Nuns And The Education Of American Catholic Women 1860 19:

Come Follow Me and Foresake Temptation Tom A. O'Donoghue, 2004 The focus of this book is on the situation prevailing in the United States England and Wales Ireland Australia and New Zealand from 1922 to 1965 whereby Catholic schools were used to maximise the possibility of recruiting new members to the religious oders and to minimise the temptation to leave the religious life amongst those who had already joined Four major practices are examined in this regard First Catholic schools deliberately set out to encourage pupils to join the ranks of the religious Secondly they replicated within the schools the authoritarianism of the religious life Thirdly they worked continuously to marginalize lay teachers from their decision making Finally they were ever vigilant in their opposition to co education and sex education The contribution of the religious orders to Catholic education is recognized but consideration is also given to child abuse both physical and sexual in whhich members of various religious teaching orders engaged The book closes with some consideration of current practices in Catholic education book cover Irish Nuns and Education in the Anglophone World Deirdre Raftery, 2024-01-08 This book charts the history of how Irish born nuns became involved in education in the Anglophone world It presents a heretofore undocumented study of how these women left Ireland to establish convent schools and colleges for women around the globe It challenges the dominant narrative that suggests that Irish teaching Sisters also commonly called nuns were part of the colonial project and shows how they developed their own powerful transnational networks Though they played a role in the education of the daughters of the Empire they retained strong bonds with Ireland reproducing their own Irish education in many parts of the Anglophone world The Forgotten Contribution of the Teaching Sisters Bart Hellinckx, Frank Simon, Marc Depaepe, 2009 For far too long Catholic teaching sisters have been denied their rightful place in the history of education It is only during the past twenty five years that researchers in many countries have begun to reveal the fundamental role played by these women in the schooling of children of both the masses and the elite during the 19th and 20th centuries This essay provides for the first time a detailed overview of the historiography of the teaching sisters in Western Europe North America Latin America and Australasia surveying scholarship since 1985 It reviews the literature on six major themes contribution to schooling teaching orders and schools educational philosophy content and practice life and lived experience of teachers and students the professionalization of teaching and changes in the composition of the teaching staff Very rich in bibliographical references this book is indispensable for all further research on this significant but underexplored group of women teachers Publisher's website Nuns and the Education of American Catholic Women. 1860-1920 Eileen Mary Brewer,1987 Catholic Women's Colleges in America Tracy Schier, Cynthia Russett, 2003-05-22 More than 150 colleges in the United States were founded by nuns and over time they have served many constituencies setting some educational trends while reflecting others In Catholic Women's Colleges in America Tracy Schier Cynthia Russett and their coauthors provide a comprehensive history of these institutions and how they met the challenges of

