Nukufero: a Tikopian Colony in the Russell Islands Eric H. Larson, 1966      Tikopia Ritual and Belief (Routledge Revivals) Raymond Firth, 2012-11-12 First published in 1967 this book gives some of the fruits of the author's study of Tikopia ways of thought as the result of three field expeditions Most Polynesians became Christians more than a century ago but Tikopia had a substantial pagan population until quite recent years This book of essays describes rites and beliefs of a people who still maintained their traditional institutions remote from civilization Studies of totemism of magic and of beliefs in the fate of the soul in the afterworld not only throw new light on Polynesian attitudes but also contribute some novel ideas to the interpretation of standard theoretical problems in social anthropology Studies of rumour suicide and a new essay on spirit mediumship also provide links between social anthropology and psychology A general review based on the author's visit in 1966 describes the modern position after the adoption of Christianity      Pacific Art Anita Herle, 2002-01-01 Contributors explore the complex relations among Pacific artists patrons collectors and museums over time as well as the different meanings given to art objects by each      Climate Change and Human Mobility Kirsten Hastrup, Karen Fog Olwig, 2012-08-23 The greatest single impact of climate change could be on human migration stated the Intergovernmental Panel on Climate Change IPCC in 1990 Since then there has been considerable concern about the large scale population movements that might take place because of climate change This book examines emerging patterns of human mobility in relation to climate change drawing on a multidisciplinary approach including anthropology and geography It addresses both larger general questions and concrete local cases where the link between climate change and human mobility is manifest and demands attention empirically analytically and conceptually Among the cases explored are both historical and contemporary instances of migration in response to climate change and together they illustrate the necessity of analyzing new patterns of movement historic cultural images and regulation practices in the wake of new global processes      **Exiles and Migrants in Oceania** Michael D. Lieber, 2019-03-31 The cultural and social consequences of uprooting island populations are the principal concerns of the anthropologists contributing to this first comparative study of resettled communities The ten communities chosen for study include migrant groups like the Rotumans in Fiji as well as relocated ones like the people of Bikini Atoll or the Tikopia in the Russell Islands      *The Social Consequences of Resettlement* Elizabeth Colson, University of Zambia. Bennett, 1987-05-01 Du site de l'd The history of the Solomon Islands is in itself an intriguing story and Dr Bennett tells it more than well The depth and breadth of the work is impressive in at least two respects First it covers events in the Solomons from initial European contact in the middle 1500s to the country's emergence as an independent and sovereign state in 1978 Second all facets of colonial history are covered to name only a few the early contact period the whaling trade the development of plantations the nature of British colonial rule

and missionization Considering the scope of this volume it represents a definitive history of the Solomon Islands and it will remain so for many years to come     *Cash Cropping, Catholicism and Change* Olga Gostin,Australian National University.
