Well worth a read by anyone interested in the interconnectivity of different means of public transportation Charles H Bogart Steamship Historical Society of America Engines of Empire Douglas R. Burgess Jr., 2016-05-04 In 1859 the S S Great Eastern departed from England on her maiden voyage She was a remarkable wonder of the nineteenth century an iron city longer than Trafalgar Square taller than Big Ben s tower heavier than Westminster Cathedral Her paddles were the size of Ferris wheels her decks could hold four thousand passengers bound for America or ten thousand troops bound for the Raj Yet she ended her days as a floating carnival before being unceremoniously dismantled in 1889 Steamships like the Great Eastern occupied a singular place in the Victorian mind Crossing oceans ferrying tourists and troops alike they became emblems of nationalism modernity and humankind s triumph over the cruel elements Throughout the nineteenth century the spectacle of a ship s launch was one of the most recognizable symbols of British social and technological progress Yet this celebration of the power of the empire masked overconfidence and an almost religious veneration of technology Equating steam with civilization had catastrophic consequences for subjugated peoples around the world Engines of Empire tells the story of the complex relationship between Victorians and their wondrous steamships following famous travelers like Mark Twain Charles Dickens and Jules Verne as well as ordinary spectators tourists and

imperial administrators as they crossed oceans bound for the colonies Rich with anecdotes and wry humor it is a fascinating glimpse into a world where an empire felt powerful and anything seemed possible if there was an engine behind it
