Black Communists Speak on Scottsboro Walter T. Howard, 2007-12-07 On March 25 1931 Alabama police detained nine young African American men at a railroad stop not far from Scottsboro In the process they encountered two white women who promptly accused the young men of raping them Soon after all white juries found the nine youths guilty and eight of them were sentenced to death Although many Americans were outraged by the injustices of the case the loudest voices raised in protest were those of members of the American Communist Party Many white Communists spoke out but black Communists took the lead in organizing public protests and legal responses As this surprising book makes clear they were acting at the direction of the Communist International Comintern which had directed them to address the Negro problem Now with the opening of formerly inaccessible Communist party archives this collection of primary documents reveals the little known but major roles played by black Communists in the case of the Scottsboro Boys

Labor of Love, Labor of Sorrow Jacqueline Jones, 2009-12-29 The forces that shaped the institution of slavery in the American South endured albeit in altered form long after slavery was abolished Toiling in sweltering Virginia tobacco factories or in the kitchens of white families in Chicago black women felt a stultifying combination of racial discrimination and sexual prejudice And yet in their efforts to sustain family ties they shared a common purpose with wives and mothers of all classes In *Labor of Love Labor of Sorrow* historian Jacqueline Jones offers a powerful account of the changing role of black women lending a voice to an unsung struggle from the depths of slavery to the ongoing fight for civil rights

The "Underclass" Debate Michael B. Katz, 1993 Examining the claim that an emerging underclass reveals an unprecedented crisis in American society this collection of essays studies a complex set of processes that has been at work for a long period degrading inner cities and the nation as a whole

Organized Labor in the Twentieth-century South Robert H. Zieger, 1991

Working-Class Americanism Gary Gerstle,2021-04-13 In this classic interpretation of the 1930s rise of industrial

unionism Gary Gerstle challenges the popular historical notion that American workers embrace of Americanism and other patriotic sentiments in the post World War I years indicated their fundamental political conservatism He argues that Americanism was a complex even contradictory language of nationalism that lent itself to a wide variety of ideological constructions in the years between World War I and the onset of the Cold War Using the rich and textured material left behind by New England s most powerful textile union the Independent Textile Union of Woonsocket Rhode Island Gerstle uncovers for the first time a more varied and more radical working class discourse *Sharecropper's Troubadour* M. Honey, 2013-11-19 Folk singer and labor organizer John Handcox was born to illiterate sharecroppers but went on to become one of the most beloved folk singers of the prewar labor movement This beautifully told oral history gives us Handcox in his own words recounting a journey that began in the Deep South and went on to shape the labor music tradition *Remember My Sacrifice* Elizabeth Davey, Rodney Clark, 2007-11-01 On the morning of July 27 1940 police arrested African American labor organizer Clinton Clark during a parishwide rally in Natchitoches Louisiana That day over 800 black farmers and plantation workers made their way to town to protest for fair payments for their crops and equal access to New Deal assistance programs Though those arrested with him were released after only three days Clinton remained in jail for three weeks without charges and faced a possible lynching News of Clark s captivity reached New Orleans labor organizers and spread to national civil liberties groups making him a public figure among civil rights organizations Recounting Clark s life in his own words *Remember My Sacrifice* is an exceptional first hand account of the lives of African Americans in rural Louisiana and of Clark s covert efforts to organize sharecroppers and farm workers during the Great Depression Born in 1903 Clark grew up in a sharecropping family in Pointe Coupee Parish Louisiana Like many of his counterparts Clark struggled to find work in the 1920s and in 1931 he moved to California with hopes of finding work Instead he was introduced to the Unemployed Benefits Council a Communist affiliated relief organization For Clark the organization s mission of collective action coupled with respect and relief for the unemployed was the ideal political expression for the frustration he felt within the southern economy Upon returning to Louisiana in 1933 Clark used his newfound confidence to organize sugar plantation workers and sharecroppers on his own often hiding out in the woods to escape the persecution of landowners and town officials Known as the Black Ghost of Louisiana Clinton Clark worked to connect rural Louisiana with a larger southern farmers union movement an effort that culminated in the formation of the Louisiana Farmers Union in 1937 Helping small farmers and farm workers most of whom were black take advantage of President Franklin Roosevelt s agricultural benefit programs and farm goods cooperatives that served to break down the tenant farmers reliance upon plantation commissaries Clark assisted Louisiana farmers in their search for an equitable income In 1942 Clinton Clark penned his autobiography at night while working at a trucking company in New Orleans and shortly afterwards he fled Louisiana for New York City In the years that followed Clark faced the FBI s Communist surveillance though his memoir suggests that Clark never

wholeheartedly endorsed communism he simply wanted equality With an introduction and thorough annotations by Elizabeth Davey and Rodney Clark Clinton Clark's nephew Clark's unique narrative illuminates the relationships between labor and civil rights groups and their important work organizing against racial discrimination in the years before the modern civil rights movement

