Administration of Mainstreaming David Coursen, 1981 The Education for All Handicapped Children Act of 1975 requires mainstreaming or the education of handicapped children with regular students to the greatest extent appropriate Although the provisions of the law call for each student to be assessed individually and provided with an Individualized Education Program IEP the costs associated with these requirements too often encourage schools to fit the children into programs that are designed to handle categories of disability rather than individual learning needs Flexible specific IEPs planned in collaboration with parents should be part of clearly defined goal oriented school programs Support and leadership from administrators is a key to the success of mainstreaming Administrators should be concerned with establishing good communications developing mainstreaming skills through staff development programs modeling and encouraging an attitude of respect and acceptance toward the disabled fostering participation in planning by all affected and informing themselves of the options available for making school services and facilities suitable for mainstreaming Author PGD **Mainstreaming**
