Creating a Forestry for the 21st Century Kathryn A. Kohm, Jerry F. Franklin, 1997 Over the past decade a sea change has occurred in the field of forestry A vastly increased understanding of how ecological systems function has transformed the science from one focused on simplifying systems producing wood and managing at the stand level to one concerned with understanding and managing complexity providing a wide range of ecological goods and services and managing across broad landscapes Creating a Forestry for the 21st Century is an authoritative and multidisciplinary examination of the current state of forestry and its relation to the emergent field of ecosystem management Drawing upon the expertise of top professionals in the field it provides an up to date synthesis of principles of ecosystem management and their implications for forest policy Leading scientists including Malcolm Hunter Jr Bruce G Marcot James K Agee Thomas R Crow Robert J Naiman John C Gordon R W Behan Steven L Yaffee and many others examine topics that are central to the future of forestry new understandings of ecological processes and principles from stand structure and function to disturbance processes and the movement of organisms across landscapes challenges to long held assumptions the rationale for clearcutting the wisdom of short rotations the exclusion of fire traditional tools in light of expanded goals for forest landscapes managing at larger

spatial scales including practical information and ideas for managing large landscapes over long time periods the economic organizational and political issues that are critical to implementing successful ecosystem management and developing institutions to transform knowledge into action Featuring a 16 page center section with color photographs that illustrate some of the best on the ground examples of ecosystem management from around the world Creating a Forestry for the 21st Century is the definitive text on managing ecosystems It provides a compelling case for thinking creatively beyond the bounds of traditional forest resource management and will be essential reading for students scientists working in state federal and private research institutions public and private forest managers staff members of environmental conservation organizations and policymakers **Klamath Falls Resource Area Resource(s) Management Plan (RMP)** ,1994