To Do This, You Must Know How Lynn Abbot, Doug Seroff, 2013 A landmark study tracing the current of music education that gave form and style to the black gospel quartet tradition

In Remembrance of Emmett Till Darryl Mace, 2014-07-15 This provocative study explores how media coverage of Emmett Till's murder influences regional reactions and reignited the Civil Rights movement On August 28 1955 fourteen year old Chicago native Emmett Till was brutally beaten to death for allegedly flirting with a white woman at a grocery store in Money Mississippi Roy Bryant and J W Milam were acquitted of Till's murder then admitted to the crime in an interview with the national media They were never convicted Although Till's body was mutilated his mother ordered that his casket remain open so that the country could observe the results of racially motivated violence in the Deep South Media attention fanned the flames of regional tension and impelled many individuals including Rosa Parks to become vocal activists for racial equality In this innovative study Darryl Mace explores media coverage of Till's murder and analyses its influence on the regional and racial perspectives He investigates the portrayal of the trial in popular and black newspapers across the South documents posttrial reactions and examines Till's memorialization in the press to highlight the media's role in shaping opinions

A Stone of Hope David L. Chappell, 2009-12-07 The civil rights movement was arguably the most successful social movement in American history In a provocative new assessment of its success David Chappell argues that the story of civil rights is not a story of the ultimate triumph of liberal ideas after decades of gradual progress Rather it is a story of the power of religious tradition Chappell reconsiders the intellectual roots of civil rights reform showing how northern liberals' faith in the power of human reason to overcome prejudice was at odds with the movement's goal of immediate change Even when liberals sincerely wanted change they recognized that they could not necessarily inspire others to unite and fight for it But the prophetic tradition of the Old Testament sometimes translated into secular language drove African American activists to unprecedented solidarity and self sacrifice Martin Luther King Jr Fannie Lou Hamer James Lawson Modjeska Simkins and other black leaders believed as the Hebrew prophets believed that they had to stand apart from society and instigate dramatic changes to force an unwilling world to abandon its sinful ways Their impassioned campaign to stamp out the sin of segregation brought the vitality of a religious revival to their cause Meanwhile segregationists found little support within their white southern religious denominations Although segregationists outvoted and outgunned black integrationists the segregationists lost Chappell concludes largely because they did not have a religious commitment to their cause

The American South William J. Cooper Jr., Thomas E. Terrill, Christopher Childers, 2016-11-17 In *The American South A History* Fifth Edition William J Cooper Jr and Thomas E Terrill demonstrate their belief that it is impossible to divorce the history of the South from the history of the

United States The authors analysis underscores the complex interaction between the South as a distinct region and the South as an inescapable part of America Cooper and Terrill show how the resulting tension has often propelled section and nation toward collision In supporting their thesis the authors draw on the tremendous amount of profoundly new scholarship in Southern history Each volume includes a substantial bibliographical essay completely updated for this edition which provides the reader with a guide to literature on the history of the South This volume contains updated chapters and tables **Little 'Red Scares'** Robert Justin Goldstein,2016-05-13 Anti communism has long been a potent force in American politics capable of gripping both government and popular attention Nowhere is this more evident than the two great red scares of 1919 20 and 1946 54 the latter generally if somewhat inaccurately termed McCarthyism The interlude between these two major scares has tended to garner less attention but as this volume makes clear the lingering effects of 1919 20 and the gathering storm clouds of McCarthyism were clearly visible throughout the 20s and 30s even if in a more low key way Indeed the period between the two great red scares was marked by frequent instances of political repression often justified on anti communist grounds at local state and federal levels Yet these events have been curiously neglected in the history of American political repression and anti communism perhaps because much of the material deals with events scattered in time and space which never reached the intensity of the two great scares By focusing on this twenty five year interim period the essays in this collection bridge the gap between the two high profile red scares thus offering a much more contextualised and fluid narrative for American anti communism In so doing the rationale and motivations for the red scares can be seen as part of an evolving political landscape rather than as isolated bouts of hysteria exploding onto and then vanishing from the political scene Instead a much more nuanced appreciation of the conflicting interests and fears of government politicians organised labour free speech advocates employers and the press is offered which will be of interest to anyone wishing to better understand the political history of modern America