broader educational change The authors explore how and for whom the colleges were founded and the role of Catholic nuns in their founding and development They examine the roots of the founders spirituality and education they discuss curricula administration and student life And they describe the changes prompted by both the church and society beginning in the 1960s when decreasing enrollments led some colleges to opt for coeducation while others restructured their curricula partnered with other Catholic colleges developed specialized programs or sought to broaden their base of funding Contributors Dorothy M Brown Georgetown University David R Contosta Chestnut Hill College Jill Ker Conway Massachusetts Institute of Technology Carol Hurd Green Boston College Monika K Hellwig Association of Catholic Colleges and Universities Karen Kennelly president emerita of Mount Saint Mary's College Los Angeles Jeanne Knoerle president emerita of Saint Mary of the Woods College Thomas M Landy College of the Holy Cross Kathleen A Mahoney Humanitas Foundation Melanie M Morey Leadership and Legacy Associates Boston Mary J Oates Regis College Jane C Redmont Graduate Theological Union in Berkeley Cynthia Russett Yale University Tracy Schier Boston College Charitable Care: Catholic Nuns and Children in their Care in Amsterdam, 1852-2002 Annelies van Heijst, 2008-06-30 Models of Charitable Care analyses the practice of Catholic nuns in Amsterdam in the 19th and 20th century Attention is paid to the ambiguous ascetic spiritual discourse that underpinned their work it encouraged charity as solidarity with strangers but caused intense emotional distance too Historiography is mainly manufactured by religious and lay academics who shared the congregational perspective and presented fairly positive evaluations Criticism from within however is voiced by care leavers who grew up in homes ran by religious Some are grateful others bitter. The sisters were living models who combined an antiworldly outlook with a practical concern for vulnerable creatures Relating various theoretical interpretations a typology of three models is developed with agency as the differentiating criterion **Life at Four Corners** Carol K. Coburn, 1992-11-30 Defined less by geography than by demographic character Block Kansas in many ways exemplifies the prevalent yet seldom scrutinized ethnic religion based community of the rural midwest Physically small the town sprang up around four corners formed by crossroads Spiritually strong and cohesive it became the educational and cultural center for generations of German Lutheran families Block provided a religious and cultural oasis a welcome transition for German Lutheran immigrants faced with a new language and unfamiliar customs Yet the tight bond between an ethnic society and a religion that shunned Americanism and the English language paradoxically slowed the transition and maintained a culturally isolated community well into the twentieth century In Life at Four Corners Carol Coburn analyzes the powerful combination of those ethnic and religious institutions that effectively resisted assimilation for nearly 80 years only to succumb to the influences of the outside world during the 1930s and 1940s Emphasizing the formal and informal education provided by the church school and family she examines the total process of how values identities and all aspects of culture were transmitted from generation to generation Few ethnic or community studies have focused on a village community that defined itself less by

geographic boundaries and more by ethnic and religious identity writes Coburn The community's strong religious and ethnic identity coupled with its homogeneity and rural isolation provided a unique educational environment that was total ongoing and more pervasive than in most rural settings or ethnic urban environments. This book is clearly and engagingly written It opens a window on the inner life of an early rural settlement in Kansas and allows the reader to understand the values fears and beliefs of this important group of settlers The author offers insight into the intersection of several variables including gender religion and region Glenda Riley author of The Female Frontier A Comparative View of Women on the Prairie and the Faith and Action Roger Antonio Fortin, 2002 Based on extensive primary archival materials Faith and Action is a Plains comprehensive history of the Catholic Archdiocese of Cincinnati over the past 175 years Fortin paints a picture of the Catholic Church's involvement in the city's development and contextualizes the changing values and programs of the Church in the region He characterizes the institution s history as one of both faith and action From the time of its founding to the present the way Catholics in the archdiocese of Cincinnati have viewed their relationship with the rest of society has changed with each major change in society In the beginning while espousing separation of church and state and religious liberty they wanted the Church to adapt to the new American situation In the mid nineteenth century Cincinnati Catholics dealt with a dominant Protestant culture and at times a hostile environment whereas a century later it had become much more a part of the American mainstream Throughout most of the nineteenth and early twentieth centuries most Catholics saw themselves as outsiders During the past fifty years however Cincinnati Catholics like most of their counterparts in the United States have felt more confident and viewed themselves as very much a part of American society Publisher's description **Education of American Girls** Kim Tolley, 2014-04-08 The Science Education of American Girls provides a comparative analysis of the science education of adolescent boys and girls and analyzes the evolution of girls scientific interests from the antebellum era through the twentieth century Kim Tolley expands the understanding of the structural and cultural obstacles that emerged to transform what in the early nineteenth century was regarded as a girl's subject As the form and content of pre college science education developed Tolley argues direct competition between the sexes increased Subsequently the cultural construction of science as a male subject limited access and opportunity for girls **Called to Serve** Margaret M. McGuinness, 2015-12 For many Americans nuns and sisters are the face of the Catholic Church Far more visible than priests Catholic women religious teach at schools found hospitals offer food to the poor and minister to those in need Their work has shaped the American Catholic Church throughout its history McGuinness provides the reader with an overview of the history of Catholic women religious in American life from the colonial period to the present The History of American Catholic Women James Joseph Kenneally, 1990 Midwestern Women Lucy Eldersveld Murphy, Wendy Hamand Venet, 1997-12-22 an excellent introduction to a complex subject Anyone interested in the Midwest or in women s history will find it a valuable resource Agricultural History the volume as a whole invigorates the field of midwestern history Wisconsin Magazine of

