human energies linking all persons in cooperative effort and in one common fate The Turk has bread because the American smokes cigarettes New Yorkers eat pineapple ripened in Hawaii because the Burmese mine tin We drink coffee at breakfast because Brazilians need our iron machinery and wheat And Japanese babies grow strong and healthy when American women buy silk lingerie This is the kind of world that men and women naturally want to live in And it is the kind of world they begin to create when they are free to use their individual energies and free to cooperate among themselves voluntarily Thus the brotherhood of man is not an ideal of selflessness which human beings are too sinful to achieve It is stern reality All persons are bound together in the one imperative desire to survive on this earth DO unto others as you would have them do unto you is not only a sound moral precept it is the hardheaded advice of practical self interest Whoever injures another injures himself because he decreases the opportunity for gains that come through cooperation and exchange About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
