John Brinckerhoff Jackson, 1994-01-01 J B Jackson a pioneer in the field of landscape studies here takes us on a tour of American landscapes past and present showing how our surroundings reflect important changes in our culture Because we live in urban and industrial environments that are constantly evolving says Jackson time and movement are increasingly important to us and place and permanence are less so We no longer gain a feeling of community from where we live or where we assemble but from common work hours habits and customs Jackson examines the new vernacular landscape of trailers parking lots trucks loading docks and suburban garages which all reflect this emphasis on mobility and transience he redefines roads as scenes of work and leisure and social intercourse as places rather than as means of getting to places he argues that public parks are now primarily for children older people and nature lovers while more mobile or gregarious people seek recreation in shopping malls in the street and in sports arenas he traces the development of dwellings in New Mexico from prehistoric Pueblo villages to mobile homes and he criticizes the tendency of some environmentalists to venerate nature instead of interacting with it and learning to share it with others in temporary ways Written with his customary lucidity and elegance this book reveals Jackson's passion for vernacular culture his insights into a style of life that blurs the boundaries between work and leisure between middle and working classes and between public and private spaces

Place-Keeping Nicola Dempsey,Harry Smith,Mel Burton,2014-03-21 Place Keeping presents the latest research and practice on place keeping that is the long term management of public and private open spaces from around Europe and the rest of the world There has long been a focus in urban landscape planning and urban design on the creation of high quality public spaces or place making This is supported by a growing body of research which shows how high quality public spaces are economically and socially beneficial for local communities and contribute positively to residents quality of life and wellbeing However while large amounts of capital are spent on the creation of open spaces little thought is given to and insufficient resources made available for the long term maintenance and management of public spaces or place keeping Without place keeping public spaces can fall into a downward spiral of disrepair where anti social behaviour can emerge and residents may feel unsafe and choose to use other spaces The economic and social costs of restoring such spaces can therefore be considerable where place keeping does not occur Place Keeping also provides an accessible presentation of the outputs of a major European Union funded project MP4 Making Places Profitable Public and Private Open Spaces which further extends the knowledge and debate on long term management of public and private spaces It will be an invaluable resource for students academics and practitioners seeking critical but practical guidance on the long term management of public and private spaces in a range of contexts
