Nunaga My Land My Country:

Ulinaisigutiit Lucien Schneider, 1985 Inuktitut words in roman orthography and syllabics **Encyclopedia of the Arctic** Mark Nuttall, 2005-09-23 With detailed essays on the Arctic's environment wildlife climate history exploration resources economics politics indigenous cultures and languages conservation initiatives and more this Encyclopedia is the only major work and comprehensive reference on this vast complex changing and increasingly important part of the globe Including 305 maps This Encyclopedia is not only an interdisciplinary work of reference for all those involved in teaching or researching Arctic issues but a fascinating and comprehensive resource for residents of the Arctic and all those concerned with global environmental issues sustainability science and human interactions with the environment **Shamanism**

Manvir Singh, 2025-05-20 From a brilliant young Harvard trained anthropologist and contributor to *The New Yorker* comes a fascinating investigation into the spiritual practice of shamanism from its beginnings to the present moment for readers disaffected with organized religion who seek a more personal approach to spirituality What are the origins of shamanism and what is its future Do shamans believe in their powers What exactly is trance What can we learn from indigenous healing practices Traveling from Indonesia to the Colombian Amazon living with shamans and observing music drug use and indigenous curing ceremonies anthropologist Manvir Singh journeys into one of the most mysterious religious traditions Fundamentally shamans are specialists who use altered states to engage with unseen realms and provide services like healing and divination As Singh shows shamanism's appeal stems from its psychological resonance Its essence is spiritual transformation a specialist uses initiations deprivation and non ordinary states to seemingly become a different kind of human one possessed of powers to cure prophesy and otherwise tame life's uncertainties Following a fascinating cast of characters Singh reveals the complexities and vicissitudes of a timeless always relevant and ubiquitous phenomenon He argues that biomedicine can learn from shamanic practices and that psychedelic enthusiasts completely misrepresent history He also shows that shamanic traditions will forever re emerge and that by contemplating humanity's oldest spiritual practice we come to better understand ourselves our history and our future *Nunaga: Ten Years of Eskimo Life* Duncan Pryde, 1972

Monsters David D. Gilmore, 2012-05-26 The human mind needs monsters In every culture and in every epoch in human history from ancient Egypt to modern Hollywood imaginary beings have haunted dreams and fantasies provoking in young and old shivers of delight thrills of terror and endless fascination All known folklores brim with visions of looming and ferocious monsters often in the role as adversaries to great heroes But while heroes have been closely studied by mythologists monsters have been neglected even though they are equally important as pan human symbols and reveal similar insights into ways the mind works In *Monsters Evil Beings Mythical Beasts and All Manner of Imaginary Terrors* anthropologist David D Gilmore explores what human traits monsters represent and why they are so ubiquitous in people's imaginations and share so many features across different cultures Using colorful and absorbing evidence from virtually all

times and places *Monsters* is the first attempt by an anthropologist to delve into the mysterious frightful abyss of mythical beasts and to interpret their role in the psyche and in society After many hair raising descriptions of monstrous beings in art folktales fantasy literature and community ritual including such avatars as Dracula and Frankenstein Hollywood ghouls and extraterrestrials Gilmore identifies many common denominators and proposes some novel interpretations *Monsters* according to Gilmore are always enormous man eating gratuitously violent aggressive sexually sadistic and superhuman in power combining our worst nightmares and our most urgent fantasies We both abhor and worship our monsters they are our gods as well as our demons Gilmore argues that the immortal monster of the mind is a complex creation embodying virtually all of the inner conflicts that make us human Far from being something alien nonhuman and outside us our monsters are our deepest selves

Near-Death Experience in Indigenous Religions Gregory Shushan, 2018-07-03 Near death experiences are known around the world and throughout human history They are sometimes reported by individuals who have revived from a period of clinical death or near death and they typically feature sensations of leaving the body entering and emerging from darkness meeting deceased friends and relatives encountering beings of light judgment of one's earthly life feelings of oneness and reaching barriers only to return to the body Those who have NDEs almost invariably understand them as having profound spiritual or religious significance In this book Gregory Shushan explores the relationship between NDEs shamanism and beliefs about the afterlife in traditional indigenous societies in Africa North America and Oceania Drawing on historical accounts of the earliest encounters with explorers missionaries and ethnologists this study addresses questions such as Do ideas about the afterlife commonly originate in NDEs What role does culture play in how people experience and interpret NDEs How can we account for cross cultural similarities and differences between afterlife beliefs Though NDEs are universal Shushan shows that how they are actually experienced and interpreted varies by region and culture In North America they were commonly valorized and attempts were made to replicate them through shamanic rituals In Africa however they were largely considered aberrational events with links to possession or sorcery In Oceania Micronesia corresponded more to the African model while Australia had a greater focus on afterlife journey shamanism and Polynesia and Melanesia showed an almost casual acceptance of the phenomenon as reflected in numerous myths legends and historical accounts This study examines the continuum of similarities and differences between NDEs shamanism and afterlife beliefs in dozens of cultures throughout these regions In the process it makes a valuable contribution to our knowledge about the origins of afterlife beliefs around the world and the significance of related experiences in human history

Friendship Daniel J. Hruschka, 2010-09-24 Friends they are generous and cooperative with each other in ways that appear to defy standard evolutionary expectations frequently sacrificing for one another without concern for past behaviors or future consequences In this fascinating multidisciplinary study Daniel J Hruschka synthesizes an array of cross cultural experimental and ethnographic data to understand the broad meaning of friendship how it develops how it interfaces with kinship and romantic

relationships and how it differs from place to place Hruschka argues that friendship is a special form of reciprocal altruism based not on tit for tat accounting or forward looking rationality but rather on mutual goodwill that is built up along the way in human relationships

A Precarious Enterprise Scott McIntyre, 2025-09-09 A Precarious Enterprise has all of the DNA necessary for future historians to fully understand the joyous and unexpected rodeo that was CanLit 1.0 It was a cherished window in time and Scott tells of it with love and the ultimate insider's POV Douglas Coupland author and artist Ever wondered how a publishing house works Scott McIntyre tells all in this behind the scenes look at Canadian publishing Scott McIntyre has lived the story of Canadian book publishing Beginning his career at McClelland Stewart in 1967 he went on to cofound his own publishing house Douglas McIntyre in 1970 and made his mark on the industry amid the country's exhilarating literary coming of age Becoming one of Canada's largest and most respected publishing houses and among the first to embrace Indigenous issues Douglas McIntyre and its associated children's publisher Groundwood Books published some 900 authors and 2 000 books in less than 50 years For McIntyre the authors always came first and he worked closely with many important figures including Doris Shadbolt Wayson Choy Richard Wagamese Anna Porter Will Ferguson Douglas Coupland Hugh Brody Robert Bringhurst Wade Davis and Farley Mowat Telling stories featuring a colorful array of characters who rebuilt the publishing world following WWII and anecdotes about how book publishing works McIntyre touches upon the guiding philosophy and historic traditions still animating the industry today More than the story of one publisher and his company this is a first person account of the buoyant period when writers their books and the companies who published them changed the nation
