Universally recognised as by far the

most authoritative work ever published on the subject *The Birds of Africa* is a superb multi-contributor reference work with encyclopaedic species texts, stunning paintings of all species and numerous subspecies, informative line drawings, detailed range maps and extensive bibliographies. Each volume contains an Introduction that brings the reader up to date with the latest developments in African ornithology including the evolution and biogeography of African birds. Diagnoses of the families and genera, often with superspecies maps, are followed by the comprehensive species accounts themselves. These include descriptions of range and status, field characters, voice, general habits, food and breeding habits. Full bibliographies, acoustic references and indexes complete this scholarly work of reference. This eighth and final volume covers the Malagasy region which comprises Madagascar and the various islands and archipelagos of the Indian Ocean including the Seychelles, the Comoros, Mauritius and Réunion. Every resident and migrant species is covered in full detail, comparable to other volumes in the series and with a colour map for each species. Vagrants are treated in less detail. All species are illustrated on a
