Nudes And Portraits:

Nudes and portraits Gorden Thye, 2003 Amedeo Modigliani Anette Kruszynski, 1996 The author provides a sympathetic interpretation of Modigliani's career. She charts the artist's development from the penetrating psychological studies of his early portraits through images of a more decorative nature to his mature depictions of nudes. "Models Wanted-any Age, Any Size" Rankin, 2001 The Nude Photography of Rankin is a collection of portraits by the celebrated photographer Rankin. The result of an anonymous ad in London's Time Out magazine for nude models all ages all sizes for photographic exhibition, this book is a collaboration between Rankin and the women who agreed to stand naked in front of his camera. The faces and figures collected in this book range from familiar film fashion and pop icons to highly individual ordinary women, all of whose portraits reflect their feeling and fantasies with style and humor. Fine Art Nudes, 2015-05-18 In this book, veteran photographer Stan Trampe shows you how to produce outstanding black and white nude portraits using basic equipment and a simple lighting approach, both in the studio and on location. You'll get great insight into what it takes to develop a trusting relationship with models that will facilitate an eagerness for them to embrace and even improve upon your creative concepts. With more than 25 years' experience photographing nudes, Trampe has developed an eye for what makes a portrait resonate with viewers. In the pages of this book, you'll discover what makes his black and white fine art nude images tick. You'll get tips for choosing dramatic indoor and outdoor locations that will serve as the perfect backdrop and set the mood in the image. You will also learn how to create or find great natural light that shows texture and contours the model's body for added appeal. Posing subjects to coax curves and highlight the subject's physical aspects is of obvious import in this genre, and Trampe teaches you to help conceptualize a strategy that not only makes the subject look good but in many cases even plays off of another shape in the overall image. He also teaches you when and how adding fabric or props will further your image and when less is more. Also included are pages on traditional compositional guidelines such as effective framing, leading lines, and the Rule of Thirds. Finally, Trampe ends with a look at basic retouching in postproduction to lighten or darken the image, remove blemishes, and creatively crop the image for added impact. Whether you are new to photographing artful nudes or simply want to learn some new ideas to work into your repertoire, this book will enhance every aspect of your photography. *Portraits, Nudes, Clouds* Vittorio Santoro, Paul Bowles, 1993 **The Art of Portraits and the Nude** Time-Life Books, 1984 The Naked and the Lens, Second Edition Louis Benjamin, 2015-12-22 Nude photography can be intimidating for the artist and the subject. Rembrandt and the Female Nude Eric Jan Sluiter, Rembrandt Harmenszoon van Rijn, 2006 Rembrandt's extraordinary paintings of female nudes Andromeda Susanna Diana and her Nymphs Dana Bathsheba as well as his etchings of nude women have fascinated many generations of art lovers and art historians But they also elicited vehement criticism when first shown described as against the grain anticlassical even ugly and unpleasant However Rembrandt chose conventional subjects kept close to time honored pictorial schemes and was well aware of the high prestige accorded to the depiction of the naked female body Why then do these works deviate so radically from the depictions of nude women by other artists To answer this question Eric Jan Sluiter in Rembrandt and the Female Nude examines Rembrandt's paintings and etchings against the background of established pictorial traditions in the Netherlands and Italy Exploring Rembrandt's intense dialogue with the works of predecessors and peers Sluiter demonstrates that more than any other artist Rembrandt set out to incite the greatest possible empathy in the viewer an approach that had far reaching consequences for the moral and erotic implications of the subjects Rembrandt chose to depict In this richly illustrated study Sluiter presents an innovative

approach to Rembrandt's views on the art of painting his attitude towards antiquity and Italian art of the Renaissance his sustained rivalry with the works of other artists his handling of the moral and erotic issues inherent in subjects with female nudes and the nature of his artistic choices
