Main Street Revisited Richard V. Francaviglia, 1996-06-01 As an archetype for an entire class of places Main Street has become one of America's most popular and idealized images In *Main Street Revisited* the first book to place the design of small downtowns in spatial and chronological context Richard Francaviglia finds the sources of romanticized images of this archetype including Walt Disney's Main Street USA in towns as diverse as Marceline Missouri and Fort Collins Colorado Francaviglia interprets Main Street both as a real place and as an expression of collective assumptions designs and myths his Main Streets are treasure troves of historic patterns Using many historical and contemporary photographs and maps for his extensive fieldwork and research he reveals a rich regional pattern of small town development that serves as the basis for American community design He underscores the significance of time in the development of Main Street's distinctive personality focuses on the importance of space in the creation of place and concentrates on popular images that have enshrined Main Street in the collective American consciousness *Movie Towns and Sitcom Suburbs* Stephen

Rowley, 2015-10-21 Media depictions of community are enormously influential on wider popular opinion about how people would like to live In this study Rowley examines depictions of ideal communities in Hollywood films and television and explores the implications of attempts to build real world counterparts to such imagined places *Leggett's Antiques Atlas* Kim Leggett, David Leggett, 1999 The guide to antiquing in America *New York Magazine*, 1984-10-29 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea *The Changing Place of Europe in Global Memory Cultures* Christina Kraenzle, Maria Mayr, 2016-12-10 This book investigates the transnational dimensions of European cultural memory and how it contributes to the construction of new non supra and post national but also national memory narratives The volume considers how these narratives circulate not only within Europe but also through global interactions with other locations The Changing Place of Europe in Global Memory Cultures responds to recent academic calls to break with methodological nationalism in memory studies Taking European memory as a case study the book offers new empirical and theoretical insights into the transnational dimensions of cultural memory without losing sight of the continued relevance of the nation The articles critically examine the ways in which various individuals organizations institutions and works of art are mobilizing future oriented memories of Europe to construct new memory narratives Taking into account the

heterogeneity and transnational locations of commemorative groups the multidirectionality of acts of remembrance and a variety of commemorative media such as museums film photography and literature the volume not only investigates how memory discourses circulate within Europe but also how they are being transferred translated or transformed through global interactions beyond the European continent

Placing Memory and Remembering Place in Canada James Opp, John C. Walsh, 2010-11-01 Placing Memory and Remembering Place in Canada maps a fascinating terrain in memory studies by shifting the focus from nation and empire to local places that sit at the intersection of memory making and identity formation main streets city squares village museums internment camps industrial wastelands and the rural landscape While offering a unique perspective on the politics of place and memory across differing chronologies and geographies the first part of the book Commemorations traces how local expressions of memory such as celebrations museums statues postcards and plaques have contributed to a sense of place and belonging in twentieth century Canada The second part Inscriptions in turn explores how ordinary Canadians have embedded their memories of place in oral stories photographs and the landscape itself With its focus on the materiality of image text and artefact these essays argue for an understanding of place as imagined made claimed fought for and defended always in a state of becoming
