Special Maps of Persia 1477-1925 Cyrus Alai, 2023-01-30 This volume complements the best seller and award winning General Maps of Persia praised by Dr John H bert Chief of the Geography and Map Division of the Library of Congress This carefully researched work is a must have item in any collection of research materials on the history of cartography I cannot wait for the arrival of subsequent volumes of further great scholarship and readable map reproductions on other detailed aspects of the history of mapping of Persia Encouraged by numerous commending reviews in five languages English French German Persian and Armenian and gratifying testimonials from many renowned authorities in the fields of History of Cartography and Iranian Studies Cyrus Alai continued his research and collected further material to produce the present volume Special Maps of Persia 1477 1925 covering every map of that region other than general maps Thus it not only complements the General Maps of Persia it is also a completely new volume in its own right and providing an even closer insight into the region The book is divided into nine chapters Historical Maps District Maps Frontier Maps Town Maps Political Maps etc Like the preceding volume it has a dual character being both a carto bibliography and a mapping history of Persia It contains 761 map entries of which 409 are illustrated mostly in colour Concise related historical accounts precede every chapter and section and essential historical notes are also supplied within many of the map entries Undoubtedly this book is a treasure house not just for cartographers but also historians social historians linguists and archaeologists The Book of Sir Marco Polo, the Venetian, Concerning the Kingdoms and Marvels of the East Marco Polo, Sir Henry Yule, 1875

The Book of Ser Marco Polo, the Venetian Marco Polo, 1871 Mapping Travel Jordana Dym, 2021-08-30 More often than not readers of travel narratives can expect to find at least one map if not several showing as English privateer William Dampier wrote the Course of the Voyage that is where the author traveler went and implicitly a sense of what was seen and experienced Dampier used a now common cartographic strategy to tell the story from beginning to end as well as around significant places on the way by marking the journey with a pricked line Despite the lines popularity and present ubiquity the complex intellectual and material process of considering travel as a continuum rather than as a series of stops along the way and of plotting a journey onto a map have attracted relatively little academic attention Drawing on a thousand years of European travel writing and map making Jordana Dym suggests that after centuries of text based itineraries and on the spot directions guiding travelers and constituting their reports maps in the fifteenth century emerged as tools for Europeans to support and report the results of land and sea travel Called in subsequent centuries route maps itinerary maps and travel maps often interchangeably what Dym defines as journey maps added lines of travel to show where travelers had been Since their emergence most have taken one of two forms itinerary maps which connected stages as points with a line and route maps which tracked unbroken lines between endpoints In the seventeenth century the conventions of journey mapping were codified and increasingly incorporated into travel writing and other genres that represented individual travel With each

succeeding generation these linear journey maps have become increasingly common and complex responding to changes in forms of transportation such as air and motor car flight and print technology especially the advent of multi color printing This is their story

The World Map, 1300-1492 Evelyn Edson,2007-05-30

In the two centuries before Columbus mapmaking was transformed The World Map 1300 1492 investigates this important transitional period of mapmaking Beginning with a 1436 atlas of ten maps produced by Venetian Andrea Bianco Evelyn Edson uses maps of the fourteenth and fifteenth centuries to examine how the discoveries of missionaries and merchants affected the content and configuration of world maps She finds that both the makers and users of maps struggled with changes brought about by technological innovation the compass quadrant and astrolabe rediscovery of classical mapmaking approaches and increased travel To reconcile the tensions between the conservative and progressive worldviews mapmakers used a careful blend of the old and the new to depict a world that was changing and growing before their eyes This engaging and informative study reveals how the ingenuity creativity and adaptability of these craftsmen helped pave the way for an age of discovery
