Van Denmark,1912 **Catalogue of Copyright Entries** Library of Congress. Copyright Office,1906 *The Writing in the  
Stars* Rodney Williamson,2007-01-01 Born in Mexico City in 1914 writer poet and diplomat Octavio Paz won the Nobel Prize  
for Literature in 1990 eight years before his death in 1998 The Writing in the Stars explores Paz s life and ideas by  
establishing a dialogue between the structure and recurring images of his major poems and the ideas of Carl Jung Although  
other literary critics have pointed to Jungian concepts in Paz a comprehensive study on the subject has yet to be undertaken  
Rodney Williamson takes up this challenge adopting a Jungian perspective to explore successive phases of Paz s poetry  
Williamson illustrates how archetypal images infuse Paz s early poetry and his surrealist period and shows how the circular  
structure of Paz s longer poems such as *Piedra de sol* and *Blanco* are based on the Eastern sacred circle or mandala a major  
archetype of psychic wholeness in Jung He argues that a grasp of the psychological importance of Jung s archetypes is  
essential to understanding the various syntheses of creative truth and existence sought by Paz at different defining moments  
of his career as a poet The Writing in the Stars will prove fascinating to anyone interested in Latin American literature
