UFOs John B. Alexander, 2011-02-15. A never-before-heard firsthand account of a government insider's experience on the cutting edge of UFO exploration. Includes a new afterword. Forget everything you think you know about UFOs; this insider's account exposes the reality. Packed with top-grade information, insightful analysis, and fascinating anecdotes, Alexander's interesting and controversial book sets the gold standard for titles on this subject. Nick Pope, author of *Open Skies, Closed Minds*, changes the playing field for both true believers and skeptics alike. Alexander strongly warns: be careful what you wish for when asking for presidential intervention. Success could set the field of ufology back decades. George Noory, host of *Coast to Coast AM*. While still on active duty in the U.S. Army during the 1980s, Colonel John B. Alexander, Ph.D., created an interagency group to explore the controversial topic of UFOs. All members held Top Secret clearance. What they discovered was not at all what was expected. *UFOs* covers the numerous cases they saw and answers questions like: What was really in Hanger 18? Did a UFO land at Holloman Air Force Base? What happened at Roswell? What is Majestic 12? What is the Aviair? What does the government know about UFOs? What has happened with disclosure in other countries? Has the U.S. reverse-engineered a UFO? Why don't presidents get access to UFO info? *UFOs* is at once a complete account of Alexander's findings and a call to action. There are no conspiracy theories here; only hard facts, but they are merely the beginning. Foreword by Jacques F. Vallee. Introduction by Burt Rutan. Commentary by Tom Clancy.

characteristics of the craft and the items found at the debris field *Terror Television* John Kenneth Muir, 2013-02-25

Although horror shows on television are popular in the 1990s thanks to the success of Chris Carter's *The X-Files*, such has not always been the case. Creators Rod Serling, Dan Curtis, William Castle, Quinn Martin, John Newland, George Romero, Stephen King, David Lynch, Wes Craven, Sam Raimi, Aaron Spelling, and others have toiled to bring the horror genre to American living rooms for years. This large-scale reference book documents an entire genre from the dawn of modern horror television with the watershed Serling anthology *Night Gallery* (1970), a show lensed in color and featuring more graphic makeup and violence than ever before seen on the tube, through more than 30 programs including those of the 1998-1999 season. Complete histories, critical reception, episode guides, cast/crew and guest star information, as well as series reviews, are included along with footnotes, a lengthy bibliography, and an in-depth index. From Kolchak, *The Night Stalker*, to *Millennium*, from *The Evil Touch* to *Buffy the Vampire Slayer* and *Twin Peaks*, *Terror Television* is a detailed reference guide to three decades of frightening television programs, both memorable and obscure.

Inside the Real Area 51 Thomas J. Carey, Donald R. Schmitt, 2013-08-20

The true nature of what actually crashed in Roswell, New Mexico, in 1947 remains classified. Only a select few have ever had access to the truth about what became known as Area 51. But what happened to the remnants of that crash is shrouded in even greater mystery. What began in the high desert of New Mexico ended at Wright-Patterson, an ultra-top secret Air Force base in Dayton, Ohio. The physical evidence of extraterrestrial visitation was buried deep within this nuclear stronghold. How tragic that such seismic news should be kept from the people of the world, pieces of history now quickly dwindling into oblivion as the last of the secret keepers passes on. In spite of its rich history of military service to our nation, Wright-Patterson also stands as the secret tomb of one of the greatest occurrences in recorded history. But be prepared: the real Area 51, Wright-Patterson's vault, is about to be opened.

Brainwashing David Seed, 2004

An examination of the literary and cinematic representations of brainwashing during the Cold War era. CIA operative who was a tireless campaigner against communism, it took hold quickly and became a means to articulate fears of totalitarian tendencies in American life. David Seed traces the assimilation of the notion of brainwashing into science fiction, political commentary, and conspiracy narratives of the Cold War era. He demonstrates how these works grew out of a context of political and social events and how they express the anxieties of the time. *The Manchurian Candidate*. Seed provides new interpretations of writers such as Orwell and Burroughs within the history of psychological manipulation for political purposes, using declassified and other documents to contextualise the material. He explores the shifting viewpoints of how brainwashing is represented, changing from an external threat to American values to an internal threat against individual American liberties by the U.S. government. Will welcome this study.