History examines four centuries of Midwestern women's history including urban and rural frontier settlers and American Indians Mexican and European migrants The book mixes telling anecdotes with scholarly research Indianapolis Star Writing about four centuries of midwestern women s history including urban rural and frontier women Native Americans African Americans Mexicanas as well as European migrants essayists discuss ways midwestern women s lives resemble those women of other regions and ways in which their lives are distinctive By addressing a broad range of questions about the lives of midwestern women this volume encourages further research of this neglected but important group The volume also includes a lengthy bibliography Chartered Schools Nancy Beadie, Kim Tolley, 2014-04-08 Academies were a prevalent form of higher schooling during the eighteenth and nineteenth centuries in the United States The authors in this volume look at the academy as the dominant institution of higher schooling in the United States highlighting the academy s role in the formation of middle class social networks and culture in the mid nineteenth century. They also reveal the significance of the academy for ethnic religious and racial minorities who organized independent academies in the face of exclusion and discrimination by other private and public institutions Neighbors and Missionaries Margaret M. McGuinness, 2012 A history of the Sisters of Our Lady of Christian Doctrine a community of women religious founded to minister to Catholics in the United States through staffing and administering settlement houses and offering religious education to children enrolled in public schools

Spirited Lives Carol K. Coburn, Martha Smith, 2005-10-12 Made doubly marginal by their gender and by their religion American nuns have rarely been granted serious scholarly attention Instead their lives and achievements have been obscured by myths or distorted by stereotypes Placing nuns into the mainstream of American religious and women s history for the first time Spirited Lives reveals their critical impact on the development of Catholic culture and ultimately the building of American society Focusing on the Sisters of St Joseph of Carondelet one of the largest and most diverse American sisterhoods Carol Coburn and Martha Smith explore how nuns directly influenced the lives of millions of Americans both Catholic and non Catholic through their work in schools hospitals orphanages and other social service institutions Far from functioning as passive handmaidens for Catholic clergy and parishes nuns created financed and administered these institutions struggling with and at times resisting male secular and clerical authority A rich and multifaceted narrative Spirited Lives illuminates the intersection of gender religion and power in nineteenth and early twentieth century America

The Quiet Revolutionaries Susan Hudson, 2013-09-13 The book recognizes the achievements by a nineteenth century community of women religious the Grey Nuns of Lewiston Maine The founding of their hospital was significant in its time as the first hospital in that factory city and is significant today if one desires a more accurate and inclusive history of women and healthcare in America The fact that this community lived in a hostile Protestant dominated industrial environment while submerged in a French Canadian Catholic world of ethnicity tradition and paternalism makes their accomplishments more compelling Subversive Habits Shannen Dee Williams, 2022-03-21 In Subversive Habits Shannen Dee Williams provides

the first full history of Black Catholic nuns in the United States hailing them as the forgotten prophets of Catholicism and democracy Drawing on oral histories and previously sealed Church records Williams demonstrates how master narratives of women s religious life and Catholic commitments to racial and gender justice fundamentally change when the lives and experiences of African American nuns are taken seriously For Black Catholic women and girls embracing the celibate religious state constituted a radical act of resistance to white supremacy and the sexual terrorism built into chattel slavery and segregation Williams shows how Black sisters such as Sister Mary Antona Ebo who was the only Black member of the inaugural delegation of Catholic sisters to travel to Selma Alabama and join the Black voting rights marches of 1965 were pioneering religious leaders educators healthcare professionals desegregation foot soldiers Black Power activists and womanist theologians In the process Williams calls attention to Catholic women s religious life as a stronghold of white supremacy and racial segregation and thus an important battleground in the long African American freedom struggle
