attacking chess I was quite dismayed during a recent visit to my local bookstore I was in search of a book that covered an
array of attacks against many Pawn formations in an organized fashion Needless to say my search came up empty The books
on attacking fell short in many ways Many of the books were simply a small collection of attack games with no instruction
about the art of attacking or about the skills required to become a great attacker None of them provided the reader with any
reference information about attacking or the weaknesses of various Pawn formations None of them contained games with
attacking themes like the Traxler Variation of the Two Knight s Defense and the Jack Young Fishing Pole None of them
contained any wild attacking ideas that can stream from opening gambits such as the Blackmar Diemer Gambit King s
Gambit Scotch Gambit Nakhmanson Gambit etc 500 pages 435 games Figurine Chess Notation *Emanuel Lasker* Hans
